One of the very, very few things that you could get most anyone to agree on with no hesitations is the value of "time." Yet, this time that everyone treasures is often abused. Some seem to have all the time in the world and others never have enough.

Many little gems of wisdom have been quoted about the wise use of one's time, but quoting these goodies doesn't help much does it? It all goes back to planning your activities and not crowding too much into any given period of time, and most of all that habit of "putting off until tomorrow". Why bring this well-worn subject up right now?

Well, with mid-quarter reports just around the corner, and Golden Slipper not too far in the future (about five weeks) right now would be the perefct opportunity to get things on schedule. begin getting those notes for term papers organized, and getting books featured in the competent reviews, the pared thoroughly in advance. most significant facets of life at the Woman's College. In a close community such as ours it is necessary that each person should have the personal integrity to accept responsibility for her conduct as well as that of her colleagues. The system can succeed only so long as each individual strives for the highest good, for each person is the Honor System.

\*October 21, 1961

A small group first conceived the idea of an Honor System for this campus in 1939. From that time it has grown until it now permeates all phases of campus life. Most important, the girls' lives are affected long after they have graduated. For the system is a developmental experience, building selfconfidence, encouraging respect for the opinions of others, and promoting integrity in all things.

Succeeding classes have made their contributions but the system is still far short of perfection. What will the present classes have to write into this book of honor? Let us hope it will be worth reading. Each person is a pen and her actions inevitably write what she believes. The system progresses as slowly or as rapidly as each individual grows in integrity.

The 1955-56 Honor Council created the Honor Shield, emphasizing the basic ideals of the code.
