NUMBER 24.

SELECTED FOR PI GAMMA MU

The seniors who are eligible for membership in Pi Gamma Mu, social science honor fraternity, were announced Friday by Dr. Francis Potter Daniels, local secretary of the Georgia Beta chapter of Pi Gamma Mu. The selection for membership in the fraternity was extended to twenty-nine members of the senior

On Friday night the officers of the local chapter entertained at a formal dinner in honor of the candidates for Pi Gamma Mu. Those acting as hosts were Dr. Daniels, Miss Polly Moss, president of the local chapter, Miss Winifred Crowell, Miss Mary Burns and Miss Alice Napier.

The girl who are eligible for memberhip in the fraternity are Lalla Louise Durham, Americus; Myra Whitehurst, Milledgeville; Louise Dunn, Marietta; Mary Goldstein, Milledgeville; Ruth Vinson, Cordele; Eloise Kaufman, Columbus; Matilda Callaway Otwell, Augusta; Nina Mae Hansen, Decatur; Carolyn Virgiina Oliver, College Park; Lucille Griffith, Reynolds; I. V. Sherrill, Bowden; Rhosland Leaptrott, Hardwick; Dorothy Brewton, Vidalia; Anne Lee Arnett, Newnan; Mary Jim Williams. Greensboro; Thelma Frances Williams, Dalton; Julia Rucker, Alpharetta; Caroline Goldsmith Tappen, White Plains; Dorothy Virgiina Thomas, Macon; Grace Pfieffer, Sylvania; Ruth Volina Cox, Cartersville; Rebecca Louise Smith, Atlanta; Leila Grace Webb, Quitman; Ila Beatrice Mc-Carthy, White Oak; Bertha Barr Hopkins, Havana, Cuba; Winnie Mildred Sheppard, Savannah; Jessie Lee Sims, Newnan; Katie Israils, Atlanta; Catherine Beatrice Moore, Au-

29 CANDIDATES Dr. Wells Announces Appointment of Six New Faculty Members for 1935-36 Term

MR. MAX NOAH

Members of Office **Practice Class Go**

The members of the class in secretarial office practice spent last week-end in Atlanta visiting various business houses in that city and inspecting the office departments connected with them.

The object of the trip was to view the work done by people who have had some training as the members of the class are now obtaining; to see the type of positions they have, the equipment used, and the conditions under which they work.

Inspection tours were made of the Georgia Power Company, Rich's, Retail Credit company, the Citizens and Southern bank, and a number of other firms. On Friday the entire (Continued on page 4)

BASS, THAXTON, **SCOTT TO TAKE** YEAR'S LEAVE

The new faculty members for the coming year have been announced by Dr. Wells. The additional teachers will be added due to some of the regular faculty taking leave of absence for further study. Others have been added to take the place of those resigned or are retiring for part-time work.

Dr. Carmen Rogers, formerly of Coker college, S. C., will be added to the English department. Dr. Rogers is a Ph. D. of Cornell university. She will replace Miss Katherine Scott who will be on a leave of absence during the year to study at Columbia university.

W. C. Capel of Sandor, N. C., will relieve Professor Thaxton of his On Field Trip work in Social Science, as Mr. Thaxton also plans to take the year off for further study. Mr. Capel received his A. B. from Washington and Lee and his M. A. from Columgia university.

Miss Ida Pound of Athens will assist in the History department, replacing Miss Martha Bass. Miss Bass plans to complete the requirements for her degree at Duke university. Miss Pound received both her A.B. and her A.M. degrees from the University of Georgia.

The following people have been added as a result of some retire-

Professor Max Noah joins the Music department. He has his Master's degree from Columbia university and has had extended experience as the head of the music department of Guilford college, N. C. Mr. Noah has already made a visit to the campus and was introduced to the student body at chapel. Miss Tucker will be retained as professor emeritus and assistant in voice in-

Miss Mildred English will become superintendent of the Peabody Practice school. She has her A.B. and M.A. degrees from George Peabody college for Teachers and at present is completing the work for her doctorate. She has served as assistant superintendent of the public schools of Raleigh, N. C. Her presence will relieve Miss Burfitt of the administration of the practice school. Miss Burfitt will continue as director of practice teaching.

Miss Iva Chandler will take the place of one of the house mothers. She will have the title of social director of Terrell Hall. Miss Chandler comes to the college from G. S. W. C. in Valdosta where she has served. She has studied at Columbia university. In addition to her work as social director she will do some teaching in the freshman survey courses. | meeting because of illness.

