A NOTE FROM THE

PROVOST

One of the marks of a preeminent institution is how well our faculty are recognized for their scholarship and creative works on the national stage. As Georgia College continues the path to preeminence, it is crucial that our faculty be recognized not just as some of the best in the state of Georgia but also as some of the best in the United States.

In our second annual faculty excellence in scholarship/creative works celebration, we recognize more than 145 works created in 2016 which include articles, books and book chapters, works of art and literature, and musical and theatrical performances. Additionally, there are 14 faculty who serve as editors and/or editorial board members of professional journals and many more serving as reviewers for professional journals. It is hoped that today we are all inspired by the many ways our Georgia College faculty express their creativity and contribute to human knowledge as we seek preeminence as a public liberal arts university.

Dr. Kelli Brown
Provost and Vice President for Academic Affairs
