Exhibits, Displays Launch Art Week

CECILIA STEVENS

Next week, October 30 - November 5, is American Art Week. At this time, communities all over the United States will hold exhibits of varied forms of American art. The various states are rated according to their participation in this observance. The year before last, Georgia placed third; last year she placed second.

GSCW got off to an early start with an Oriental Art Exhibit, October 11-18, consisting of rare Block Prints and Illuminated Music. This year, Art Week will be followed by an exhibit of paintings, bent glass, and jewelry by GSCW alumnae. This display may be seen in the Art Gallery,

November 6-28. Much has been planned for Art Week here in Milledgeville. It will be officially launched here on campus Monday morning in chapel. Throughout the week the Student Union will feature prints of American artists; the Home Economics department will arrange flowers in Chapel and Parks buildings; in Arts there will be class-room work of the GSCW zabeths', pottery, china, and glass World-My Life-Now." from the Bone Brick Yard.

Charter Day Held Here, November 7

Ruth Jerkins

The actual date of Charter Day is November 8, but GSCW is observing Charter Day this year on November 7.

Dr. Stanford will speak on the history of our school and will give some very interesting remarks on things that took place when the school first opened its doors to the girls of Georgia and the surrounding states.

Several people who have figured very prominently in the school have been invited to be platform guests for this program on Charter Day. Among those to be invited are Mrs. R. E. Hines, who graduated in the class of 1906, and also taught here for several years, Mrs. Alice Napier, who taught in our school, Mrs. Nan Barksdale Miller, class of 1894, and Mrs. Beeson, the wife of the third president of GSCW.

Another important and very interesting feature of Charter Day will be the planting of the "Kate Thrash Camellia" on the Mansion lawn later in the afternoon. Mrs. W. T. Roughton of Thomasville, Ga., who has the patent on this flower has been invited to be a guest on this day.

The Colonnade Staff members and their advisor, Dr. Edward Dawson, were privileged to have has plans for the organization of as their guest speaker. Mr. Jere Moore, publisher and editor of bles, one of these being a faculty the Union Recorder, at an informal supper on Friday night, October 21, at the Colonnade Office.

Mr. Moore rendered a most inspiring and action-stirring talk on "How to Produce a Good Newspaper." According to Mr. Moore, a good reporter has a "nose for news," and a ready eagerness to pass these findings on to the newspaper reading public. His definition of headlines is that they must be interesting and striking to enable the reader to venture into the contents eof the article. Another interesting point given by Mr. Moore was the fact that a club report must not ever be presented in the form of minutes, but, rather, centered around some highlight or special feature of the program. Mr. Moore stressed that a local newspaper should deal only with local happenings and events rather than to attempt such broad events as world affairs or material foreign to a given locality.

Mr. Moore is a renowned citizen of Milledgeville and has proven to be a very responsible person in his profession. At the present, Mr. Moore serves as editor and publisher of the Union Recorder, the rett, and Jane Tarpley. oldest weekly newspaper and the second oldest newspaper in the state of Georgia. Band Increase Cited For Future

Five thousand dollars worth of new band instruments have been added to the GSCW music department. Dr. Noah, director of the music department, says "GSCW hopes to have a band on par with the best bands in a school of her size in the near future,"

The list of instruments is impressive, and their prices are equally striking. The oboe, made by F. Loree in Paris, is the most expensive of the instruments, costing almost \$700. The set of timpani represents \$580, and the Olds Special Cornet \$169. Other instruments include: an Evette -Schaefer Clarinet, Buffet alto saxophone, WFL concert bass drum, and a host of others. However, these instruments plus the old ones represent a minimum for a concert band, and next year. others will be added.

The instruments are not the only important part of the band, however. Many new musicians are needed. There are forty band members now, but ten of them are GMC boys. The band needs more interested girls of almost any degree of proficiency.

Mr. Arnot, the band director, several small instrumental ensemensemble.

Freshmen Choose **Slate Of Nominees**

By Bernice Strickland

The nominees for the Freshman Class have been made. They will be introduced in Chapel Monday morning, October 31. On the following Tuesday, the freshman will cast their votes for the nominees of their choice.

The nominees for president are Lynnette Ard, and Cynthia Cunningham.

Running for Vice-president are Daisy Hammett, Mary Jo Claxton, Nellie Ann Chandler, Lee Almand, and Nancy Pink.

