It Looks From Here

The A. F. L. is preparing for its annual convention next Monday. One of the chief items slated for action seems to be the explusion of the already suspended C. I. O. Unions. The claim is made that the person in charge of unionizing the automobile industry represents the Communists International in Moscow.

Justice Hugo Black of Alabama. recently appointed to the Supreme Court by President Roosevelt, upon returning from a month's trip to Europe was met by a large group of newspaper men to get his statement about his membership in the K. K. K. It would seem that Mr. Black's silice on the subject in view of the fact **pat** threats of publishing original information as to his affiliation with the clan have been made indicates somewhat the difficulty in which he finds himself. It looks from here that he and President Roosevelt both have determined to let the public wear themselves out with these reports.

The President's western cross country trip seems to be moving along undramatically. His outspoken enemies are acting the part of formal welcomers, which is good manners good politics,maybe, for the hostess state or community at the time. The amount of business that the executive attends to, even while on the

In addition to the seventy-five room dormitory to be built there will be a dining hall to accommodate 2001 girls and parlors and recreation rooms.

road is staggering if one is to be lieve the reports of the Daily Merry--Round.

The eyes of the world are turned this week to Mussolini's visit to Hitler. This is just as the two dictators would have it. They want the center of the stage especially in Europe. Their offer to make a compact of Germany, England, Italy, and France for the peace of Europe sounds good if it could be depended on. What comes of it will depend upon their actions and not upon their words. From the preparations which both are making for war, it would be hard for any nation, especially France and England to believe that they are for eace ,unless it be their own partizular variety.

The Japanese attack on China looks as if it will be a long drawn out affair. The Chinese are able to stand a great deal; they do not get easily upset nor do they prize their own individual lives highly (witness the twenty who deliberately suicided in an attempt to sink a Japanese ship.) The Japanese continue in the slaughter amidst difficulties and one wonders if Heywood Broun isn't on the side of good judgement when he says that they will go back home with the Chinese still unconquered. Will Rogers reminded us that China was large enough to absorb most of Asia if Asia chose to run into her. A division of our fleet staying in the warring waters doubtless has a wholesome effect on the whole, but what the future holds is most uncertain The National Resources Commit-

tee in suggesting plans to improve social conditions of our country especially the crime in urban centers, makes plain, as is everywhere being done, the importance of long range planning and co-operation with all agencies. The factors making for jevenile delinquency are ultimately contributing to crime as the committee points out. The make plain that there must be better home and community environment for children.

George Cukor, Film Executive, says Southern Girls Most Beautiful

To all G. S. C. W., girls who need a mental pick-up comes the encouraging thought that we obtained from Dot Howell, G. S. C. junior, who was a member of the Georgia Caravan on their trip to Hollywood this year. Dot, in an interview with Mr. George Cukor, casting director for "Gone With The Wind," says that Mr. Cukor committed himself far enough to say that Southern girls were decidedly the most beautiful girls of the nation, and the Southern brogue completely fascinated him. A signal compliment was conferred on Dorthy in that she was

one of six girls selected from the Caravan to talk with Mr. Cukor about possibilities for "Gone With the Wind." and to have screen tests made.

Mr. Cukor is described as being small in size, but with the most dynamic personality imaginable. According to Dot, he seems to go at full speed all the time. Quite interesting to all students who

are acquainted with Dr. L. C. Lindsley's home, "Westover", is the fact that Mr. Cukor commented particularly on this home and remarked how much he had been impressed with it when he came to Mliledgeville. He asked the six Georgia girls for advice concerning the filming of "Gone With the Wind", and upon being told to avoid overdoing the Southern accent and to omit the "you-all" when referring to one person, he promised to make a note of the suggestion and consider it when the filming started.

Certainly of vital interest to all movie-goers would be the number of celebrities seen and the famous places viisted by Oot.

Prominent among the places visited is the Coconut Grove. Hal Kemp and his orchestra played here, and here the party saw Franchot Tone, Joan Crawford, Robert Taylor, Barbara Stanwyck, and Dorothy Lamour, not to men-

RENTAL LIBRARY

Miss Betty Ferguson, head of the rental library, wishes to announce the purchase of 118 of the latest and best selling books. The Rental library which is located to the left of the circulation desk in the Ina Dillard Russell Library, was opened under Miss Helen Hagen in the spring of 1935 and has enjoyed great popularity since that time. Its membership has now reached 240 and as yet many Freshmen are unaware of the possibility of joining. For their benefit we review the membership requirements: 1 Membership is open to anyone who wishes to join. 2. A fee of fifty cents is charged to the faculty and town people and twenty-five cents to students. 3. Rental rates are five cents for three days, and three cents for each aditional day that the book is kept. (There is no charge for the day the book is taken out or for Sundays). 4. Fees must be paid when the book is returned.

In the past, there has been some question as to whether a membership must be renewed annually. It does not. People who pay their membership fee then automatically become members for their entire stay in Milledgeville.

Among the most interesting new books that have been added to the rental library are: How to Win Friends and Influence People, by Dale Carnegie; 400 Million Customers, by Carl Crow; Neighbor to the Sky, by Gladys Hasty Carroll; The Citadel, by A. J. Cronin; Life with Mother, The Music Department started the by Clarence Day; Sons and Fathers. by H. S. Unusually impressing seemed to be the Hollywood Bowl, where the group went to hear Lily Pons sing. Dot says that the size of the Bowl is incomprehensible until one can see it, and that the place was packed when she was there. Sitting three rows in front of her was Grace Moore, anh on the same occasion she saw Carole Lombard. At the premiere of High, Wide, and Handsome Tyrone Power was seen, escorting Sonja Henie.
