## **Noble Beats Bartlett; Council Appoints Two**

Winifred Noble was elected Chairman of Judiciary by a majority of two votes in the run-over election held Tuesday, Oct. 8. She defeated Loree Bartlett, a junior, who rereceived a total of 156 votes.

The run-over was necessary because no one of the can-

didates received a majority in the primary held last Friday, Oct. 4. Out of the 301 votes cast Winifred Noble and Loree Bartlett received 122 and 105 respectively in the primary. Ethel Thompson was eliminated in the first race with a total of 74 votes.

As the position of Chapel Proctor was of a necessity vacated by Winifred's acceptance, Student Council appointed Jimi Lou Benson to this position at a meeting Oct. 8. The duties of the Proctor are to make all the announcements at chapel and to sit on Upper Court.

Ethel Thompson was chosen at the same meeting of Student Council to fill the vacancy of Margaret

YWCA Monday night, Oct. 7, in the basement of Beeson Hall, Mr. John Morgan, social science professor, discussed the war situation in Europe, the Far East affair, and factors leading up to the present world crisis.

The Treaty of Versailles, the rise of Hitler, the spirit of nationalism, and Germany's aggression were points Mr. Morgan brought out as preceding the present conflict.

"Some propagandists like to blame the French soldiers for the downfall of France, but I do not. What else could either France or Germany have done? France's very security depended upon keeping Germany weak."

He implied that Japan, in his opinion, would not go to war with the United States, nor would the United States fight Japan. He says he feels that it is of no use to bother with Singapore, as the United States is not ready to fight.

"And, anyway," he declared, "if England goes down the United States won't have time to worry about the Far East."

Mr. Morgan says he does not believe Spain will have much to offer in the way of arms to the Axis powers. The recent civil war in Spain has crippled her. He says only extreme pressure of the dictators will cause Spain to attempt to take Gibraltar.

In answer to a question of Mr. Willkie's ability to manage things in the White House, he said:

Just because Wendell Willkie used to be head of the Commonwealth and Southern Company does not qualify him for President in my sight. I'm a Democrat. I will vote for Roosevelt."

## **Miss Pittard to Give Program**

Miss Catherine Pittard will give the second program offered by the music department and lyceum committee this year. Miss Pittard, a teacher of piano at GSCW, will appear at 7:15 Wednesday night. The program to be presented consists of the following selections:

Sonata Opus 57, Beethoven; Song Without Words Opus 38, No. 6, Mendelssohn; Naila Waltzes, Delibes-Dohnanyi; Rhapsody in C Major, Dohnanyi, and Toccatta, from Le Tombeau de Couperin," Ravel.

## At Last, Free Music

We are proud to say that the nickelodeon question has been settled. Last year, we asked repeatedly that the promise made to trip the machines when they were paid for be fulfilled. This year, we can enjoy the nickelodeon music and pay nothing.

Funds collected after the machines had been paid for have accumulated and are now being used to buy records and service the nickelodeons. Exactly how long this money will last is not definitely known, but it is expected to cover expenses for this quarter. A plan to secure the money for records and service charges is now being considered.

Three alternatives are available for the plan: 1) use the radio fees from each dormitory: 2) have the machines tripped just half the time; and, 3) take up a collection from each dormitory. Of these proposals, we favor the first. Since the radio fee must be used for some dormitory project, we suggest that it be used for records. If that money isn't sufficient, we believe the second alternative should be put into effect. Only as a last resort would we support any effort to solicit funds for the project.

The plan will be considered during this quarter and some method to raise the necessary money will be decided upon. In the meanwhile, we can be appreciative of our free music.

## Our Buildings Need Markers

We have realized for a long time that our campus buildings should be identified in some manner for new students and visitors. Even more forcibly is this truth recognized today.

Many parents have asked us where a certain building was and how to get to that building. It was impossible to give clear instructions as to how to reach any building when none of the names of our campus halls are known to anybody other than students or former students.

