Six Members Male Quartet Of Faculty Go To Uni. Meet Annual Meet Of A. A. U.W. Held at Agnes Scott

VOL. X

Several members of the G. S. C. W. faculty attended the annual state meeting of A .A. U. W. at Agnes Scott college Saturday: Dr. Euri Belle Bolton, president of the Milledgeville branch; Miss Margaret Sutton, Miss Mary Bynum, Mrs. Fern Dorris, Dr. Amanda Johnson, and Miss Winifred Crowell, editor of the state news bulletin and member of the state executive board. The presidents of the different branches and the executive board were entertained at dinner Friday evening at the Agnes Scott Alumnae House at the invitation of Miss Elizabeth Jackson, chairman of the state fellowship committee and profesor of history at Agnes Scott college.

The speakers at the state conference on Saturday were: Dr. Meta Glass, president of Sweet Briar college and president of the national A. U. W.; Dr. Katherine McKale, general director; Miss Genette Kelly, president of the South Atlantic division; Dr. Boucher, dean of College of Arts and Literature at Chicago. Dr. McKale and Mrs. J. K. Quattlebaum, president of the Georgia division, will be guests of the Milledgeville branch on Sunday on their way to Savannah.

Is Feature

scheduled appearance here last fall was postponed due to the illness of one of the performers, presented a delightful program Thursday night as the first lyceum number of the winter quarter.

The entire series of numbers was presented in a manner most charming to the listeners. The four young men who make up the quartet have been traveling together for a number of years and their program showed a perfect understanding of the other members. Each number was more charming than the preceding one and brought much sincere applause from the audience.

The members of the quartet are students at the famed Curtis Institute in Philadelphia. Only very excellent students of music are acccepted at the institute and the quartet represents only one phase of the school. The quartet is one of the most outstanding organizations of its kind in the world. Critics and music lovers everywhere a perform-

Lost: Ten Students **During Holidays**

"Lost, strayed, kidnapped, or married: Ten G. S. C. W. students, with bright faces, brighter clothes, and very bright minds. Any information concerning these girls will be gladly accepted by Dr. Guy H. Wells or at the registrar's office."

College chapel announcements bring almost as quick results as the Times want ads do. Within ten minutes after Dr. Wells made the announcement Monday concerning the lost, kidnapped, strayed, or married girls, he had a complete list of their whereabouts. Five of them were slek and had not returned to school after the holidays, two had transferred, one had married, and two were "present but unaccounted for,"

Dr. McGee Edits New French Text

Dr. Sidney L. McGee has recently

finished editing a text book, "L' Ancien Regime," by the French author, Franz Funck Brentano. The book will be available for use in the

A collection of thirty water color paintings by Mr. Eliot O'Hara, an outstanding American artist, will be exhibited on the second floor of the Ina Dillard Library through January 30.

Art Exhibit

The exhibition, which is sponsored by the Southern Art Projects, comes from the Telfair Academy in Savannah where it has been shown recently. The subjects of the pictures are widely distributed geographically, six pertaining to Georgia and the South.

The Milledgeville showing of the pictures is made possible through the local branch of the American Asociation of University Women in cooperation with the college and the following civic organizations: D. A. R., U. D. C., Legion auxiliary, Garden club, Music club, and P. T. A. On Monday night from 8 till 10

o'clock the officers of the organizations sponsoring the exhibit will entertain the entire college staff at a social. The members of the present

Winner In Contest Will Be Announced Saturday Night

ToBeChosen

By Pep Band

The students of G. S. C. W. have become smile-conscious since the contest sponsored by the Pep band has been under way. A special committee will select the girl having the most beautiful smile on the campus; A "Smile Girl" from each class was selected by the members to compete in the final contest Saturday night. The competitors are Misses Mary Jim Williams, Georgellen Walker, Mary McGavock, and Evelyn Green, representatives from the senior, junior, sophomore, and freshman classes respectively.

The Pep band will make their first formal appearance Saturday night, presenting an amusing program as a curtain raiser to the picture show in the auditorium. Since the Peppers have selected as their slogan, "Smile and let's have a little fun," they chose the smile contest to play an

Dr. Meadows' Sunday School Class Starts **Membership** Drive

Dr. Meadow's Sunday school class met Sunday, January 13, in the auditorium. A campaign for membership has been started; the idea is "We are interested in those who come on Sunday, but we are more interested in those who come every Sunday, rain or shine."