MISS MILDRED ENGLISH

Soph Commission **Installed Sunday** Night at Vespers

The members of the Sophomore Commission of the Y. W. C. A. were installed during impressive services at vespers, Sunday evening. Symbolical was the entrance of the old and new Sophomore Commission, the acceptance of the candle light from the old members, and the retiring of the old commission.

Jane Cassels, Americus, 1935-36 president of the Y. W. C. A. presented a few statements in regard to the new responsibility of these members and the participation of all in a search for high and new standards. Margaret Edwards, Savannah, 1934-35 advisor of Sophomore Com-

WATSON CHOSEN TO EDIT 1936 SPECTRUM

The election of the staff members of the Spectrum yearbook of G. S. C. W. was held Tuesday afternoon at a meeting of the Spectrum staff. Those chosen to serve as leaders for the coming year were: Mildred Watson, editor-in-chief; Ruth Flurry and Marjorie Persons, associate editors; Garnette Lynes, art editor; Anna Lee Gasque, Y. W. C. A. editor; Jane O'Neal and Mary Peacock, club editors; Mary Pitts Allen and Mary Harrell, athletic editors; Charlotte Edwards, feature editor; Virginia Drewry, business manager; Grace Collar, associate business manager; Mary Pritchett, secretary; Mary John Brown and Mabelle Swan, circulation managers,

Mildred Watson during the past year acted in the capacity of associate editor of the Spectrum and as an officer of the Griffin club.

Ruth Flurry has proved her efficiency in cooperative activities and in scholarships. Her ability will be an added valuable asset to the Spectrum for the coming year. She was editor of the Cox college annual last

Marjorie Persons was an active member of the "Y" cabinet during the past year and treasurer of the Spectrum.

As are editor, Garnette Lynes will prove very efficient. Her past experience of the year was in th position of circulation manager of the Colonnade. She will again serve as circulation assistant for the coming

Anna Lee Gasque was a member of Freshman Council and will again participate in Y. W. C. A. activitise as one of the sophomore commission-(Continued on page 4)

Students Learn in Chapel that Rosalie will Run Riot May 31

The advance notices of the press agents of Rosalie Rand, the girl from Indiana, seem to indicate that Rosalie will truly run riot when she arrives on the G. S. C. W. campus on Friday night. She will arrive, bag and baggage, at eight-thirty o'clock sharp with all her cohorts.

"Rosalie Runs Riot" is the musical comedy sponsored by the members of the senior class and the Jesters and will be presented on May 31 in the auditorium. The proceeds from the performance will be used to establish a loan fund in the name of the Senior class of 1935.

direction of the Jesters, with Catherine Mallory in charge. Miss Margaret Candler is in charge of the dance arrangements, and Evelyn Groover is the accompanist.

Chemistry Club Awards Herty Medal to Dunnington

Dr. Francis Perry Dunnington was awarded the Herty medal for outstanding chemical achievement by members of that group in the auditorium at the Georgia State College for Women, Saturday night. The medal was so named in honor of the famous native of Milledgeville, Dr. Charles H. Herty, one of the outstanding chemists of the country, whose invention of the process for making newsprint out of pine pulp is expected by many authorities to revolutionize the country's papermaking industry.

pupils, David Hancock, industrial American chemists. chemist of Birmingham, Ala. It was explained that the winner of the award was unable to attend the

The n edal, which has been aawrded twice before, was given this year to Dr. Dunnington for his outstandthe Georgia section of the American ing research work with the element, Chemical association at a meeting of titanium, and for his exceptional record as a teacher of chemistry at the University of Virginia. It was first awarded in 1933 to Dr. Fred Allison of Auburn, Ala., and in 1934 to Dr. Herty, for whom the medal was named, in honor of his work with

In a paper written by the new recipient of the award which was read by Mr. Hancock, the chemist disclaimed any credit for his work, but played up instead the influence The medal was accepted by Dr. made on his work by Dr. John W. Dunnington by one of his former Mallet, often called the dean of

Are You Immune?

For several weeks the postal service of nation has been placed under a heavy strain. has been put upon it. Carriers everywhere are weighed down with chain letters, as a strange fad has established itself sending these letters. The sender mails lists the names to a number of persons. Everyone receiving these letters is supposed to send a dime to the name at the top of the list. That name is then to be struck off and the list is to be sent on its way again with the receiver adding his name to the bottom of the list. In this way dimes are kept in circulation.

