Dr. SCOTT SPEAKS TO STUDENT BODY

FATHER OF

Dr. R. H. Scott, an eminent physician, educator, author and editor, was named to the G. C. W. S. Student Body in the State of Nov. 4th.

Dr. Scott is the father of Prof. R. H. Scott, Dean of the Teachers College at the University of Florida, who is a fighter for better education and a foe of those who would undermine the advancement of the race.

Dr. Scott has been a fighter for the advancement of the race for many years. He is a fighter for better education and a foe of those who would undermine the advancement of the race.

The plan has also been brought before the League of Nations at Amsterdam, where it is hoped that this year's budget plan will have its birthplace.

Once before, in 1914, the plan was made public, but it was not successful. The plan is now being published in the Daily News, where it is expected that the public will take notice of it and that it will be successful.

True, the child may be too young to know the possibilities in his affections. At the years go by he will make new friends, and a book that has meant so much to him will never forget those that have been read to him.
