WARNING ISSUED TO STUDENTS

Faculty - Freshmen To Fight For Fun

Unique Game Will Be Played Monday

Faculty to Meet Freshman in Basketball Contest.

If coming events cast their shadows before, then whether you realize it or not, dear reader, this campus is truly "in the gloaming" this week, for on next Monday afternoon the most stupendous athletic event in the history of the college is to be pulled off! On that date the "Ph.D.'s" are to mix it up with the college babies. In short, the opponents are the faculty, the game is basketball, the place is the court back of Terrell, the time Monday at 4:30, and the outcome much speculation.

Merely the announcement of such a contest makes further comment seem unnecessary. To say that the eyes of the G. S. C. W. sporting world are focused on this event is not enough—the truth is they're fairly standing out on stems and if interest continues to mount, a call for smoked glasses is expected. A sell out on seats, both in the grandstand and in Terrell B. windows is confidently predicted, and the promoters feel now that they will be able not only to contribute greatly to the portrait of Mrs. Russell, but will practically buy the frame. In such a circumstance the old statement, "Come early and avoid the rush" would seem appropriate.

Aside from the fun and pleasure to be derived from the game, students are urged to attend, for a more serious purpose—can you imagine what would happen to your grade, should your major professor as a player look up into the bleachers and miss your smiling countenance? We shudder to discuss your disaster in such a case! But don't worry, to facilitate matters, the bleachers will probably be divided into separate cheering sections. For instance, there will be a reserved space for English majors, who may sit together and cheer in

(Continued on Page Three)

Seniors, Sophs On Enjoyable Outing

Hike to Gray Affords Bit of Recreation and Division For Classes.

Amid a gay flurry of handkerchiefs waving goodby, and last minute words of advice as to how one should most befittingly uphold the brown and white, the senior and the sophomore normal classes set out Friday on their traditional, though slightly unconventional, class trip. This year, due to an unselfish consideration of the family pocket-book in this age of depression, the girls of each class voted to make this year's trip a unique as well as economical one, in the form of a hike to Gray where they were entertained royally with a banquet in good old G. S. C. W. style.

Clad in most becoming walking costumes, the group met under the lights with cup in hand, and cheery smiles ready to leave promptly at five A. M. Miss Pyle and Mrs. Dorris, being known as the champion walkers of the campus where speed as well as mileage is desired, headed the group. Dr. Webber, as official caretaker of the group brought up the rear, with Mr. Fowler along the sideline to cheer up any who might become faint-hearted ere the journey ended. Due to the unfortunate absence of a special faculty car, that part of the group was sadly thinned.

At Haddock, the party stopped to make a sight-seeing trip of the city, and to allow thoughtful room-mates time to send cards to those less fortunate ones left behind. When the group finished the excursion of the city, they attended a lecture at the Grant Memorial Hall. Following the lecture, the group broke up and the afternoon was given over to individual recreation. Various souvenirs of Haddock brought back as "surprises," tell their own story as to how that time was spent.

The next stop was at "Way-side Inn" between Haddock and Gray, where the group was entertained with delightful stunts put on by a representation from the sophomore class. One of the outstanding numbers on the program was a yodeling contest won by Miss Maude New Shepherd. Miss Josephine Redwine, master of ceremonies, gave an entertaining imitation of various faculty members, which aroused great hilarity on the part of the other members of the group in guessing the identity of each. At the conclusion of the program, a group of sophomores served cocktails, after which the hike was resumed, and the party wended its merry way on toward the fair city of Gray.

On the outskirts of the city, the group of college students was met by the Gray City Band

(Continued on Page Three)

CRITICS PRAISE LATEST BOOKS BY FACULTY MEMBERS

News has reached the campus of the release from the press of several new books by various members of the faculty and administration.

One of these is "The Virtue of the Postage Stamp" by Miss Josephine Fritchett. Reviewers and critics of this astounding volume declare that the author's name will go down in the annals of American literature for the wonderful thoughts expounding in this work.

By means of a clear, snappy, styles he treats the subject from all angles. It is compelling and thrilling. Henry Siedel Canby says of it, "She has done an excellent piece of work and given us a big story in a little book."

