### Classes Vie For Golden Slipper Nov. 15

On Friday evening, Nov. 15 in Russell Auditorium the freshman and sophomore classes will present their respective one act plays in competition for the coveted Golden Slipper annually awarded to the class presenting the best play.

Mr. Leo Luecker is faculty advisor for the sophomores. He will direct "The Monkey's Paw", the sophomore play, adopted by Dorothey Miller and Johnnie Graham from W. W. Jacob's short story. The tentative cast for the sophomore play includes: Edythe Trapnell, Virginia Lucas, Jaunita Pitts, Ann Stubbs, Ann Upshaw, Nancy Green, Ann Bridges, and Barbara Montgom-

Faculty adviser for the freshman class is Miss Mary Thomas Maxwell, Floride Holly and Vera Bennett adopted the play "The Masque of the Red Death" from the short story by Edgar Allen Poe. Jane Sparks, Marion Stewart, Jane Bowden, and Sarah Sims make up the cast for "The Masque of the Red Death".

In addition to the play, posters, class spirit, songs, and de-(Continued on page three)

Lottie Wallace was elected president of Terrell B and C. Serving with her are: Barbara Berry, vice president; Jane Sparks, secretary; and Ida Ruth Moreland, treasurer.

Topped by three colorful soloists, the Kryl symphony Orchestra under the direction of Bohumir Kryl will play in the Russell Auditorium Monday, Nov. 11 at 8:30.

According to Lyceum sponsors this 50 piece symphony promises to be one of the highlights of the Luceum series of this term.

Katherine Landyr, soprano, has studied and prepared her opera roles under the great baritone, Pasquale. May Hopkins, who has appeared on coast-tocoast tour with the symphony orchestra last year, will again accompany this organization in the same capacity. Pravoslav Krch, Czech violinist will appear as soloist.

Born in Prague, Bohemia, the son of a sculptor, Kryl ran away from home when he was 11 years old and joined a circus then traveling Europe. He acted as acrobat during the shows and played cornet in the parade. After two years of circus work Kryl met with an accident, quit the circus life, and walked over 200 miles to his home town.

Less than six months after leaving the circus, Kryl was on his way to America, paying for his passage by playing the violin in the orchestra of the ship. Some ten years later Sousa, hearing of a young cornetist who was working as a sculptor in Indiana, (Continued on page five)

#### GSC and GMC Hold Joint IRC Meeting

A program centering about the present political situations of the world was presented under the direction of Doris Dean at the bi-monthly meeting of I. R. C. Monday night.

Mary Johnson, Dot Eley, Jessie Lambert, Merle McKemie, and Margaret Lambert made short talks based o nmaterial from the "Fortnightly Review" sent out by the Carneegie Foundation to all chapters.

Major Conn Bryan and several students from GMC met with the chapter and will continue to do so until a similar chapter can be organized on that campus.

The program chairman of the GSCW I. R. C. and an appointed chairman from GMC will plan a program for the next joint meeting which will be held November

### Frosh Room Scene of **Colortul Collection**

By BONITA CHIVERS

The pattern of a college room is not usually complete until all the colors of the rainbow have been poured in. Tilly, Lottie, and Miriam have achieved a gay, colorful atmosphere in their room by their bright, striped, peasant curtains with matching spreads. The dresser and table are given a note of color by the gay scarfs and bowls of various hue flowers. Scatter rugs give the room the comfy, livable effect of the rooms they left behind.

There is nothing dowdy or left out in this room!! Every crook and corner has been made clastic to hold those precious possessions they so hurridly gathered up and tucked into each extra space in their trunks bound for college. Scrap books whose con-

tents could reveal incidents of the past have a new place in their room and each day a clipping, picture or trinket finds its way to this collection. Snap shot albums are another part of their (Continued on page five)

### Has GSCW a Post Office?

There are various kinds of post offices in all parts of the country ranging from a corner of the general store to grandiloquent marble buildings. They are all allegedly operated for one and the same purpose—to give people of the community in which they are a part regular and efficient service.

When GSCW students came back to the campus in the fall they were urged to rent boxes in the new post office. Most of the girls complied but a few students rented boxes in the Milledgeville post office for a few cents extra charge rather than try the new and experienced postal work of the GSCW P. O.

There are those who wish fervently that they had not done the patriotic thing—supporting the GSCW P. O.—before it was even tried.