Mary Frances Weems was elected chairman of the nominating committee; Mary Ruth Pittman, publicity committee.

In order to better the Sunday school program procedure, Dr. Meadows is planning to have his pupils observe other classes and to bring back suggestions.

Much interest is expected to result from this movement.

The mathematics club met last Friday in the mathematics room at Gladys Harris and Catherine 5:30. Walters were in charge of the program.

Those having parts on the program were Mary Goette, who spoke on the characteristics of a good mathematics teacher; Gladys Harris, who spoke on the subject of the of cause of failure in mathematics freshman college students; Louisa Noyes, who gave a brief talk mathematics as recreation.

Lindsey Talk At **Athens Art Club On Chemistry-Art**

Dr. L. C. Lindsey was the recent guest of the Athens Art club at which time he spoke on the subject of "Chemistry and Art." His talk embraced the problems concerning the preservation and restoration of paintings, pigments, bronze and other metal objects.

He discussed the restoration of his former home in Williamsburg, Va., and of his present home at Westover. He contrasted the differences between the periodical architecture and modern architecture.

Dr. Lindsey stated, in part, "The application of chemistry to science has a fundamental bearing on methods and means for the preservation of objects of art, and on the restoration of ancient specimens distinguished by time. And the chemist is frequently called upon to assist the artist and collector in many cases."

Daniels And Scott Attend Kiwanis **Meet At Macon**

Dr. Francis Daniels and Dr. Edwin H. Scott attended the midwinter Miss Page, matron of Kate's hall- conference of the Georgia Kiwanis, held at Macon Monday, January 14. Dr. Daniels is Lieutenant Governor of the Fifth Division of the Georgia Kiwanis club.

> The conference included a banquet for the staff of lieutenants, program of addresses by national representatives, and the regular business sessions.

a

important part in their first appearance.

The Pep band was organized in the late fall by Mrs. Nelle Womack Hines to furnish music at entertainments when it would not be possible to have an orchestra. They have played on a number of occasions previous to the Saturday night performance, but that was the first formal entertainment.

Dr. McGee Leads Open Forum On Saar Basin At C. W. E. Meeting

Dr. S. L. McGee led an open forum discussion on the Saar Basin question at a meeting of the Christian World Education committee Monday afternoon.

About forty people attended the meeting. The history of this strip of land was traced from the beginning, the different changes of hands it has been under up to the present, were discussed. Dr. McGee said that those people who criticize the League of Nations because it has failed to do certain things, should keep in mind that it has removed the Saar from becoming a probable cause of war between France and Germany.

Dr. Wells Attends Board Of Regents Meet In Atlanta

Dr. Guy H. Wells met with the Board of Regents Thursday, January 10, to discuss certain curricula.

There has been some recent discussion as to the fitness of the commercial work offered here on our campuss. Accusations have been made to the effect that it is on a high school level. The meeting was held not, in order to abolish the work, but to raise its standard.

DR. ALEXANDER TO VISIT Edith Allen. PRACTICE SCHOOL SOON Dr. Thomas Alexander, of New jorie Hodges. York, will be the guest of the college from January 25 through 30. Dr.

Seals. Alexander is a teacher of education in the Teachers' college at Columbia Frances Camp.

Do Colleges Really Teach?

All the friends of higher education in America and all believers in the value of higher education have been much disturbed recently by cises. Perhaps Bible reading did not fit into the results of certain tests given in six Pennsyl- the special vaudeville type of program presented vania colleges. These tests, now known briefly by the second-year students. as the Pennsylvania tests, revealed some findings that are certain to shake us out of any complacency about education that we might have. Acting under the general direction of the ments might be improved, we think. Carnegie Foundation, the examiners gave tests of the objective, or true-false type to all students in the six colleges selected for the project, the not always in worshipful mood. Is it better subject matter of the ordinary branches of to have a short chapel devotional exercise to learning, including English, literature, mathe- which the students pay little attention, or should

subjects which all the students had lege studied. When the papers were graded the astound- reading, interpretation, prayer, and song. ing information came out that there had been almost no growth in knowledge from the freshman certain, would be pleased to conduct the chapel year to the senior year on the subjects which programs more often. Other well-known peothe students were tested, and even in some ple might be brought to the campus and

the freshmen. scores for the classes were: freshman, 30; sopho-period, at which the feeling of reverence is felt more, 31; junior, 29; senior, 29. In spelling, the rather than four brief devotional exercises freshman average was highest with a score of which the girls give little spiritual thought 31, the sophomores and seniors tying with the might prove more beneficial.

