

DNP Translational Research and Clinical Project Final Approval Form

Project Title: Implementing an Evidence-Based Preceptor Program to Improve the Orientation Process

Defense Attempt #1

Candidate Name: Emily Nobles **Chair:** Dr. Deborah MacMillan **Date:** 3/29/2022

The candidate addresses each Translational Research and Clinical component:	Approved	Approved with the following recommendations	Not Approved	Comments
Background information demonstrates the focused need or problem.	x			
Literature review supports significance / relevance of problem / proposed project / intervention	x			
Need, feasibility and significance are clearly presented	x			
Problem/purpose clearly described	x			
Scope of project realistic and appropriate	x			
Framework (theoretical/conceptual/ practice) is described/evident and applicable	x			
Other:				
Literature, benchmarks and supporting data provided and organized into integrated synthesized summary	x			
Project objectives stated in feasible and measurable terms	x			

Congruence of organizations' strategic plan to project is described	X			
Other:				
Appropriate for objectives	X			
Clear rationale for actions/method	X			
Setting and group clearly described	X			
Implementation methods/tools are feasible and clearly described	X			
Resources/supports and risks/threats and benefits noted	X			
Time line is clearly described and feasible	X			
Evaluation plan is coherent / consistent with project plan	X			
Evaluation measures linked to objectives	X			
Outcomes / evidence-based measures appropriate for objectives	X			
Tools / instruments described and linked to measures and objectives	X			
Method of analysis clearly described for each measurement.	X			
Results organized in appropriate format.	X			
Results linked to problem statement.	X			
Described the extent to which the objectives were achieved.	X			
Addressed key facilitators and barriers that impacted the project's objectives.	X			

Described unintended consequences) both positive and negative.	x			
Recommendations/Implications addressed for problem statement, supporting organization, key stakeholders, other settings, and student.	x			
Included recommendations related to Identified facilitators/barriers and unintended consequences.	x			
Addressed any ongoing activities or evaluations outside the scope of the DNP Translational Research and Clinical Project.	x			
Recommendations are described within the framework of the organizations' strategic plan.	x			
Contribution to Personal Goals in advance practice nursing.	x			
APA format followed appropriately; writing is scholarly and clear; appropriate for doctoral level education.	x			
Candidate articulates response to program/clinical questions arising from this project.	x			
Extent to which candidate met goals/aims of project. If not, appropriate rationale and	x			

explanation provided.				
Extent to which candidate integrated scientific curiosity and inquiry in project completion.	x			
Extent to which candidate analyzed issues and provided critique of advanced nursing practice within the project.	x			
Extend to which candidate demonstrated practice inquiry skills including appraising and translating evidence.	x			
Evidence of candidate's ability to engage in collaborative partnership(s) in designing and implementing Translational Research and Clinical project.	x			
Ability of candidate to articulate state of current knowledge as it relates to advanced practice nursing in the health care system.	x			

Overall Evaluation of the Translational Research and Clinical Project Presentation

Approved
 Summary Comments: Excellent Project. No revisions required.

Conditional Approved
 Required revisions:

Not Approved
