

DNP Translational Research and Clinical Project Final Approval Form

Project Title: Evaluation of Human Trafficking Education Module **Defense Attempt** #1

Candidate Name Casey Elliott **Chair** Josie Doss **Date**
3/23

The candidate addresses each Translational Research and Clinical component:	Approved	Approved with the following recommendations	Not Approved	Comments
Background information demonstrates the focused need or problem.	jld			Background information supports the project.
Literature review supports significance / relevance of problem / proposed project / intervention	jld			Literature review is complete and supports the need for the project as well as implementation and evaluation.
Need, feasibility and significance are clearly presented	jld			
Problem/purpose clearly described	jld			
Scope of project realistic and appropriate	jld			Scope of the project is realistic.
Framework (theoretical/conceptual/practice) is described/evident and applicable	jld			Adequately addressed.
Other:	jld			
Literature, benchmarks and supporting data provided and organized into integrated synthesized summary	jld			
Project objectives stated in feasible and measurable terms	jld			Objectives are clearly stated and measurable.

Congruence of organizations' strategic plan to project is described	jld			
Other:	jld			
Appropriate for objectives	jld			
Clear rationale for actions/method	jld			Rationale are clear and supported
Setting and group clearly described	jld			Setting and sample were clearly identified.
Implementation methods/tools are feasible and clearly described	jld			
Resources/supports and risks/threats and benefits noted	jld			
Time line is clearly described and feasible	jld			Time line was feasible and appropriate. Deadlines were met.
Evaluation plan is coherent / consistent with project plan	jld			
Evaluation measures linked to objectives	jld			Evaluation was linked to objectives
Outcomes / evidence-based measures appropriate for objectives	jld			
Tools / instruments described and linked to measures and objectives	jld			Instruments clearly described
Method of analysis clearly described for each measurement.	jld			
Results organized in appropriate format.	jld			Results were clearly presented and linked to the problem statement and research questions.
Results linked to problem statement.	jld			
Described the extent to which the objectives were achieved.	jld			
Addressed key	jld			

facilitators and barriers that impacted the project's objectives.				
Described unintended consequences) both positive and negative.	jld			
Recommendations/Implications addressed for problem statement, supporting organization, key stakeholders, other settings, and student.	jld			Recommendations for continued research
Included recommendations related to Identified facilitators/barriers and unintended consequences.	jld			
Addressed any ongoing activities or evaluations outside the scope of the DNP Translational Research and Clinical Project.	jld			
Recommendations are described within the framework of the organizations' strategic plan.	jld			
Contribution to Personal Goals in advance practice nursing.	jld			
APA format followed appropriately; writing is scholarly and clear; appropriate for doctoral level education.	jld			APA format followed in written paper.
Candidate articulates response to program/clinical questions arising from this project.	jld			
Extent to which candidate met	jld			Met goals and aims of the project to a high extent.

goals/aims of project. If not, appropriate rationale and explanation provided.				
Extent to which candidate integrated scientific curiosity and inquiry in project completion.	jld			Met to a high extent.
Extent to which candidate analyzed issues and provided critique of advanced nursing practice within the project.	jld			Met to a high extent.
Extend to which candidate demonstrated practice inquiry skills including appraising and translating evidence.	jld			Met to a high extent.
Evidence of candidate's ability to engage in collaborative partnership(s) in designing and implementing Translational Research and Clinical project.	jld			Met to a high extent.
Ability of candidate to articulate state of current knowledge as it relates to advanced practice nursing in the health care system.	jld			Met to a high extent.

Overall Evaluation of the Translational Research and Clinical Project Presentation

Approved

Summary Comments: Casey has done an excellent job and has been a pleasure to work with. I hope that she will continue working in this area of research and to address issues that impact human trafficking.

Conditional Approved