next score of 30, and the juniors scoring 28. In the same manner the freshman class led TO THE EDITOR OF THE COLONNADE: in the mathematical test with the following scores: freshmen, 53: sophomores. 52: juniors. 51; and seniors, 49. Also in literature the freshman class was the leader with grade of 73, the another student receives or makes a long disseniors following with 72, the sophomores with tance telephone call? 71, and the juniors with 70. On almost all the subjects the freshmen led with as equally great with this matter and we would like, if possible score as those named. In the history and social studies the freshmen led the seniors by a score of 81 to 79.

equally remarkable. Of 100 words understood distance calls are made or received. and used by educated people the average senior recognized only 61 as compared with 56 recog- tesy? If a girl calls home, naturally, there are nized by the freshmen. One senior with an aver- some things she would like to talk over with her age score distinguished himself by defining family that she would rather not have every-"recreant" as "diverting," "spurious," as body else know. Since we can never be en-"foamy," and "assiduous" as "foolish."

as revealing the true state of affairs, the friends girls sitting around listening to everything we of higher education in America have every say? reason to be disconcerted, for it would appear

and that a college education is a waste of time and money. We repeat, "If the results of these tests can be accepted."

sensation, and especially, it seems of late years, young men in his audience not to marry any girl if that sensation will in any way discredit what the colleges are doing, has accepted the tests as proof that the colleges are not teaching anything and has reenforced the sensation by editorial blasts of the "we-thought-it-all-the-time" type Nevertheless, to us who are now undergoing the process of education, the case does not seem quite so clear, and we cannot rid our minds of wrong with these statistics. For real education not something to be crated up and weighed on standard scales but something which manifests itself from day to day in the culture, refinement, manners, thoughts, and actions of its possessor. By no means are we denying the fact that many of our colleges have fallen short o their aim, but that is no reason why all our higher educational institutions should be condemned as public nuisances.

After all, the subject of the whole controversy is nothing more nor less than is contained in this question, "Do colleges teach anything?" Surely those who have made a negative answer have failed to consider the products of our American colleges.

Chapel Criticism

Some criticism has been made concerning the Sophomore chapel program last week, based on the fact that there were no devotional exer-

Then too, chapel programs with a song, hurried scripture reading, the Lord's Prayer with numerous faculty and student announce-

Too often students come to chapel because attendance is a part of their daily program, and matics, history, and other high school and col- we have once or twice each week, strictly religious exercises? There would then probably be felt a keener sense of worship during the Bible

The different ministers of the city, we feel cases that the seniors did not know as much as wonderful opportunity given to gain many different points of view. One or two well-planned For instance, in grammar the respective devotional programs lasting the entire chapel

May I make a suggestion? Could you through the columns of the Colonnade, ask that students leave the office in the dormitory when

Several of my friends and I have trouble to remedy the situation.

Of course, local calls are made so much that it would not be practical to ask the girls to The results in the vocabulary tests were leave, but we think they should leave when long

Don't you think it is merely a matter of courtirely alone, while we are here at school, can't If the results of these tests can be accepted we have our telephone calls without five or six

that college students are not learning anything What's The Idea, Professor? Jma GOSSIP

The newspapers of a few weeks ago gave a great deal of space to the advice handed down The press of America, always hungry for a by a California professor who cautioned the who had been to college and told them most mphatically not to marry one who had been to it too and now her angles are all woman's college. We've been so used to nonense emanating from California, the home four-equarism, yoga, and theosophy, that doubt whether or not a serious and dignified magazine should honor this sort of statement a lingering suspicion that there is something with any attention. Yet the person from whom it came, a university professor, merits some attention at least from the position he holds if not from the intelligence of his utterances.