Reasons given for this are the following:

- 1. Afternoon mail was promised but no one seems to be geting any afternoon mail.
- 2. The mob scene at 10:30 every morning is terrific, especially if one is in the middle of it and most especially if one is going in the wrong direction.
- 3. Many have complained about the P. O. being locked between the hours of 11:00 and 12:30 on Sunday. Strangely enough this included the church hour. Is there any law against one getting mail out of a box on which she is paying rent during the church hour or any other hour that she chooses to go get her mail?
- 4. For seniors, and other girls across campus, the Milledgeville P. O. is twice as convenient as the new one, however most of the girls are using the new P. O. Could we expect these girls to continue paying rent and not complaining? Shouldn't our post office be run on the same schedule as other post offices? We have adopted their procedure of renting boxes and selling stamps. Why not go

### Survey Finds **CGA Needs** Explaining

For the purpose of discussing the survey that has been carried on during the past month, Student Council met Tuesday night Nov. 5. in the CGA office. Thus far unknown to the student body, this survey has been conducted for the purpose of studying needed improvements in order to improve and better organize the government of CGA.

It was concluded from the study that the organization of CGA is too vague and needs better explanation to the student body. As a whole students know little about the governing body and are not acquainted with its leaders. It was agreed that every student should be made to realize that she is a vital part of CGA and should help to improve its organization. The solution of these and many other problems composes the program which the officers of CGA are now undertaking.

The reading of the book, Campus Activities, by Hand is recommended to the students by CGA.

A joint meeting of Student Council and Student Relations Committee will be held next Wednesday night, Nov. 12, at the Home of Dr. and Mrs. Guy Wells. An informal dinner will be served after which there will be a

### Kamp Defines Humanist in **Chapel Talk**

The humanists are trying "to interest the man of the street in art today", said Dr. H. W. Kamp, professor of Greek and Latin and chairman of the division of the humanities at Hendrix College in Conway, Ark., as he spoke before the faculty and student body in assembly Monday.

He compared the Greek and Roman world, highly unified language, literature, and art, with the highly specialized day. The humanists try to interpret human life as a whole instead of chopped up into parts or units, he declared.

Dr. Kamp was sent to GSCW by the Association of American Colleges to enliven the arts and to show that they have a place in everyday life.

Dr. Kamp addressed students on Monday during assembly, at four in the afternoon, at seven fifteen in the evening, and on Tuesday morning at eight thirty, and ten thirty.

St. Johns College has an idea so challenging that educators all over the country have taken notice. St. Johns is a quiet little college in Annapolis, Md. -- the third oldest in the United States -with a bright past history, but the present is insignificant. For over 100 years it has meant little in American education.

Colleges today give the student a hodge-podge of very indefinite ideas but his cluttered mind does not see the pillors of intellect upon which our civilization rests. At St. Johns under the guidance of Stringfellow Barr and Scott Buchanan the classics have been reinstated as the full college curriculum. ### Book on 'How to Read' Ofters Valuable Hints

By MILDRED BALLARD

Inadequacy grips the reviewer of a book like this one by Dr. Mortimer J. Adler—HOW TO READ A BOOK. From the title one might expect a sure-fire set of rules on the proper procedure of reading-tried and true methods of getting the most out of the material at hand. But this is no such short cut. Dr. Adler offers no trick formula to make reading easy, but his purpose is to help to make "hard" reading, the best reading, worthwhile,

Dr. Adler intends his book for those of us who are uneasily aware of how little we retained from all our schooling. And to facilitate understanding he divides his subject into three sections. The first part discusses reading in relation to learning and thinking, whether in school or out, while the second suggests how and what to read with hints to help us read a good book carefully. The third part, entitled "The Rest of the Readers Life" deals with the basic reasons for literacy, discusses obligations of the citizens of a democracy, and expounds the theory that free minds make free men.

Dr. Adler is convincing when he tells us that reading is a basic tool in the living of a good life. that it gives us access to stores of knowledge that it can supplement conversation, and that it can enrich the reader. Further. reading is a substantial part of the life of reason. In all these instances Dr. Adler is referring have lived and will continue to

These great books are really the most readable, and although they require the greatest ability to interpret, they are the most competent to instruct us about the subject matters with which they deal. These books reward every degree of effort and ability to the fullest extent. And. Adler points out, reading a book is a kind of conversation in which the reader has the last

To quote the author. "It is my honest belief that almost all of the great books are within the grasp of all normally intelligent

men, on the condition of course that they acquire the skill necessary for reading them and make the effort. The great books are, in some good sense of the word, 'original' communications.'

Saturday, November 9, 1940

Not only that, the author has reason to believe that those who have really read the great books will probably think soundly on - the issues we face today.

An appendix lists the great books of all time based on choices of the University of Chicago Columbia University, St. John College, and others.

