Give Thanks But Then What?

From our childhood we have come to associate the word "Thanksgiving" with joy and pleasure, with good food and being with our most dearly friends and relatives. It is the first national holiday to be truly American, to become a tradition even before we had developed the "American way of life." It is the one important day of the year that strangely seems to have escaped the great amount of commercialism that now accompanies Christmas, Easter, the Fourth of July.

Thanksgiving is the one religious holiday that has crossed the barriers of doctrine. It is celebrated as a holy day by Catholics, Jews, and a host of Protestants, as well as independents.

Year in and year out children are told how thankful they should be to go to school, to have books to read editors remind their readers to be thankful for free speech. press and democracy; pastors remind their congregations to be thankful for sound minds and bodies, for our Christian communities.

Yes, give thanks . . but then what? How marvelous it would be if everyone who stopped one day of the year for saying thank you would spend every other day of the year in showing thanks! Suppose we as a nation used the other 364 days never to let an opportunity go by to employ our free speech against the prejudices of the world; to read the great books we're thankful for, not leaving them dusty upon the library shelvts; never failing to employ our sound minds and bodies in the service of those without these. Suppose our "Christian Communities" turned their prayers for starving Europe into action and set aside part of their yards or vacant lots to grow food to be canned for other nations.

Many a mother, sister, friend spend long hours during the war at the locad Red Cross or in a victory garden because she had some one "over there." But there are still millons "over there" who need the same care and devoted service even though they do not belong to us. It's time we realized that our Thanksgiving Day should be internationalized.

Arnall's Book **Reviewed** For **Current Affairs**

"If this book is read in other sections of the country-and I think it will be, because it has good possibilities of being a best seller-it will make for better understanding among sections of our country, and help put a stop to the continual sniping back and forth between them." So said Dr. George Beiswanger in reviewing Governor Ellis Arnall's recent book, "The Shore Dimly Seem," at the Current Affairs meeting Thursday night in the "Y" Apartment.

In reviewing Governor Arnall's book, Dr. Beiswanger described it as a very significant and well written book. He stated that the thing which impressed him most about the book, was Governor Arnall's complete lack of defensive attitude which is apt to be assumed by many southerners. He said the Governor shows plainly that he knows there are a good many problems that need to be solved, but that he is also aware that these problems are not peculiarly southern problems-they may possess some scuthern aspects, but they are found in the West and even in North and Northeast as well.

The book, continued Dr. Beiswanger, is full of typical Arnall humor-witty and satirical-the kind of humor that a righteously indignant man would show. It is like the governor himselfsouthern and yet American-and he quoted John Temple Graves opinion of Arnall, "As southern as a cotton patch, and as American as an ice cream cone." In concluding the summary, Dr. Beiswanger said that Arnall does not use the words of a liberal-the book reflects verv definitely the Jeffersonian philosophy-and as Governor Arnall has said himself, Dr. Beiswanger finished, "He is a Democrat, with a small 'd'."