> Why did he advise the men so forcibly not marry a student or graduate of a woman's What type of woman does the college nan choose as his wife? Does he want a little. painted doll that knows only how to tell him how fine and strong he is and to fill his ears with merely the everyday tittle-tattle of the community? Rarely can a successful marriage be brought about with the union of these two because of the difference in their views of life and their desires for happiness. The marriage what some people try to get down of the college man and the college woman makes by drinking milk every day. They for a happy marriage because of the things that they have in common. They have a similar training, have a corresponding foundation of culture, have friends of the same social stand- they buy a cow for the whole deing, and have an equally broad outlook on the partment and save trouble. Billie world

> However, there is the type of man with whom the college woman would not make a physical ed girls believe in carrying satisfactory marriage. That is the type to which things to the top. They're even t is our firm conviction that this professor belongs, so egotistical, self-centered, and possibly domineering that he resents the slightest show voman with whom he may associate. This type judging from one role she took on of man, one not very sure of his own intellectual the class chapel program we sugpreeminence, is best flattered by a wife who knows nothing at all. With his great amount of knowledge, he rules their little universe while she does all the fluttering and admiring.

> rumors, must be discounted, that certain influential teachers in some of the better known eastern colleges have advised their students to tell some of you. You've got to let seek a career instead of matrimony. But the out some "happening" in your pastsober facts are that the vast majority of the girls and you can't fool us into thinking who go to college are looking forward ultimate- you have no past, 'cause we know ly to marriage as a career. But the question is. is the girl trained in a woman's college suited to make a happy marriage? Statistics are decisively on the affirmative. The national divorce rate is sixteen out of every hundred. Taking our own Blue Mountain college as an example of the woman's colleges the divorce rate is less than one out of every hundred.

> This shows undoubtedly that the woman's college graduate is fitted for a successful marriage. Not only will her intelligence and her capability enable her to make a happy marriage with a man of real intelligence, but she will be well suited to make him a good home, to furnish him inspiration, and to be a fit intellectual comconion for him. It was a very wise man who said. "There are just two kinds of women in the world-the kind that put strength into a man and the kind that take strength out." Those be it was all week. 'cause when who have been to women's colleges, without sur- Katie Bell does anything, she does rendering their own individuality and without it in a big way-but she wouldn't becoming mere shadows of their husbands, are able by their background of culture and knowledge to bring out the very best in their husbands and to aid them in the making of contented homes and in the attaining of success.

Some men thirst after knowledge: some thirst after fame; and still others thirst after from money. But all men thirst after salted peanuts.

Just in passing Saturday nite we heard that Ag Smith has found a new way to see the weekly show. We have heard of loking at things from all angles-well. Aggie heard right for there's nothing left to say against Ag's bright idea. Do you have to sit on the outside of the show Saturday nites? If you do, just see Ag and she'll show you how to play ventriloquist with your eyes. Really is a piercing thought-In wasn't shown to me I only heard. Just to remind those who are interested-Dr. Cornelius wants his sociology class to get a five cent note-book. He made this anouncement five times in one

week and when Saturday was well in its way one conscientious student appeared with just that many notebooks. The professor suggested that the "Blue-Horse" note book was a good one so we judge that he, too, is saving up for a bicycle.

The latest health flash is that all physical education majors who are underweight are going to come up to lecided the sudden rush on milk botles might send the milk man into confusion and into the glass-blowing business so it was suggested that Howington will be the care-taker for she has such gentle ways and such things do appeal to cows. Those beginning to make the scales rise!

letin board asks "What's in the lit-An interesting poster on the bultle brown jug for Freshmen?" Catherine Mallory is a Sophomore bu gest that she might be able to figure out what's in the jug. If it's what some people think it is it will leak out so we'll all be knowing soon. And even some of these dignified We've heard several rumors, which, as most | faculty members have been inquiring around to find how they can "make" this column. UASKME

Do you have traffic trouble? Does your room resemble a personally conducted tour? Is your room-mate bothered with superlativitis? Let Yvonne D'Amour, greatest mathematician on the campus, solve your problems.

Dear Miss Yvonne,

What would you suggest as a method of preventing a traffic jam in a penthouse room when no cops are available? It's getting to be a regular occurrence for various and people to come dashing sundry through my room and disappear through the window out on the roof with a casual "D'ya mind?" Most of them are equipped with field illness." glasses and they usually come "ogling" through while I am deeply contemplating Aristotle or something. My room, by the way, is a corner room and they always round the corner and gaze at the old capitol Can it be that they are building. historical "volunteers?"

Twinkletoes

Dear Twinkletoes,

Could they be star gazing, by any chance, or watching flashing comets? The only stars I know of in the direction mentioned are the stars on the sleeves of the G. M. C. corporals. I am quite sure these are not of the Biology 215 variety! The only positive method of insuring your privacy is to hang out your new "Busy" sign. I am fairly sure that the sight-seers will not want to beard the housemother in her den. You might read Kathleen Norris' "Glimpses of the Moon" to put you in a more sympathetic frame of mind.

