JUNIORS RECEIVE PRIVLEGES

On Tuesday morning October the 16th, to the tune of an inspiring march the members of the Junior class took their places on the rostum to receive Junior responsibilities and self government.

The devotional, led by Eleanor Piper Treasurer of the class, was followed by a very appropriate song by Beatrice Howard.

Dorothy Jay and Irma Vaughan, President and Vice-President of the class, gave inspiring talks.

The class song was followed by the reading of the privileges petioned for, by the Secretary of the class, Austelle Adams.

In reply Dr. Beeson granted the petition and gave a short interesting talk.

MISS YOUNG SPEAKS AT CHAPEL

Miss Willa R. Young, Student Secretary of the National Y. W. C. A. Council, addressed the student body and faculty at the chapel exercises last Wednesday. Her subject was "Frontier Spirit."

"What has become of the pioneer ing year. spirit?" she asked. "In the realm of explorers and scientists it is apparent." She mentioned the number of people who volunteered to accompany Commander Byrd on his We're to have an election South Pole Expedition, and the passengers who came to the United States in the Graf Zeppelin.

"The need of the world," she said, "is new hope. We must meet life's problems with head held high and heart without fear. We must always hope!"

Miss Young's talk was preceded by two delightful music numbers. Mary Farmer, a pupil of Mrs. Allen, played Capricio, by Brahms, and May-Night, by Parlengren.

Students and faculty are glad to welcome Mrs. Nelle Wormack Hines home. She is one of G. S. C. W.'s most popular teachers.

WORLD FELLOWSHIP COMMIT-TEE BRINGS DISTINGUISHED **GUEST TO CAMPUS**

It isn't always the size of the package that discloses what the package contains. Often the daintest and best gifts are found there. G. S. C. W. girls found this was true in the case of the visit of Miss Willa R. Young Oct. 21st to 26th. Small was the package it is true for she is a dainty little creature weighing only 84 counds, but great was the content for she brought us a wonderful message on freedem of provincialism which makes for world mindedness.

Miss Young is a Secretary for the Southern Division of the National Student Council of the Y. W. C. A. with special interest in world education. She was a Y. W. C. A. Secretary in France for a year and a half

during the war. She studied later at the University of London in the London school of Economics. Although she has lived and studied in Europe for several years, she has had much experience in Y. W. C. A. work. She attended many international conferences for students in the United States and Europe and has visited about 150 colleges and universities in America.

There were many colleges in Georwere fortunate enough to have her share with us her experiences.

The purpose of her visit was to study with those students and faculty members all the forces in the college which tend to develop world mindedness and how these forces might be correlated. The group in "As G. C. W. goes, so goes the this study discovered a minimum of 26 forces actually at work on the campus

Inner unity and growth was the inspiring theme of Miss Young's talk Sunday night at Vespers. Wednesday morning at chapel the whole student body and faculty had the privilege of hearing her talk again on "Frontiers of 1928."

The World Fellowship Department felt that having such a delightful and broad-minded person as Miss Young as their guest for five days formulated many helpful plans for the com-