If a chain is unbroken, those early in the game will receive a good many dimes. Many others are sending dimes without receiving. (The reason for that seems to be that some bright guys are putting their names at the top of the list instead of the bottom as they are supposed to do. In other words, they are cheating in the silly little game.)

It seems unbelievable, at first thought, that the idea should spread through the country like wildfire and that it should have occupied the attention of millions of people. But it is not so strange after all, taking into account the psychology of human beings. This craze is kept going because it appeals to two very strong and widely distributed impulses. It gives people an opportunity to imitate, and nearly everyone imitative. In the second place, it holds out promise of financial gain and the gambling impulse is strong and widespread.

There are individuals, of course, who do not have to resort very much to imitation in order to find relief from boredom. They have their own interests. But others, being less creative and original, fall easy victims to boredom. They cast about for every possible opportunity to dispel the tedium of the day. They find that someone i doing some kind of new thing. The first impulse is to jump in and do that thing themselves.

If this tendency to imitate resulted only in the sending of chain letters, in a brief craze for miniature golf, for crossword puzzles, for "tabletalk," or for superficial conversation about technocracy, no harm would be done. These crazes are comparatively innocent. The trouble is that political attitudes, whether sensible and logical or not, are similarly contagious. An idea sweeps

across the country like prairie fire. It is taken up by thousands or millions who have no facts upon which to base their conclusions. War fevers spread in this way until they plunge nations into war and consume populations. Race and religious hatreds are scattered by the same force. It is highly important, therefore, that every individual who has the power to think and act independently should free himself from the influence of the manias and waves of emotion which sweep over the land, rendering populations temporarily the willing tools of dema-

Students vs. Gourds

The G. S. C. W. student body has been compared to a gourd, and most aptly, in a number of people's opinions. The reason. A gourd rattles because it is empty. Conclusion: G. S. C. W. students mutter and mumble during chapel, showing the lack of ability to appreciate something when they have it put under their noses, therefore they must be empty.

Really, it is practically slapping a gourd in the face to compare it with the G. S. C. W. student body. It is the least thing a person, and particularly a grown person, can do when a person is speaking from a platform to remain quiet, disregarding the fact that they may not be interested in the subject used by the speaker.

For the past few weeks the students have had little or no regard for the speakers who come to 3. S. C. W. They have not even given the speakers a chance; immediately after the introduction four-fifths of the audience begin squirming, rattling books, and talking or writing.

And not only to visiting speakers, but to faculty members here. It would almost seem betthan the eternal mumbing and disapproving looks and rattling paper.

The students at G. S. C. W. are supposed to be grown-up. They wanted to be treated as such: they ask for privileges as such; they try to give out the impression that they have completely passed the adolescent stage. Let them act as such. r be treated as infants.

A great many students are going to wake up very, very surprised some of these days when they get the same treatment they have been dishing out. Well, they've asked for it. Let them take it. And like it. Or if they don't like the idea, let them act as grown-up individuals and not as half-grown adolescents.

Whatever comes, nobody can say that the students did not ask for it. In fact, they demanded it. And they have been demanding it for weeks. Perhaps a severe jolt would help immensely.

Books

Miss Hallie Smith has recently donated to the "Y" library several delightful books. These books are placed in the "Y" room and are to be used for the enjoyment and benefit of any girl on the campus who wishes to read them.

The girls appreciate these books very much and wish to express their thanks through the Colonnade to Miss Smith for her contribution. She has served this year as adviser for the "Y" library committee.

The list of books include: "Peter Abelard" by with it? Helen Waddell, "He is Become My Song" by Robertson, "Debits and Credits" by Kipling, "Long Remember" by Mac Kinlay Kantor and "Singing in the Rain" by Anne Shanon Monroe

A diplomat is a man who remembers a woman's birthday, but forgets her birthday.

And then there was the bright young girl who said she couldn't dream of marrying for money

Inspiration—Or Recreation! The students at G. S. C. W. should give rising vote of thanks or something to that effect for the efforts of the faculty entertainmen mmittee for the unusually educational enterainments offered during the past year. Every veeum program has been outstanding and was greatly appreciated by the students.

We hope that during the next year the lyceum umbers will be educational and uplifting ra her than amusing and recreational. The movies and vaudeville entertainments offer amusement and of those we are abundantly supplied with We want lyceums that offer real artists something that we will all remember for

Rather than have a series of middle-class entertainers, the majority of the students would prefer three or four really high-class programs. During the past year we had something of the high-class performance type in Sylvia Lent and Curtis String Quartet. We want more of that for 1935-1936. We would rather do without than have trained dog-shows and magicians, exclusively, or to any extent.

