If you think you're seeing more Marlboro men lately, you're right. More than 25,000 smokers all over the country are switching to Marlboro every month!

You'll know why when you try them.

Marlboro is the filter cigarette with the unfiltered taste. The secret of the flavor is the famous Marlboro recipe from Richmond, Virginia...and the pure white Selectrate filter that goes with it.

Try Marlboro and judge for yourself. On or off campus, you get a lot to like.

At Least We're Safe

by Josephine King

I really can't get very upset about all these prowlers we're supposed to have. To be sure, there may be a scare once in a while, but I am inclined to think it's mostly wishful thinking. Anyway, administration is determined to protect us from being raped on the sidewalk in front of Sanford or in that 45 degree bank of bushes next to the Y apartment (altho that would be a little inconvenient).

So they have removed some of the rose bushes around Dr. Morgan's, and the plantings in front of Beeson. And they have bulldozed the back of Beeson, ripping out dozens of bushes and flowers — and the two handsome cedars that had long graced the building corners.

It looks hideous. But cheer up, girls they're going to provide for aesthetic pleasure—

they plan to plant crabgrass in the bare spots or should I say the bare acres. There's just nothing lovelier than good old crabgrass creeping up around the base of a bare building, is there? And they may in the future move all the flowers to a greenhouse in Nesbitt, so we can all trot over and peep at them wistfully.

But I wonder if our kind benefactors have been thorough enough . . . there is still a large spreading mint bed (at present) near Beeson, into which someone might slither some night and grab the nearest passing ankle. And there are some pencil-thin saplings left that could provide cover for who knows what sort of carryings-on. But probably they, too, will be gone when I look out next.

So just forget the beauty that's past, girls; we've got protection.

Poll: What Can We Do To Make This Christmas More Meaningful?

by Jeanette Neeil BETTY SCROGGS-We should more meaningful. not think of what we want Santa to bring us. Merry Christmas seems to be attractive and modern these days. We might have a merrier Christmas if we made a little elbow room for Christ. Remember he was born on Christmas day. The innkeeper couldn't make room for him to be born in before Thanksgiving. an inn, can we make room for him to be born in our hearts? If

Christmas is too commercialized. SUSAN CARAWAY --- Stop putting up Christmas Decorations

PHYLLIS KELLY -- I enjoy the programs which are presented for Christmas but I believe the true spirit of Christmas should come from within the individual.

CHARLOTTE THAMES — Put Jesus back into it; it has become much too commercialized; think more of making others happy than of getting what we want,

SANDRA McCALL—We should concentrate more on the spiritual meaning of Christmas and less on the material "give - and - take". I think our annual White Christmas and Carol Singings do much to help find the true meaning of the season for the Woman's College students.

APRIL BRUNSON - Christmas is too commercialized. If more emphasis could be placed on the real meaning of Christmas, the real spirit of Christmas, then people could get to know and experience a real Christmas.

GRACE MOSLE - I think we should pause from our work and everyday problems to think about the true meaning of Christmas. We should think more about making people happy spiritually rather than material giving.

PATSY JONES — I believe the true spirit of Christmas should come from within the individual. ANNETTE ROLAND - Not have exams.

that of including the "what" and "how" of Golden Slipper judging in the college handbook. Then someone suggested having a special handbook on Golden Slipper to include such items as procedures and judging.

The last topic of discussion for this meeting was concerned with the reading of telegrams on Slipper nights. One suggestion was to post telegrams on a bulletin board. Some felt that the reading run, she somehow finds time to school' and that using a microphone would aid in the reading.

To initiate the business of the November 27 meeting, Lois Ficker, secretary of scholarship, reminded floor leaders to give particular attention to keeping the halls quiet during Dead Week and on Study Day.

In continuation of discussion on Golden Slipper, one student expressed the idea that some measure should be taken to prevent the productions from becoming so large as to precipitate an abolition, of Golden Slipper. An opposing opinion was that the productions should not be restricted because of the good publicity for The Woman's College and because of the student's pride in the Slipper presentations.

The final area of discussion on Golden Slipper was the effect that Slipper has on the students academic work. The point was brought out that some students whose scholarships were dependent upon good academic ratings received pressure to actively participate in Slipper.

Remember to help promote quietness in the dormitories during the coming days and may all your conscientious studying yield its dividends during final exami-