We can offer no better suggestion than that some group on the campus sponsor a project to mark the buildings. Some buildings would need two markers, some but one. As a sponsor for the project, we ask that those organizations receiving funds from the Student Activity fee be responsible.

Costing not over \$150, enduring copper plates bearing the name of each building can be purchased. It should be an easy matter for the 10 groups included in the Activities classification to procure the necessary amount.

We ask that this matter be taken under consideration by all the groups. We can think of no more useful and decorative way in which to show our appreciation to the student body for giving us the money on which we, the organizations, exist.

## We Are Responsible

Remembering past experience, we want to state here, for the benefit of all readers of this paper, that the opinions expressed in this column are the opinions of the editor, and those of the editor alone.

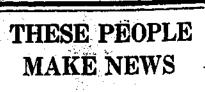

No faculty member censors our editorials. No faculty member contributes editorials to be printed in these columns.

Ours is a student paper, managed entirely by members of the student body. We fervently hope that any complaints will be directed to the editor and to no other person.

## No Anonymous Letters, Please

As a reminder to the old students and as an announce ment to the new students, we hereby give notice that no. anonymous letters will be accepted by the Colonnade for publication. The identification necessary before any letter will be printed is for the editor to know the name of the author. If the author does not wish her name to be printed, it will not appear in the paper. It is understood that the opinions expressed in such letters are those of the writer. not those of the Colonnade.

PHILADELPHIA, PA. (ACP)—Gifts totaling nearly \$5,000;000 from 16,000 friends and alumni were given the University of Pennsylvania at its 200th anniversary celebration.

The week-long observance drew representatives from hundreds of colleges, universities and learned societies.

Highlights included conferring of honorary LL. D. degrees upon President Roosevelt and Sir Lyman P. Duff; chief justice of Canada.

Planned for four years, the discussions centered on America's role in the world crisis. Religion, art, politics, social science, economics, literature and all their fields.

## Parents Day

Today is the one day set aside by this school for a special celebration honoring the parents of all GSC students. To us, this seems to be one of the finest customs observed at this school.

We believe that most parents want to know the environment in which their daughter lives for nine months, and. too, each daughter wants her parents to know her friends. her teachers, and her housemother. We can think of no better method by which these wishes can be fulfilled.

This paper is our way of showing to each and every parent that he or she is welcome. We are glad to have you come look us over, and we hope that we live up to your expectations. If we don't, though, perhaps you can tell us how to improve ourselves.

We would like to express here our appreciation to the GSCW Alumnae Association, to the Granddaughters Club. and to all others who are in any way responsible for this occasion. It is seldom that we think any person or any action is worthy of a bouquet, but we believe those people in charge of this affair are worthy, and so, we hereby bestow on them, collectively, one of our choicest corsages for their efficiency in planning and handling this celebration.

## Must This Be?

This, the sixth season of the Cooperative Concert Association in Milledgeville, promises to be a good one. The committee to choose and bargain for the artists who will appear here has already made one choice, that of Nino Martini, and has promised others just as excellent. We sincerely hope that the tickets sold will warrant the effort expended. We urge that every student and every local person buy one of the season tickets.

But, we do not think the privilege to buy a season ticket to the All-Star Concert Series in Atlanta should be reserved for those who have previously purchased a ticket to the local concerts. We fail to see the reason for such an act. If any student has the money and permission from her parents, we think that she should certainly be allowed to go to the Atlanta concerts, regardless of whether she has

supported the local association. We ask that the sale of the two season tickets be handled separately if this exclusion of some students is to continue. Never before has there been such a prerequisite for buying an Atlanta ticket, and we think there should not be one now.

"The reason for our lawlessness is that at present we are just changing over from authoritative control to internal control. The former, as employed by parents of the old days; has been released without the establishment of good internal control by modern day fathers and mothers. Our schools are placing increased emphasis on character development and through the study of music, art, literature and science are providing an 'education for leisure,' so that our future citizens will not spend their time in unprofitable and frivolous pursuits." George Melcher, 72-year-old superintendent of Kansas City schools and a teacher since he was 16, makes the point that education has not failed. declaring that increasing lawlessness is not the fault of the education system.