Stardustily Yours,

Mrs. Williams Shows Improvement Since Return To Campus

Mrs. Alice Williams of the Art department, who was injured in an automobile accident last fall and who is now in the Parks Memorial hospital, states that she has shown more improvement since her return to the campus than during any other period of her illness.

"The very atmosphere seems to have helped me," says Mrs. Williams. "It has been quite a joy to be back among the campus family and to see my faculty and student friends. I feel that I am part of the college group again. The students, faculty, and hospital staff have been very considerate of me during my

Health Department Receives Letter Concerning X-Ray

The health department quotes the following excerpt from the report given Mrs. Kathleen W. Wooten by Dr. H. C. Schenck, chief of the department of tuberculosis of the state board of health, in regard to the X-ray findings following the recent tuberculosis tests given here:

"It is rather remarkable that in the entire group there was no case found that was definitely tuberculous. In a few cases there was some slight suspicion, but I do not believe that it will be necessary to exclude a single person from the school."

To Contributors Of The Paper

During the past quarter, a great

many students have criticized the Colonnade for not printing notices, articles, vox pops, and other material. The fault in every case has not been with the Colonnade staff. There has been a misunderstanding on the part of all concerned.

Several notices have been printed as to the proper time for Colonnade material to be handed in. All material MUST be in the staff room on the second floor of Parks hall not later than nine o'clock Thursday morning. Stories not typed should be in Wednesday afternoon by 6:30. Another point of confusion to those desiring to get information into the Colonnade is the proper person to whom to hand the material. Preferably, all stories should be handed in at the staff room. However, it is not always the easiest thing to do to take the stories there, but to be absolutely certain that they will reach the proper destination, they should be handed to one of the editors.

Material of any type from the student body is always welcome. However, the staff reserves the right to change the story in any way.

Student Council **Members Honor** New Students

The Executive Board of the student government asociation entertained the new students and old students who returned to school for the winter quarter at a wiener roast at Nesbitt woods last Friday night. About sixty people were present.

College Buys New Land At **Nesbit Woods**

Announcement was made this week of the purchase of an additional acre of land adjoining the Government Park, by the G. S. C. W. authorities.

The land was purchased from R. E. Long and adjoins the park property on the east side near the south end. Dr. Wells said plans were not completed relative to the improvement of this property but a golf course is one of he things the college is considering using this additional land for. The Government Park has been used as a recreational center for the students for several years and many improvements have been made. The class of 1920 built a log cabin in the center of the reservation and from time to time, walks have been cut through the

pine woods. The park has been made one of the most attractive places in the state and it has been the center of many enjoyable entertainments given by the clubs, and other organizations at the college. The young ladies enjoy spending their leisure hours there.

The added land is at the west end of Washington street. The college is planning to have the entrance of the park property opened and improved.

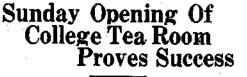

The college has also leased a part of the Newell lot which adjoins the park on Green street and has converted this into a nursery. This land has been cleared and laid off into beds for use by the Biology department in its course in botany. The land will be planted in flowers and shrubs of every description to make a practical laboratory for the

Activity Council Hobby Groups Hold Meetings Tuesday

Activity council presented a short playlet at chapel on Monday morning. The purpose of the skit was to show the benefits to be gained from the hobby groups sponsored by the council. Those taking part in the play were Marion Baughn, Elizabeth Hulsey, Sara K. Vann, Julia Harper, Charlotte Edwards, Miriam Gordy, and Gene Jones.

Ľ

The first meeting of the hobby groups was held on Tuesday afternoon. The faculty members selected as sponsors of the groups are Miss Rosabel Burch, camperaft group; Dr. Sidney McGee, keeping up with the times; Miss Hallie Smith, literature appreciation; Miss Mabel Rogers, nature study; Miss Mary Vinson, needlecraft; Miss Louise Smith, personality.

Early Sunday night the tea-room was crowded, with girls, with or without their dates, and still they continued to come. Two and threecourse meals were served, besides sandwiches, salad, drinks; almost anything could be had. All came out satisfied that the Sunday night meals were a success.

Unfortunately some had to be turned away because such a large attendance was not expected. The Home Economics department regrets this and anounces that in the future the hours will be lengthened and that there will be accommodations for all.
