NATIONAL AFFAIRS

With the election now past history, and with the jubilation of the victorious Democrats and the somewhat rueful expressions from the defeated Republicans safely out of the way, the president this week began to lay his plans for another junket to foreign soil. Not since Wilson made his eventful trip to Europe following the World war has an American president so often left the boundaries of the United States. NOTICE!

In order to stimulate interest in better written stories, the Colonnade is initiating a "Best Story of the Week" contest for the reportorial staff. Each week the best written story will be selected by the editor, adviser, and one other staff member. The reporter whose story is selected will receive a pass to the Campus Theater. The pass is given through the courtesy of Mr. Frank D. Adams, manager of the theater.

This week the pass is awarded to Jane Suddeth for her excellent editing of the issue of November 14, which was put out by the members of the Journalism class.

doing are often the things that are fact that at times some of her best done. Louisa M. Alcott may young daughters looked older than have all the stars in her crown she she did, her interpretation of Marwants for having written the novel, "Little Women," but whoever done. The two characters who Jesters used didn't have much contifully.

But the fact that more people like to chew gum than to eat Roquefort doesn't prove anything also many little heart throbs. It had, in spots, sparkling witticisms, and in others, even the dramatist's dramatic ineptitude could not destroy piquancy or the comedy of a quarrel with the play, not the players.

The real reason the play was a success was the perfect coordination between actors and audience. That part of the audience which never heard of the Alcott version probably wept copious tears over the Hepburn interpretation and was more than ready to weep more sweet tears over the Jesters' version.

And weep it did, beginning even at the moment pale little Beth appeared on the stairs in her dressing gown. Sweet anticipation! If the Jesters had had the bad taste to let Beth die on the stage the organ would have flooded. The point is, however, not the tears, but the fact that the audience went across the footlights to meet the players instead of waiting for the players to convince them. A poor presentation would have suited the audience almost as well.

That is why it is so tragic for the Jesters to have wasted so much talent and energy in the production of a play which was not going to be judged on its real merits.

And now the Jesters themselves. It is hard to know whether to give the major credit to the staff or to the actors. The setting was one of the best we have had, and the costumes just about "made" the play. A bright and shining star goes to Marion Baughan and to the committee headed by Nell Turner for a genuinely artistic piece of work.

But all this is still steadiness and a grace which belied her relative inexperience on the stage. Joyce Mickkle did Beth with the right amount of pathos.

The men were about the best the college girls have ever been. Mary Kethley was a little too rosy and smiling for an unhappy husband, but those are qualities which will stand her in good stead when she is not masqueraded as a man, so we must not complain of them. And poor Mignonette Stocker! She was left off the printed program, and was not allowed to come onto the stage until the end of that awful hodge-podge of a third act in which no two lines seemed to relate to the ones which preceded. We'll have to wait until the next time to know what she can do.

As to the programs, a little careful proof reading could have improved them considerably. Just to mention one error, the auditorium is not the James B. Russell Auditorium.

> INTERNATIONAL AFFAIRS Aside from d'affaire Simpson the foreign situation presents the same surface quiet with ominous rumblings as seen last week. In Spain the governmnt is grimly hanging Frank on to Medrid against the onslaughts of the Fascists who have poured bombs on the streets of the cities with no regard for women, children or civilians. With steady reinforcements from the loyal province of Catalonia it may be possible for them to hold off but the capitol, by all military standards is the same as ruined Russia has made reply to the accusation of aiding the Spanish government and has been cleared of all except one charge and has been given more time to answer that one.

L'AFFAIRE SIMPSON

The affaire Simpson is marking time for the moment, waiting unti the final decree is granted tha sprightly lady. What the King wil do about her, or what she wil do about the King, is still a matter of conjecture, and for the roy al conscience to decide. To Ameri cans, accustomed to having their affairs ridiculed and laughed at in the press and in foreign nations the whole thing has been a printer's holiday. It is great fun to ride the other fellow a bit, and the Americans have at last gotten an Englishman, a King no less, in an embarassing if not faintly ridiculous situation and the papers are making the most of it. In more serious affairs the English government is still pursuing its imitation of the man on the flying trapeze, leaping from one situation to another, with no definite show of any organized policy as yet. To those who have looked for England to assume her historical role of the arbitor of Europe it is strange to see the usually firm John Bull yielding to Fascists one day and the Communists the next, and generally allowing her position in European affairs to be taken over by Mussolini and by Hitler and by Stalin. Her attitude in the present crisis has been the most disappointing performance she has ever made. Whatever else England may have done, she usually puts on a good

The Cherokee Testament, writ ten in Indian and printed in 1860, is one of the main features of the table displaying old and rare books-all old, some rare. There is a Harper's Weekly for Jan. 7, 1865 on display here that has in it quite a few Milledgeville pictures. Another in "Vindication of the Rights of Woman with Strictures on Political and Moral Subjects" printed in 1794.

Series of books are on the table for good inexpensive editions. Some of these series are the Blue Ribbon, Modern Library, and Modern Readers. Among the books are The Decameron of Boccaccio, The Poems and Plays of Robert Browning, and The Luck of Roaring Camp, by Bret Harte.

Particularly interesting to the faculty members would be the table containing bibliographies on various subjects. Probably most important in this group in the catalogue of the Wymberly Jones De Renne Georgia Library, in three volumes. This library possesses the most important existing collection of historical and literary material relating to Georgia as a colony and state. The catalogue is elaborately annotated and the subjects are followed logically with all the standard authorities listed. Also in this group of books are List of Books in College Libraries by Shaw, Literature of Chemistry by Crane and Patterson and The Personal Bibliographical In-

After the first five minutes of the Jitney production of "The Romantic Young Lady" we knew exactly what was going to happen, but on the whole we enjoyed it happen. In our opinion the name of the star is a bit "bigger" than the star herself, but she is pleasant to look at, has a pleasing voice, but "trods the boards" a bit heavily.

To Marjorie Jarecki goes our commendation as the most convincing member of the cast . . . she really was Donna Barbarita who in her eighty years had learn. ed "when to go to sleep and when to wake up again." Her maid was the usual stock maid who bosses her mistress and that sums

The three brothers were frivolous, love smitten, and seriously ambitious, respectively. Perhaps the frivolous brother was a bit too cute, but the audience liked him.

Irene, the secretary, played by Helen Dunlop, was, surprisingly, one of the best in the play. Her performance was convincing and natural. Laurels should go to her for her capability in discouraging aspiring Don Juans.

The best acting on the part of the male actors was done by Douglas Rowland who starred with Miss Colt. We particularly liked his voice; it made up for a touch of stiffness which seemed apparent at times. We objected to his calling Miss Colt, who is every inch as tall as he "little Rosario," but-one must follow the script, it seems. On the whole, our favorite of the entire cast was Mr. Rowland, but perhaps we too are just "Romantic Young Ladies."