If the committee on entertainment would take the suggestion we offer, perhaps it would get a better idea of the type of entertainment the students want: One really high-class artist each uarter, and let other entertainers be incidental r accidental. Why not concentrate on getting field, one in the violin field, and one in the or able to with money that is taken in at the door vorthwhile and something that each student vould remember always.

We are for fewer and better lyceum programs. rather than many and amusing ones.

Announcement-itis

There are announcements and there are an-They come from all directions and all at a made rate. They strike the listeners—but they seem

Every day innumerable announcements are made at the chapel hour until they have become terribly boring. And they are of no avail. So many are made that by the time chapel is over hardly anybody can remember what was announced for what hour.

The report concerning these eternal announcements that was made in chapel on Monday was amazing. An average of twelve a day in almos unbelievable. But even at that, it is true. And something must be done about it. And in a hurry, At present, no plan has been presented that might do away with the announcements. one should be perfected that could take the place of the amazing number of notices of meetings

and what-have-you — mostly what have you. Other schools do not seem to have the announcement-problem. Why should we put up

Girls that are easy to look at are seldom seen on "blind" dates.

Someone asked me the other day how life was treating me-but that's all wrong, 'cause life isn't treating me any more. I have to pay for everything I get.

-but she could love anybody who had money! what about poor papa who paid all the bills?

Ima GOSSIP

We have a lot of modern conveniences on our campus and now that plans for the new two million dollar gym are well underway (yeah-way under th' well) I would have thought the place complete if more news of the best yet hadn't come to me. It all goes back to that fatal thing called beauty and this time if is fatal 'cause Mabelle Swan and Grace Green have gone into the shampooing business

The marvelous part of it is that they go to peoples' rooms to do their work and all the patient has to do is to be able to see under soapy water, to hold her breath for ten minutes while maneuvers go on at the head, and be able to "take it." (Better fix a large dose 'cause nine out of ten you'll come up with a,

Really it is most fascinating to watch "Ducky" Swan and "Grass" Green make something altogether (cause it does take both of 'em) different out a plain ol' shampooas well as to hear them sing "The Moss Covered Bucket That Hangs In the Well" while they get the suspended head ready for another

And another thing-I wonder if it was a Jessie that walked into Binford's Drug store the other "afterdinner" and told her boy friend she wanted a frozen Snicker and a raspberry soda. 'Twas a good order anyway and from all appearances we'd say the girl doesn't have such bad taste. The boy looked as if he didn't know whether to believe there had been a misunderstanding between them or whether his girl really had that sort of appetite

Ah! at last Dr. McGee has confessed. He admitted to his nine o'clock French class that all the reports about him are true and that soon all will be revealed in print,

Sounds good anyway, girls, so watch the sale of newspapers go up and read all that goes down so you can verify your guesses. He gave us a hint that once in the by-gone days he decided to uplift humanity by being a chemist. I've heard of combustions now, but never have I seen an explosion with this power. Thank goodness our Prof decided to teach

All girls who saw the Junior-Senior baseball tournament are going to get up a petition, requesting that the Recreation association give Eddie Edwards points in track for the running she did that afternoon:

I've also heard that the junior and senior teams are going to have a joint banquet soon. The two seniors have good appetites and the four juniors are twice as good as the feast will probably be as big a lavout as that game was. We'll have to break in on their party just long enough to drink a toast to six good

Those who don't believe that love is blind just see Vi James. She has , a new "bureau" in her room but the glass is too thick for some people to. . see through. She possesses ideas of her own about giving "big moments" to certain girl friends. I'll guarantee, that she and her co-workers will get: you a boy friend for whom you'll fall head over heels, and declare a few weeks later that you've been convinced that love is blind-eyen if it does appeal to the other four senses and to the heart.

Herty Medal Given Saturday

(Continued from page 1) urged a quick joining of hands by all the farmers of the state in order the better to combat the evils now facing them. He urged the ridding of the state of the wire grass now rampant in South Georgia, and the substitution in its place carpet grass. This, it was pointed out, would minimize the dangers of forest fires, now so prevalent in the state and would furnish pasturage for the cattle growers of the state which would help that industry in its effort to overcome the lead now held by the Western farmers.

Dr. William S. Jones, Emory university, and president of the Georgia section of the American Chemical association, made the award by proxy to Dr. Dunnington. Miss Maybelle Swan, president of the Chemistry club presided over the meeting.

Prominent educators and chemists from over the state were preesnt at the meeting which is the third of an annual event to be held each year at the college.