Another release which is being duly discussed and appreciated is Mrs. E. C. Beaman's "Art of Making Out a Card." A strict adherence to and appreciation of the rules of art, their limitations and advantages are elaborated on. It is as entertainingly written as it is significant. The Book-of-the-Month Club has seen fit to adjudge this the book-of-the-month for April.

One of the most charming groups of sketches of the spring is "Library Romance" by Dr. Henry Ford White. The book is conspicuously shrewd in its analysis of character. Deep understanding of the power of love is shown. A lucid, though bombastic style is employed, these essays were secured with pleasure as a continued article in the winter issues of the Good Housekeeping magazine.

Other new books to be reviewed later are, "The Confession of a College President's Secretary" by Miss Mary Burns, "A New View of Cuba" by Miss Jessie Trawick, "Behind an Azalea Bush in Magnolia Gardens" by Miss Virginia Satterfield, and "The False Psychology of E. L. Thorndike" by Dr. Thomas B. Meadows.

MISS MIX-UP ADDED TO STAFF

An announcement that will bring joy and contentment to the students, faculty and general public is the one of the wonderful addition to our staff. Miss Lotta Mix-up of Hollywood and Sing-Sing fame has been rented at great expense to (the kind donor asked that "their" name be left out of this).

Through a great many keyholes and transoms our star reporter found that the monthly salary is \$10,000,000,000 (with emphasis on the zeros, cause they're free). BUT, don't think that the salary will in any way make Lotta (she wants you to call her that) snooty. Nosiree, not little Lotta. Whattawoman (come on over and get acquainted)!

Anyone desiring misinformation on their beau-lovers will address Miss Lotta Mix-up, care of Colonnade, Milledgeville, Ga.

Students Propose Amendment To U. S. Constitution

Women Plan to Run Government. Will Provide Employment for Men.

Believing the present economic situation to be the result of too much inefficient man handling, the students of the Georgia State College for Women met en masse Friday morning April 30 to propose an amendment to the U. S. Constitution. If necessary the students are willing to suggest and carry out as far as possible the entire revision of the present Constitution.

The students contend that the Constitution was drawn up by men at a time when men were considered the elite of the community. However, at the present time, men are less than necessary. Their mental activity relative to government shows that a direct strain of feeble mindedness is prevalent. Men are no longer MEN but are merely Egotistical Myths. Women are the realities of today.

If government is to be successfully run, it is necessary that women take a hand. By uniting, the women of the United States can surpass the male strength by a flash. Women don't need parties. Democrat, Republican, Socialist and what-have-you parties will so break up the masculine continent, that the government will pass into the hands of the women without even a wisp of an argument.

However the students desire to take a more drastic step than just to beat the men at their political tray. They believe men to be so inefficient that they propose an amendment to bar males from holding any type of office whatsoever.

After the amendment has been accepted, a plan will be made by which all men will be sent to Africa to hunt tigers. After the women have gotten the government on the high plane where it should be they will be allowed to return. However the only positions offered to them will be: (1) hunting four leaf clovers between the hours of 12 A. M. and 4 A. M. (2) searching for the end of the rainbow, (3) counting the stars, (4) untying knots in kite strings and (5) finding out how many words can be written with one fountain pen and one bottle of ink.

The amendment will be discussed at the next meeting of Congress.

Tot Tye Sheeley, Susie Butts Veal, and Margaret C. Hysler were elected to act as lobbyists.

P. S. This is supposed to be

THE COLONNADE.

Everyone Asked To Avoid Danger

College Will Not Be Responsible for Accidents Occurring Today.

A hint to the wise is sufficient. Beware, G. S. C. W. students! On this day thou shalt pick up no pocketbooks (first look for the string) rush through no dormitory room doors (first open carefully) then wait before going in until the string tied to the doorknob has pulled down the cup of water on the spot where you would have been.

On this day of days answer no questions—there's always a catch, resist all offers of candy (flavored with quinine and red pepper), especially from friends not usually so liberal, and above all, have patience in untying knots in your clothes, finding hidden text books and other precious belongings. Refrain from hating your roommate tonight when you settle down for a long night's rest only to find that your comfortable bed is to be shared with rats and rice crispies. How do you suppose she is faring, or did you forget April Fool?

Prince Of Wales Visits College

Delivers Address on "My Experiences in the African Jungle."

