## '54 Relive Days As Jessies **During Senior Week Activities**

By June Bray

Senior Week began with a tearful note as the Seniors reunited for the last time with their lil' sisters at a party given by the Sophs Tuesday night at Sanford. The strains of "All the World is a Stage," "How do you Do," and "Peace, Peace, Peace," echoed throughout the rec hall as the class of '54 dramatically relived their four glorious years at GSCW.

Wednesday afternoon the seniors journeyed to Lake Laurel for the annual picnic and coming back that night were hosts to the Juniors at a party at Sanford. Entertainment was furnished by a group of "modern dancers" who not only were found adept at this art but were equally fine at singing "When the Red Robin Comes Bob Bob Bobbing Along." The solemn note was again struck with the presentation of the key to Senior Hall by Sunny Jackson to 1955 Senior President, Gloria Riggins. Presents were later given to Mrs. Jennings, housemother of Sanford, and Sunny from the Seniors. Refreshments were another highlight of the evening.

Thursday, Kid's Day burst forth, and with much bursting as the rain came down in torrents, much to the chagrin of a few little black girls, bare feet, and big brown freckles. Old man weather played havoe with this much anticipated day. The Lawn Party turned into

"The reports for Gamma Nu indicated the presence of devoted leadership, inspiring a spirit of cooperation toward the accomplishment of a worth while goal. Gamma Nu is to be especially congratulated upon its activities which for the most part were of national significance in the field of business education-activities on a professional level from which not only Gamma Nu, but all other chapters as well may benefit." (From report submitted by Eta Chapter to National Council and other Chapters)."

This is the third year that the National Organization has sponsored an award plan. Last year Gamma Nu ranked second in the list of 92 chapters, and at the biennual convention at the Congress Hotel in Chicago they were again honored by having their sponsor, Miss White, elected as one of the seven national officers to serve for the period 1952-1954 as editor of the national publication, HERE AND THERE, which is issued seven times yearly. #### Fine Arts Festival Homecoming End 1953-'54 Choir Year

By Betty Churchwell

The year full of concerts, trips and other activities is slowly drawing to a close for A Cappella. It is the time to glance back and take a last peek at fun and fellowship as well as hard work.

We see first of all many quivering and hopeful prospects waiting outside Dr. Noah's studio for an audition. Next we see the chosen ones gathering in Porter auditorium for the first practice. Here is where so many laughs are shared and so many tears are shed, when the time comes to sing off music to Dr. Noah in preparation for the long trip in the Spring.

What's this? The potatoes and rolls are being passed up at the table! Hoops and petticoats line the hall? Phone calls are being made and letters are being written. This plus the act that everyone is talking about the big name band—a breakiast and the special someone who's coming down, lead me to believe one thing—the Jessies are going to have a dance. Well, to Primping Prudy this brings one more thing to mind, "what are we going to wear?"

Let's venture further and see the new things that are high fashion for this summer's formals. Bright colors will be dancing under the summer stars according to the new formal collections. That we'll be admiring the girl in the **pastel net** is an affirmed report on the new formal by leading fashion designers. But even greater will be our admiration of those wearing bright or deep hues. They tells you that it blends the excitement of acuamarine and turquoise, the ideal color this season.

Red comes up again and again, '54 being no exception. And there is more of the **blue-purple coloring**, significantly allied with red in some of the prints. These carry metallic tracings for a sharp contrast. White on white accents extends the feeling for dancing and laughing and talking or whatever the situation may be.

There are other new arrivals in summer formals. Silk rayon chiffon is a special new fabric which invites easy dancing. It looks like silk but has the advantage of being less expensive. This new silk chiffon has a great deal of crease resistance as well as the soft silk look and is available for a moderate price If you aren't lucky enough to have a gorgeous creation then I'm just filled with ideas and suggestions for a peping up that old dress. A few wise additions, a little freshening up and it's good as new. An old string of pearls no longer in use can come in handy. Just take a few and sew them around in a scattered fashion over the skirt or bodice in the same manner

you would sew on sequins or rhinestones.