Nominees for secretary are Jackie Skinner, Zoann Burns, and Shelma Overstreet.

Those nominated for treasurer are Carolyn Williams, Nedra Gar-

The Tie That Binds

The spirit of "rat day" prevailed and each lowly rat did henceforth and forever more vehemently, avidly, and vaingloriously promulgate themselves to be a most honourable, respectable, just, proud and true rat of royalty; pledging unsevered fidelity, allegiance, and fraternity to the renowned and laudable order of the mighty Irish.

This traditional day at Jessie initiated the Frosh into the royal Irish order of their sister class, the Juniors, as well as into the whole Jessie family.

The Frosh are to be hailed for their fine spirit and sportsmanship through the day and "rat court". The fun and deeds of this unforgettable day will be a strong, uniting force between these two classes.

The Eye Sees

I cartainly am sorry to see that over the summer many of us have forgotten some of the rules of common courtesy and good taste. For the past few days I've been looking around and I've really got an eye full of students reading and writing in chapel, taking food from the dining hall, yelling out the dormitory windows, and cutting across the grass. I even overheard two "upperclassmen" read the "Keep Off The Grass" sign and say, "Let's pretend we're cows and cut across." I'm glad we den't have 500 cows on campus, or I'm afraid we would have a path across our grass. I'll be seeing YOU!

Scholarship Funds Bring Tini Home

It was last winter quarter. We were writing term papers-Tini and I, sitting at the same table in the library and laboriously taking notes. Suddenly, we stopped and began talking to each other. It was then that I first knew her-first began to appreciate this modest Indonesian girl, who has

such a vast knowledge of languages, such a vivid personality, and such pleasing social graces. Yes, I had seen her around campus before, but had never realized how much we could learn from her, how much her presence was enriching our GSCW.

Perhaps, on Saturday night at the Scholarship Ball, my words will come alive for youyou, too, will experience my feelings, as you become a student of the world, engaged in a mutual sharing of experience with fellow students. STOKES

from all over the globe. The theme of this whole dance is centered around one small, yet powerful word, "sharing". Committees spend hours preparing for it, faculty and faculty wives bake cakes, the foreign students provide the entertainment, and students make individual contributions at the door.

Perhaps, then too, you will be reminded of another of our grand opportunities on campus, the "Y" Book Store. You will appreciate more fully the privilege it, as well as the Scholarship Ball, grants you—the privilege of having a share in bringing a student like Tini to our campus.

Our honor system, but is it really ours?

An honor code, such as ours, cannot really belong to us unless we make it our own. How can this be done? We can begin by understanding the code from front to back, through and made available through the through. After we understand, comes a still harder task—we scholarships granted and financed must live with it and make it an integral part of our lives. Then, by the association. 'Spotlight'

September, the Freshmen have been fortunate in having someone in whom they could reply upon for good advice and guidance. In ways far too numerous to mention, the Junior Advisors have proved themselves to be absolute necessities in the Freshmen dorms. They have served as doctors, "lonely hearts" counselors. information bureaus, and teachers. You name it—they've done it and well too!

Yes, all Freshman will agree-"The Junior Advisors have been just great!"

Other very important people on campus are the house mothers. They really keep us in line, but just think what Jessie would be like without them.

To those persons responsible for bringing the Modern Dance recital to GSCW goes sincere thanks and appreciation from the students and faculty.

The spotlight turns this week to all Junior Advisors and housemothers and especially Dr. and Mrs. Beiswanger with special brightness.

"Whistle Stops At GSCW"

Something is missing here. The whistle that has loudly-too-loudly-beckoned Jessies to meals is no more. If you ever had the misfortune to be in close vicinity of the whistle at the time the blowing began, you were aware of the painful sensation caused by your protesing eardrums. A factory whistle is hardly in keeping with the setting and tradidions of a woman's college. We do not need a penetrating shriek to be heard over the din of machines. Although we are not exceptionally quiet, we are not that noisy! A few of us miss the warning noise and have arrived late for meals.

Some of the town people miss this sure method of setting their watches. The majority of those journed. who have lived under the whistle are not complaining about its absence. We need a more pleasant but sufficiently arousing signal for meal time. Here is a good project for some student with imagination and ingenuity.
