## Hunnicutt of **Brazil Speaks** On Education

"Brazil looks to the future with the greatest potentialities of any nation on the globe," said Dr. B. H. Hunnicutt, president of Mackenzie University of Brazil in a chapel talk Monday.

Dr. Hunnicutt, who is on his sabatical leave, spent his adult life in Brazil studying education methods, and he is a recognized authority on Brazil. He was brought to the campus by the International Relations Club, of which Marion Arthur is president.

Brazil suffered an inferiority complex for many years and imported most of its manufactured goods, but now its industrial development has made the world sit up and take notice.

"International cultural warfare is another evidence of Brazilian civiliation," said Dr. Hunnicutt.

Proof of this is that Brazillian uniensities do not recognize scholarhips of any other country. There are only twenty-one Brazilian students in the United States, Japan and Germony pay the transportation for Bra-