The Prince of Wales—none other—appeared here before a large and enthusiastic audience gathered in the biology lecture room Thursday evening, and delivered one of the most fascinating addresses ever heard on this campus.

His subject was "My Experiences in the African Jungle," and he related some breath-taking events which occurred during his recent big game hunt in the Congo.

At the close of his address the famous prince complimented G. S. C. W. very highly. "Never before in all of my travels have I seen such astounding beauty as I have found at this college," he said; and 1200 hearts missed a beat. "The young ladies of both faculty and student body have been most kind in looking after my welfare during my stay in Milledgeville, and I wish to take this time to express my appreciation to them for their hospitality. I also want to thank Misses Evelyn Turner and Martha McGavoc for the lovely orchids."

The address was to have been made in the Russell auditorium, but was changed at the last minute on account of the auditorium, being used for the practice of a recital.

The Prince left that night for London, England, where he expects to spend some time with his parents at Buckingham Palace.

Much Needed Reforms

Taken as a whole, the equipment and management of our college is very satisfactory, but there are several drastic needs which should be attended to, despite financial difficulties.

1. In the first place, there is an immediate necessity for a more social atmosphere in the library, especially at night. The silence which generally reigns is very oppressive and not at all conducive to effective study.

Special programs during the evening and refreshments would do much to induce a more harmonious environment for parallel work.

Notes
We are in favor of taking notes in class and so provide space for that purpose.

In the way of new construction, the most outstanding need is some shelter for bows and arrows nearer the archery field. We would suggest a small white house, about six by six feet, with a green roof, placed on the front campus just across from Parks Hall. Such a structure not only would be a great convenience for archery fields, but would also definitely add to the attractiveness of the campus.

More sleep and rest seems to be needed among both students and faculty, especially since spring has come. A compulsory siesta period from two to four o'clock every day would add greatly to good nature and harmony on the campus.

More frequent visits home would relieve the monotony of college life, give pleasures to both parents and daughters, and greatly increase the bus, train, and gasoline business.

Nothing would add more to the comfort of the student body with so little expense as would cushions placed in the classrooms for the convenience of those who wish to sleep during lectures.

Scoop News

Changes have been made in the rules and regulations of our fair school. From now on there will be no bells, no whistles, or anything else that might disturb the young ladies who will sleep until eleven-thirty each morning when breakfast will be served to them in their rooms by the dormitory maids and new Jig Saw puzzles will be placed on each tray. Carpets three inches deep are being laid in all halls for prevention against noise. Hundreds of entertaining books have been ordered by the college library and swimming pools are planned for the roof of each dormitory. It is unnecessary to add that every room will have a radio and that aside from breakfast meals will be served everywhere, any time.

Now that you are in the midst of a pretty dream of yourself, basking in the sunshine beside a pool, or reclining in a deep chair with sixteen of your favorite books, it is time to call April Fool! Not that we expected you to believe it anyhow, but honestly now, it would not be much fun would it? After the novelty of the thing has worn off the days would drag slowly by and in a week we would be begging for our week-end teachers and my what pleasure Mary and Sally and Jane and Lucy would get from having nine pages of Latin to read or a history book to outline!

Alice Monument Advocated

We are perfect. That is the attitude we are all too likely to take when others praise us and we ourselves see only our good points. We are proud of our wonderful school, but one blot on our record may be our seeming lack of appreciation for that loyal campus spirit, Alice. This is an humble attempt to start subscriptions to a fund to erect a life-size statue of our beloved Alice on the front campus. In days to come, we will greet it as an old friend when we make our yearly pilgrimage to the campus.

Who of you has not deftly carried a hot dog from the dining room after mealtime to drop it into the eager, hungry jaws of Alice? Who has not arrived at her destination after hiking miles and looked down to find Alice meekly following? Now is your chance to show your love and appreciation. Subscribe to the Alice monument!

Notes
We are in favor of taking notes in class and so provide space for that purpose.

MONDAY: All town girls were arrested for attempting to attend classes on this day. Upon being called into the court for a decision of their rashness they contended that lack of excitement and a thirst for knowledge had prompted the indiscretion. They also contended that grief over the absence of the boarding students had its weight also. No fewer than thirty girls were left in Atlanta. These were brought to school in a forty passenger plane owned by the board of regents, and used for this special purpose.