Here is a book that every per son will want to own so that

### **Campus Sportations**

By ANN WATERSTON

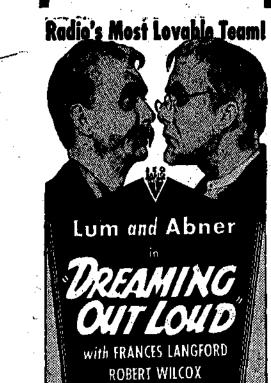

"The time's not as long as it has been," and I don't mean 'till the Thanksgiving holidays . . . It's only a week from tonight—the Folk Club BARN DANCE. The gym is literally going to be transformed into a barn with corn. hay cotton, chickens, and its rumored several domesticated animals will find their way up to the second floor.

Individual invitations will issued during the week, but in case yours happens to get lost let this be your personal invitation to come to the gym on Saturday night Nov. 16 at 7:15. There will be no admission charge. Due to the fact that this affair is for every student on and off the campus and for the aculty, it is requested that you don't bring dates. Because with 1250 girls (and we sincerely hope you'll all come) and the faculty we just can't find a suitable place to put the "dates".

During the evening the Demonstration group of the Folk Club will do several exhibition numbers. There will be three contests. The singing contest will furnish dormitory competition. The simple rules to follow are: The song must have original words but the music can be a familiar tune, costumes will count and pantomines will help a lot. A "suitable" prize will be awarded to the dormitory with the "cornyest" song.

The HOG CALLING CONTEST will be an individual affair. All WARNOCK, ELECTED who expect to enter are asked to tell Celia Craig or Elizabeth Gav before Friday night. It's not a known fact . . . but a rumor that this prize "is alive". Two girls are being selected from each dormitory for the CORN SHUCK-ING CONTEST (the Folk Club will furnish the corn Saturday. but you better get a few ears and practice up on your speed during

### **Tuberculin** X-rays Given Nov. 12-13

All students showing positive reactions to the tuberculin tests given last week and all seniors who were positive in 1938 will be x-rayed Nov. 12 and 13, according to an announcement made Monday by Dr. M. K. MacMillan-

Class absences incurred through this schedule will be excused students will report them to the hospital office.

Dr. Hires stated that until this year, all those negative to first test dose of tuberculin were given a second dose which gave a very high percentage of positives. Recent research reports on tuberculosis found in age groups of 15-25 years. Hence, this year only those over 25 were given the second dose.

Dr. Clara B. Barrett, Clinician Division of Tuberculosis Control Department of Public Health, Atlanta, gave the tuberculin tests on this campus to 441 freshmen. 381 sophomores, 144 juniors, 119 seniors, 108, NYA students, and 6 faculty members. Of these, 1038 reacted negatively while 161 reacted positively.

### Reporter Scoops Campus Finds Variety of Hobbies

By SUE LANDRUM

Do you have a hobby? Most well-rounded people have hobbies. Some are handed down or inherited as Dr. Henry Rogers' stamp collections and are very valuable -others have rather original or acquired hobbies. No matter why or what kind, everybody should have a hobby!

Dotty Richardson, of Cedartown, has a most valuable

often!

collection of cigarettes. She has some from England and a varied collection of American ones. Also no two are identical and she has been working on this collection for four years, so you see — she won't be "bumming" from her roommate for some time yet!

These little Cedartown girls have the most varied hobbies! Have you seen Beth Sheffields' collection of bugs? She has them pinned on big cardboard placards. She got her idea and enthusiasm when she was in high school studying biology and has been adding to this collection since.

Allene Shaw, Eatonton, has a mania for working crossword puzzles. Not only does she work every one she sees but she loves to sit for hours and make them up so they will work out. In her collection of two years she has approximately 150 puzzles.

A newly-acquired hobby of Sarah Alice Calhoun's is collecting new nickels with Jefferson's home on them . She has to date 36 of these.

Of all the hobbies, keeping and making scrapbooks seem to be the most popular. Elizabeth Hodges of Fairburn has had this hobby for four years and her collection increases yearly. Carolyn Smith of Culverton has been making scrap books for two years. She now has a scrap book of the Dionne quints composed of clippings and pictures since their birth up to the present time. She has a complete scrap book of Gone With the Wind clippings, details, pictures, and the world premiere. And to top all of this, she has several movie star scrap books.

Matilou Turner of Portal keeps a scrap book of all kinds of recipes and correlated with these recipes she has a valuable "starting" collection of menus. With this collection of menus, she hopes to make good use some day when she "hooks in a sucker."