The Milledgeville Cooperative Concert Association got off to a good start Monday morning with the assurance that more and better talent will be chosen for this year's programs. Although a final decison has not been made as to the artists who will appear, four of the nation's best have been considered. Those are Nino Martini, Metropolitan tenor; Maria Bambarelli, Premier Danseuse of the Metropolitan Opera Association; Westminster A Cappella Choir, Princeton, N. J.; and Robert Virovai, violinist.

The student workers are to be commended on their efforts to convince the student body that \$1.50 spent in buying a ticket which will permit you to hear three and possibly four great programs is worth three times what you put into it. It is understood that no student adult will be permitted single admission to any of the concerts. Only season tickets are sold, which are transferrable. ## Frosh, Watch Your Weight!

**By BETTY PARK** 

As near as your harried reporter (who never was any good in mathematics, anyway) can figure out, each girl at GSCW eats approximately one pound, one and one-half pints of food daily. All together we students eat just about 75 pounds of butter, 130 pounds of sugar, 270 pounds of meat—this sounds like an order list for a circus, doesn't it?—190 pounds of sausage, 160 pounds of flour for biscuits and rolls, 85 gallons of milk, 40 gallons of ice cream, 300 pounds of

potatoes, 100 pounds of corn meal -that's for the combread we have every now and then-140 pounds of bacon. 100 loaves of bread. 200 lemons (when we have tea) and 75 gallons of canned vegetables. and 1,200 eggs PER DAY!

Of course, we don't eat all of this every day, but when the foods above are prepared, these are the average amounts. Remember. also, that these stag-

gering amounts include all of the dining rooms on the campus. But, huh! no wonder we're gaining!

He also believes that the government should conscript everything - not only men but also business. labor, and capital. Perhaps the most debated question in the country today the newly-passed conscription bill. In view of the fact that this bill has caused so much discussion, a few of the faculty members have expressed their opinions on the matter: Dr. Henry Rogers, of the Physics Department, approves heartily of the bill. His only objection is that it should have

Dr. Smith also brought out the point that army training is, indeed, a very fine thing for young men. He said that most of the mothers did not want their sons to leave home for country does have to go to war. each mother will be more likely to see her son return home alive if he has had military training. Dr. Smith said that the United States is facing one of the greatest ordeals it has ever faced, and the best way to stay out of war is to be prepared, and the best way to be prepared is through conscription.

Miss Hallie Smith is also in faitely a fair bill, in as much as it gave the young men ample time in which to volunteer before the bill was passed and in that it has exemptions which keep it from inter-Continued on page eight

One out of every five students at GSCW is being enabled to attend college through part-time employment by the National Youth Administration. With a registration of 1,437 for the current year, slightly more than 300 of these girls have NYA jobs.

A total of \$18,000 a year is spent here by the Youth Administration in the form of direct wages to students for useful work actually performed. Within the broad framework of the acts of Congress and policies formulated by the national and state offices of the NYA. GSCW officials enjoy almost complete autonomy in the selection and assignment of students.

All students working on this phase of the NYA program are paid at the prevailing wage rate for similar work in the community. and each student earns from \$10 to \$20 per month. Meager as this amount may appear, it means in most cases the difference between being able properly to remain in school and having to drop out and become unwelcome additions to an already overcrowded labor market.

The NYA employees here are assigned to such various jobs as general clerical work, dining rooms, cafeteria, libraries, the Peabody high school , research work, and similar tasks for faculty members. Work must be of a socially useful nature for the benefit only of public or non-profit-making agencies, and must not displace functions previously conducted by the school.

Records of students employed by the NYA have been consistently higher than the general aver-age, in both scholarship and participation in extra-curricular activities, according to Mr. Dewberry, NYA students have garnered honors far Continued on page eight

## **Colleges Too Jammed** 81 Singers **Burlingame Believes** Join Choir

"We have made a fetish of education," . . . So says Dr. C. Charles Burlinggame in "A Psychiatrist Indicts Education." He, after a fashion, puts it upon a pedestal and calmly hangs it. He does it all in a matter-of-fact manner, and proceeds to give a simple remedy. Of course, it is taken for granted the educators will not snap

greedily at its conclusions. It takes CBS Offers dent for use, particularly in the field of education.