TUESDAY: This marks the spot. The hospital was filled to capacity and classes were suspended by the authorities in order to allow the girls sufficient time to catch up on the sleep which they lost Saturday night,

Holiday Diary

By APE RILL

This valuable bit of manuscript has been compiled for the special benefit of those curious to know just what the other girls found enticing during spring holidays. A little birdie spread the glad gossip.

TUESDAY: This being the beginning of the so-called spring holidays all girls pulled out their winter coats and suede shoes, blew off all the dust that could be seen at a glance, gave the instructors a treat by appearing in class thusly clad, and then hid home to mother and what not.

It is rumored that Martha Parker and Anna Everette arrived at St. Simon's hall and swam in the ocean for the roof of each dormitory. It is unnecessary to add that every room will have a radio and that aside from breakfast meals will be served

anywhere, any time.

No one knows exactly how the Peacocks reached Macon but the last seen of the two charming ladies was some where between Macon and Milledgeville not-footing it in some unknown direction.

WEDNESDAY: Billie Jennings reported that on this day in her early appearance in the city of Augusta that it was necessary to have a police escort to protect her from the admiring throng which they are giving at the Hotel Baldwin next Wednesday night.

Each girl will be allowed two twogentleman escorts. There will be dancing and music will be furnished by Guy Lombardo. The cost of this will be met by the girls themselves.

Especially the willful sex was

thrifty and necessitated a couple of dozen of proxies to fill all the dates they made.

THURSDAY: By this eventful day all G. S. C. W. students had secured dates for the following Saturday night. Margaret K's mother gave consent for her daughter to buy a new dress for her date.

"Them as had to work too hard for their dates" rested the greater part of the day. Cod liver oil and Brussels constituted the main diet of these unfortunate ones.

FRIDAY: The radio world was thrilled beyond measure to hear Laura Lambert and Betty Watt sing "Darkness on the Delta" over station WLW. The two estimated that they received a grand total of over six hundred telegrams of congratulations. Strangely enough none were from G. S. C. W. connections.

SATURDAY: This being the great day when all G. S. C. W. girls were to have dates the President declared a temporary suspension of business in celebration. Less than the entire corps of freshman class officers were crushed in a stampede for seats at the Fox, to which place three-fourths of the girls had directed their dates.

ARRIVED AT THE BRINK OF THE ERING OCEAN THE QUINTET SLICED THIGHS FROM A FEW FRIENDLY WHALES AND PROCEEDED DOWN INTO THE DARK AND COOLISH SEA. THE HORSELESS CARRIAGE, WHOSE NAME WAS CHEVALIER, SAW A MERMAID AND RAISED HIS RADITOR CAP WHEREUPON IT CONSUMED AMOUNTS OF WATER UNSUITED TO ITS CAPACITY, RESULTING IN CHAVALIER DROWNED.

SUNDAY: All the girls turned out en masse to church. Frances Adams swooned in an attempt to out sing her escort and Anneke Luris of "deah of Columbus" received a contract for ten years in the movies. This offer was not considered by her however as she absolutely refused to talk shop on Sunday.

MONDAY: All town girls were arrested for attempting to attend classes on this day. Upon being called into the court for a decision of their rashness they contended that lack of excitement and a thirst for knowledge had prompted the indiscretion. They also contended that grief over the absence of the boarding students had its weight also. No fewer than thirty girls were left in Atlanta. These were brought to school in a forty passenger plane owned by the board of regents, and used for this special purpose.

TUESDAY: This marks the spot. The hospital was filled to capacity and classes were suspended by the authorities in order to allow the girls sufficient time to catch up on the sleep which they lost Saturday night,

Campus Crusts

If you're in the mood for what is not worth in public, we should like to convey a mistaken impression of what happened to Paul Revere in his quartet of horseless horsemen when some attempted to ride one or there here new fangled horseless carriages.

On the night of February 26, 1936, the pernicious Paul, age 53 and went to rescue the Queen of Sheba who had sunk to a very low level while pursuing white sea-cows in the Ering Ocean.

The cost of this will be met by the girls themselves.

Each girl will be allowed two twogentleman escorts. There will be dancing and music will be furnished by Guy Lombardo.

Especially the willful sex was

thrifty and necessitated a couple of dozen of proxies to fill all the dates they made.
