It Looks From Here

The few remarks made last night by Vera Brittain in her talk here which referred to the abdication of Edward were particularly interesting in the light of all the ballyhoo now being made over his possible forthcoming trip to America. Today the papers are saying that the ex-king nd his wife may not come to America at all, due hints Mr. Bedeaux, their contact, or, as newspaper men would vulgarly put it, publicity man, to "certain unfavorable and unpleasant situations that have arisen".

Pressed for these unpleasant things that might have offended the royal sensitivity Mr. Bedeaux said it was a resolution passed by the American Federation of Labor intimating that it did not particularly care for the Duke anyway, and much less for Mr. Bedeaux. That is not at all strange, considering that Mr Bedeaux has quite a bit of the money with which to buy French chateaux from a system for measuring the effciiency and incidentally, speeding up) laoor. In labor circles this is known as the "stretch out" and is one of the few things the CIO and the AFL are pgreed upon. They both don't like it

If Edward is coming to America he may as well get accustomed to such "unpleasant comments." Americans have a habit of making them. and by the way, his royal epidermis must have grown exceedingly tender since his abdication, for he certainly received his share of the "unpleasant comments" from his own countrymen, ranging from the Archbishop of Canterbury to his own Prime Minister. During that trying time, when, as Miss Brittain said, he was being very badly treated in an excess of "disgusting sanctimoniousness" America was almost solidly in his support. He appealed to the American sporting sense and to the merican love of the romantic. He was Hollywood's dream come true.

But it may be that he is sensitive. and that all this unpleasant comment may keep him from our shores. A pity. The American public is waiting, eagar and prepared to make him a national hero, to give his tour ail the accolade of a conquering prince, and if the state department accedes to the British and doesn't call Mrs. Edward Her Royal Highness you can bet that the public will, end in all probability will even go them one better and make it Her McGEE AND GREENE Majesty.

Be that as it may, there are bound to be a few flea bitten souls in America who will say a few nasty things about visiting royalty, ex or otherwise, and especially are the labor groups apt to express their opinions of either her or his companions, particularly when his companionsare not notoriously friendly to it. If Edward expects otherwise he had best return to Germany, where he may be certain nothing unpleasant

DO WE WANT A CUT SYSTEM?

All this year we have been hearing mutterings among the students concerning the cut system—or rather the lack of it—that we have on the campus. But so far the mutterings have been unintelligible and we have been unable to glean any real information from them, other than the fact that we are dissatisfied with the present system and want a change.

Monday and Tuesday will see at the ling Green State University, Bowling campus, one of the best romantic adventure stories of the year. The picture is based on Anthony Hope's most famous novel and bears the same name—"The Prisoner of Zenda." Few will deny that Ronald Colman is an unusually good actor, and according to press reports, he has outdone himself in this picture. Playing with him are Madeleine Carroll, Douglas Fairbanks, Jr., Mary Astor, and C. Aubrey Smith. The plot is concerned with Rudoh Rassendy V. an English gentlemen and retired army officer and his startling resemblance to King Rudolf V. Both roles are played by Ronald Colman, and the action promises to show the most distinct separation of two personalities ever portrayed on the screen by a single star. It's said that he did it with mirrors- It isn't hard to guess the end of the story-Rassendy V. becomes involved with court intrigue and attempts to take the king's place. He falls in love with the Princess Flavia, who has been betrothed to marry the king. To further complicate matters, she also falls in love with him, not knowing his real identity. It's a nerve-wracking picture one that makes you tear your hair. And yet you can still appreciate the fine acting.

Another one of those tense newspaper yarns will be shown on Wednesday-"The Women Men Marry". The cast—George Murphy, from Broadway, Josephine Hutchinson, who played in "Oil for the Lamps of China" and "The Life of Louis Pasteur", Claire Dodd, Sidney Blackmer, and Cliff Edwards. George Murphy and Josephine Hutchinson are both newspaper reporters on the same paper, and excitement runs riot when they try to expose the leader of a mystic cult who is fraudulently obtaining money from hypnotized members of the cult.

Eddie Cantor returns to the screen in. "Ali Baba Goes to Town," a musical extravaganza of the first order. The picture is one of those that center around a dream of the main character: Eddie Cantor, in this case, He dreams he is in Bagdad, and it isn't hard to imagine what happens from then on—the whole cast "goes to town." Included in the cast are Tony Martin, Roland Young, June Lang, Louise Hovick, John Carradine, and Alan Dinehart. Songs are "Laugh Your Way Through Life." "I've Got My Heart Set On You" and "Swing Is Here To Sway".

rule over men but ourselves." She traced the movement politicaly educationaly and as to a mother's

It was not until after the World War that Oxford gave degrees to women, Vera Brittain, went on to say. Before that time women could study at Oxford and Cambridge. Miss Brittain said that she was one of the first women to receive a degree from Oxford.

Before the War, Miss Brittain added, women in England had very little freedom, but with the war they made an escape from their parents and Victorian customs. After the war they did not want to give this freedom up. Women took violent steps to keep up their movement and thus we have the woman of today.

But Miss Brittain said that not all women today are free. The women in Germany have been trained "to be propagandists" and that is all they are. Italy, Miss Brittain said, has put her women in the home "to bring in citizens of tomorrow for cannon fodder or, as we should say now, gas

"Russia today gives more consideration to the woman who wants to rear a family and go forward in a job, "said Miss Brittain. She took the Scandanavian countries, England, and America as the countries faced with the problem of "going on with the fight started for equality of women or go back into a new dark age." Miss Brittain said," the solution of this problem does not lie in war."

In an interview with her Miss Brittain said that today she is not in favor of the League of Nations as "it has become the instrument of the Materials, development of the string French government."