There are too many students in college purely to satisy the fond ambitions of parents, or for the social prestige a diploma somehow gives. A great deal of native intelligence never gets to college, or if it does, it is sadly smothered with the mass of details and mediocrity which comprises the bitter but necessary pill for the majority of students.

"But, Doctor, I only wanted him to get the things I didn't have the chance to enjoy." Yes, and what if Junior doesn't want the things the well-meaning parent didn't enjoy? Or, what is worse, what if Iunior doesn't have enough intelligence to warrant higher learning? After eating cake for four years or more, it is harder to eat bread. Dr. Burlinggame finds that "graduate students won't initiate and carry on work; all they want to do is absorb." It gets to be a habit.

He advotes strongly the exclusion from college those without capacity. More rigid requirements for entrance would produce a more equalized intelligence, on a higher basis, and enable better handling of the complex life of today by the coming generation.

"The system is geared to make education the real American Tragedy." It is not contributing to self. reliance, but weakening the student. He is filled with "What can I get"---not "What can I give."

Evidently this' man believes edu-cation should give lessons in how to live as well as book sense, and then let us do a little of it while we're about the job. It might not be such a bad idea.

# **Radio Course**

Approximately 110,000,000 Americans are eligible to take a new seminar course, given by three of the country's leading men of letters.

The course, for which there neither tuition fee nor entrance examination, is open to anyone having access to a radio.

Allen Tate, Princeton professor and former Rhodes scholar whose poetry and biographical works have aided the current Southern literary renaissance, is one of the teachers of the course.

Another is Mark Van Doren, poet, critic, and editor of a number of anthologies.

The third member of the group is Huntington Cairns, Baltimore attorney and book-lover. Cairns, 36, is counsel to the Treasury Department, and book censor of the United States. As Treasury Counsel, he passes on the importation of books to which objections have been raised.

The teachers do not lecture. They sit around a table at CBS headquarters in New York, discussing, each Sunday afternoon at 4:30 p. m. (EST), one of their books on their list of the world's greatest. The series began on Oct. 6, with Aristotle's "Politics." The sessions are similar to college seminars, except that listeners cannot ask their teachers questions

The course of discussions, titled "Invitation to Learning," touches varied subjects not ordinarily included in a single course. Ethics. autobiography, fiction, drama, criticism, science, and history are just some of the topics which will be covered. Many of the classics to be discussed were written originally in Greek, Latin, French, Italian, and German, as well as Eng-

In the freshman class are Mary and Elizabeth Smith from Ocilla, who don't dress alike and have no classes together. However, they look as much alike as two peas in a pod. Avis and Agnes Barlow, also freshmen, live in Milledgeville dress alike, and have identical twin sisters in the Peabody high school. They have never been separated for a single night; enjoy "swapping dates" and do so quite often. This

policy is not successful with Miriam and Nell Bennett, juniors, although they dress and look alike.

It is easy to distinguish Lois Pope, a brunette, from her twin, Elizabeth, who is a blonde. Other twins who are on the campus and add to their teachers' confusion are Betty and Nell Nelson from Cartersville , and Martha and Myrtle Keel, who live in Milledgeville.

out of proportion to their number. Indicative of this, on a nation-wide basis, is the fact that 12 out of 18 Phi Beta Kappas at Rutgers last year were NYA employees. During the winter quarter last year, 25 of the 50 GSCW students making the Dean's list were receiving NYA assistance-25 out of 306 NYA employees, as compared with 25 out of 1,094, the remainder of the student body.

can boys and girls have found it possible to continue their education through the part-time work provided by the NYA since its inception in 1935. On June 26 of that year, President Roosevelt created the National Youth Administration by executive order, earmarking for this purpose funds from the emergency relief program. The NYA has since been removed from the emergency relief status by Congress and given a separate appropriation under the labor and security category.

