CAMPUS CRUMBS

M. S. F. A. Plus? "A plan has been worked out at Brown University whereby the student may consider the temperament of the professor as well as the desirability "Who's Who" is given to each new student, giving a short account of the degrees, professional experience, and principal avocations of each member of the faculty." Who wants to complain.

"No lipstick Saturday," is the warning issued by the Sophomores of Tulane University. Freshmen will be forbidden to appear with the slightest trace of lip rouge. A committee of sophomores will be on guard ready to go into action when necessary. Refractory freshmen will have their faces branded with lipstick and be compelled to sit through the afternoon's football game with their war paint in prominent view."

Anything to please the ladies, but it's bad on some of the spectators.

"Latin has been shorn of its worst terrors after many years as the chief ally-in fiction at least-of the hard headed schoolmaster. A revised plan of instruction is now being tried in many schools, according to Professor W .L. Carr of Teachers College, Columbia University, in which less emphasis is being placed on grammar and more on bringing back to life, through the medium of the language, the dead days of the old Romans. This revolution in methods, he believes, may easily help blaze the trail that will lead to changes in the teaching of other admittedly difficult subjects."

The plans for ordering pins and stationery were discussed. The club decided to order them now and so arrangements will be made later on for this. The club decided to have a page in the annual in the club section and voted to pay the ten dollars for it as soon as possible.

After the business was discussed an interesting program was presented by Miss Lavonia Newman, vicepresident. At the conclusion of the program the club adjourned until the

English Popular With Upperclass

In a recent survey of majors and minors, Dr. E .H. Scott registrar, discovered a decided penchant for English among Joniors and Seniors. From Seniors the English Department had forty-nine majors and thirty-foor minors while * forty-six Juniors choose English as a major and twenty-nine as a minor.

This leader's nearest rival was Education, which had forty-seven majoris, two minors ,and fifty-five majors, two minors, in the Senior and Junior classes respectively. Other departments with substantial numbers were Chemistry, French, Health, History, Household Art, Household Science, Latin, Mathematics, Physical Education, and Spanish in the Juniors and Biology, Chemistry, French, Health, History and Latin for Seniors.

Several of the newer departments show an increase over former years, and the prescribed course in Vocationa! Home Economics has twelve Seniors and sixteen Juniors. The va-

"A recent editorial in the Columbia Spectator calls attention to the fact that the word "sex" has never appeared in the editorial columns of that paper. In making this startling announcement the word "sex" appeared five times."

And then broke all records.

"The fair young ladies of North Carolina are well on their way to being self-supporting. Hair-dressers, manicurists, seamstresses, cleaner's agents, saleswomen for different products advertise their services or their products on college bulletin boards.

These girls are now talking of running the campus on a communistic basis. The girls will raise the raw materials, manufacture the products, consume them, and thereby reduce expenses to almost nothing. It is undersood that a petition for the establishment of this plan will be drawn up when the leaders of the movement have straightened out details."

And why not G. S. C. W., remember were pioneers in several fields. Don't fail our reputation.

"Columbia University undergraduhave recently voiced their ate grievance over the practice of handing over the freshman and sophomore classes to young instructors with "specialized interests." The critics hold that underclassmen need the stimulus of older and experienced teachers more than the guidance of young specialists in a single field. This criticism brings to light the value of the new plans for teacher training in which the student is given a well balanced training, including actual laboratory experience as well

Mr. Thomas Little, the second tenor and winner of the Atwater Kent Radio contest in Oklahoma City, several years ago, held the audience with his singing using Massone's, "Elegy," "Lullaby" by Benjaman Goudon, and a negro spiritual, "Travelling All Alone," by J. C. Johnson.

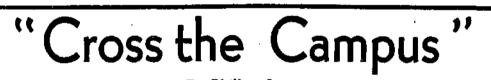

Mr. Lloyd King manager of the quartet gave a clever enterpretation of the Arkansas Traveller.

Numbers offered by the quartet were "Massa's In de Cold, Cold Ground," "Lassie O'Mine," "Sandman," "I'd Like to Live in a Lazy Town," "A Long Day Classes," 'Hear Dem Bells" and the largo movement, "Going Home" from the new Symphony.

Is there any contribution they can make, any point where their thinking can dig in right now?

Certainly the dizzy rapidity of present world-changes demands that they give careful thought to the place of religion in the present world order; while, by the same token, the rapid modifications in the Christian missionary enterprise necessitate a new and penetrating appraisal of the whole purpose and technique of foreign missions.

The most significant student religious gathering during the present academic year will be the meeting of the Eleventh Quadrennial Convention of the Student Volunteer Movement, at Buffalo, New York, December 30, 1931, to January 3, 1982. Four thousand delegates from the colleges and universities of the United States and Canada are expected to gather there to consider:

1. The present world situation.

2. The place of Christ in this world-picture.

3. The present problems facing World Christianity.

Hallowe'en Party

The students of the Georgia State College for Women, at Milledgeville, celebrated Hallowe'en on Saturday, October 31, with a "dumb" supper followed with skits by representatives of the different dormitories.

The entire student body ,draped in sheets, eating silently amid the wierd scenery of skeletons and witches created a mysterious atmosphere in the dining room.

After the meal the students gathered on the bleachers about a huge bonfire where a stunt was presented by each of the dormitories.

Atkinson was first with a cemetery skit. As several ghosts made music, Jennie Rivers and Nannie Lou Walden passed through the cemetery, finding the names of Mary Rogers, Vera Hunt, Katherine Vinson and Margaret Trapnell on the tombstones, Terrell presented "The Tragedy of the Lighthouse Keeper." The program is being arranged with the advice of some of the best student religious leaders and gives every indication of being extremely effective. The Round Table idea for groups has been especially adapted to the needs of this Convention. Qualified and informed leaders on different phases of the Convention purpose will lead enlarged "fireside conversations" to introduce the students to some vital spot of their own knowledge and experience. This is designed to produce discussion without 'the pooling of ignorance," and education without the perpetuation of prejudice.

"Men and women from all parts of the country are now taking a half hour a week to attend clases of the University of the Air. Radio courses on psychology and economics are given each week by distinguished authorities on a nation-wide network under the auspices of the Advisory Council on Radio Education. After the first lecture a week ago, more than ten thousand listeners had purchased the 25c "listeners notebook" published by the University of Chicago Press. Judging by their letters, these adult students welcome the opportunity to brush up on these rapidly changing sciences."

Mail order "masters" will soon be the fad with majors in economics and pyschology.
