LOCAL ORGANIZATION

STRENGTH IN SOUTH

Seven Departments in Association
TEN EXECUTIVES

Organizations of the Campus Association.
Our "Y" does not function by chance. No such vital, threshing and sifting function without a definite plan to work upon or definite people to perform the tasks. It was the plan of the "Y" that is doing it, but not let's see on the issue. It is a man's chance to be a leader being the leader to do the work and then to know what he is about. Leader is doing or has to do. Perhaps we've just didn't take him for granted and watch them, toler- ance and more co-operation.

This is a truly student organization and every student has an opportunity to share in the success of the course. Officers elected are President, secretary, undergraduate representative and seven other members.

The idea of the student association is to make its students the leader at the university.

While it is not our organization we are young and need that steady hand and farseeing vision of our elders. To serve in this valuable capacity we have what is known as fair play for all. We have in every student association that our students are the leaders of the campus.

T. W. C. A. Department.
The Religious Department of the T. W. C. A. plans for our religious life. This department is a part of our body of work, and is really a part of our college and college life, and aims to make our religious life boy similar to the one we enjoy at home.

2. Finance Department.
The T. W. C. A. cannot be run without financial aid from the girls themselves. It is run, after all, by the girls for the girls, and the girls have to help.

BLUE RIDGE

"My goodness, Mary, you certainly seem to be in high spirits today! Why this rosy outburst of happiness?"

"Oh, Sam, haven't you heard the good news? I am going to Blue Ridge this summer, and I want you to come too!"

"Do calm yourself long enough to tell me something as I may know what it all is about."

"Well, Blue Ridge is situated in the mountains of North Carolina not far from Asheville. They say there you can see nothing but one mountain after another, and this kind of being close to the sky! Ever seen, some people from all over the South go up to attend conferences. The one to which I am planning to go is the Y. W. C. A. conference the first of June. About five hundred girls from ten northern states will be there to share with us our experiences, and perhaps we can give something to them. There will be noted preachers, teachers, specialists, and foreign students to talk with us and to us. Of course, the meeting will be filled with meetings of various kinds, such as discussion groups, personal interviews, and lectures. The outdoors will be open to everyone, who, we hope, will enjoy as much as we have."

"But I am forgetting so many things. Can you imagine anybody getting up at three o'clock in the morning? They often do it at Blue Ridge—crows of boys and girls will clamber over the mountain, and reach the top just as the sun comes up. Wouldn't that be fun? In the afternoon; just as the sun is setting behind the mountains everybody gather on the steps of Robert E. Lee Hall to watch the day fade into twilight and sing all types of songs."

There are so many more things I would like to tell you, but just come along with me and see for yourself."

This summer I am too busy to come, can't you go too? I wish you would."