The NYA was the only federal agency for which the present "economy" Congress voted a larger grant than for the previous year. The annual expenditure now to help four million American youths obtain educations and jobs is slightly larger than the cost of one battleship. A Gallup poll of one month ago showed that 82 per cent of the American people advocate the continuation of the NYA.

Figures compiled by the Department of Labor show that, while there are 25,000,000 more people gainfully employed in the United States today than in 1892, there are actually numerically fewer young people at work. This basic change in our social structure bespeaks the necessity for young people's remaining in school as long as possible, both in order to avoid a period of "marking time" before work is available and to qualify themselves to obtain work as quickly as possible.

Dear Miss Clix: How can I impress our drama teacher that I ought to get the part of Juliet when our school does "Romeo and Juliet" this year? The teacher comes from New York, is handsome, worldly and mature (around 35), but he's as aloof as a Greek god on Mt. Olympus. I feel like a babe in arms in his presence. How can I get the role?

ows, Dr. Paul Boeson, and Mr. Leo Luecker. Others from the college who will attend the celebration will be Miss Ethel Adams. Miss Lutie Neese, Miss Frances Lott, Miss Panke Knox, Miss Maggie Jenkins, Mrs. Guy Wells, and Miss Anne Wells. The program will be directed by Mrs. Nelle Womack

Hines, GSCW radio chairman. Several Atlanta GSCW alumnae and members of the WSB staff will be on hand to see the cake cut and join in this part of the program "slice by slice." The "cutting" of the cake—a ten-pound one decorated with five candles — will be broadcast by a WSB announcer in the regulation football style.

Last year was the first time that the radio program anniversary had been celebrated.

Why newspapers are like women:

1. They are thinner than they used to be. There is a bold face type. 2.

3. Back numbers are not in demand.

4. They have a great deal of influence.

5. Every man should have one. of his own, and not chase after his neighbors.

H. Stuart Hughes, a grandson of Chief Justice Charles Evans Hughes, who finished at Brown university in 1881, has been appointed administrative assistant and instructor in history at Brown.

## **Johnson Chosen** F. T. A. Secretary

Mary Alice Calhoun, president of the Future Teachers of America, explained the purpose and the founding of the organization to the 31 new members at regular meeting-Wednesday night. Martha Johnson was elected secretary and a project committee was appointed to select a project for the coming year.

The next meeting of FTA will be Oct. 22.

## **Cotillion Club Elects** Fourteen

Following tryouts held Tuesday afternon, Oct. 8, in the Physical Education building, the Cotillion Club accepted 14 of the applicants into its membership. The new members are Virginia Fletcher, Carolyn Adams, Lyra Godwin, Louise Dobbs, Carolyn Rosser, Ernestine Wynn, Frances Raby, Mary Lokey, Marian Ward, Martha Howell, Marjorie Biggs, Kathleen Youmans, Darien Ellis, and Reba

Yarborough. Loraine Proctor, president of the organization, and her committee judged the girls by the following requirements: (1) dancers must pass test in leading and following a waltz and foxtrot with one of the committee on admission as a partner at an appointed tryout, and (2) dancers must excell in dance position, smoothness, style, variety and good body alignment. Miss Ethyl Tison, sponsor of

the group, explained that only upperclassmen who have had a quarter of social dance training and

transfers are eligible for membership.

DO YOU SMOKE THE CIGARETTE THAT SATISFIES IT'S THE Smoker's Cigarette

Definitely Milder, Cooler-Smoking decidedly Better-Tasting, Chesterfield is one up on 'em all

Smokers say that Chesterfield is the one completely satisfying cigarette. Everybody who tries 'em likes 'em. Chesterfield's right combination of American and Turkish tobaccos is the best that money can buy.

> Do you smoke the cigarette that SATISFIES

BETTER MADE FOR BETTER SMOKING Every Chesterfield must conform to the one right standard of size and shape for a cooler, better-tasting, definitely milder smoke. (As seen in the new film "TOBACCOLAND, U.S.A.")
