They're Arguing Again

It seems as though the Pandora-like advisors to the Board of Regents must continually raise the hot-box question of changing GSCW to a coeducational institution.

We guess it must be the fault of one of the eternal surveyors who have wandered and inspected the campus for the past two years. It seems the latter, who are now recommending the boy issue were the group of educators from schools where boys play a big part in the schools. It's such a pity there were no fine supporters of a perfectly normal girls' school—another girls' school, where everyone was pretty well satisfied with getting a good education and having fun doing it.

And in regard to our "plight" here at GSCWoften spoken of in same tone of voice one might whisper cancer or polio, some few of us want to know just where any advisr could find the boys to attend our co-educatinal school—with Uncle Sam calling more and college-age men every day into the service, and the others sensing there is a draft in the air-joining up. The great University who at times has boasted of over 7000 is down to just over 4000. And they're co-ed!

Practically every college and university in the United States is on the slump—and some of these are co-ed!

Why can't we just settle down to the facts that these are the lean years. Why can't we look ahead and see that right now our grammar schools are overrun, overcrowded, and understaffed? What's going to happen when they come off to college? Will ye have fussed and fumed over the minroity problem so long-that even by these ten or twelve years-there will not be facilities to care for over-enrollment?

Most of the college generation around GSCW came here because they liked it the way it isand those of us who are seniors are pretty glad we won't be here—if and when they do make the changes

Letters To Korea See Advertisement | Page 4

Never have we been so touched and quite so thrilled as when a red, white and blue air mail letter came into our P. O. Box the other daywith "Free" written up in the corner—the sign of America's armed forces stamp.

And when we opened and read the neatly written letter headed KOREA-we just sat right down and wrote the 126th Corps that we would give them just as much space as possible in the very first issue of The Colonnade.

And what's more, we picked a name—and wrote a letter ourselves. And as The Colonnade staff, as American citizens, and as girls who know how much mail can mean to lonesome people (not even two or 300 miles from home-most of us)-we urge you to take pen in hand and write just as many of them as you can.

Investigations are being made now concerning the adoption of the 126th as our "big brothers" . . . come on kids-send 'em so much mail, those boys just won't know where to begin!

Take Out Just One Week!

The next issue of The Colonnade won't be out in time to say more before Religious Emphasis Week is already here and gone. But speaking in advance—about two weeks, to be exact, we want you to come to just as many of the sessions as

all club meetings to be banned for the time being and the YWCA was good enough to bring these high-quality speakers to our campus—then we ought to be big enough to go to the first few sessions. And if last year's programs were any samples of the quality and beauty, then nobody will ever have to ask you to go back again.

One week of our lives-taken out as a sort of personal dedication week would seem very little time when compared with how much time we spend with other trivial affairs of the dayconsidering this on the long-term basis.

Dear Cousin:

Cousin, you've just never seen so many men as have invaded our campus this fall-every type, size, and trimming from the two-and-a-half-mile convertible-lke to the "Honey, II-just-have-a-penny-'left" type. And most of them are from some branch of Uncle Sam's fighting bracket.

And you know I think they're about to spoil an ancient tradition around the campus. Blind dates and girl-break dances have been such a wonderful tradition* around here long before you and I walkded under the lights that it seems a downright shame for Jessies to abondon such good habits. Speech Dept. Head Receives Doctorate

Miss Edna West, head of the department of speech, received her doctor's degree in speech from the University of Wisconsin in August. Three other faculty members continued work toward doctorates—Miss Charlotte Mankey, head of distributive education, at New York University; J. Wilson Comer, associate professor of home economics education, at Ohio State University; and Max Noah, head of the music department, at Peabody College.

Miss West is a graduate of the Albany High School, Bessie Tift College, and Columbia University. She spent one summer in London on a Drama League Scholarship to the London School of Speech and Drama. Later, she toured the Continent.

She has also done much work in radio and at Wisconsin assisted in the University Theatre, nationally famous for its excellence of productions.
