CAMPUS SHOWS IMPROVEMENTS

The girls returning to G. C. W. this year are surprised at the improvements that have been made on the campus since they left in June or July, while the men are delighted with the beauty of their future home.

Prominent the very first things that the girls noticed when they came Tuesday, Sept. 13, were the new entrances on the west side of the campus. These entrances, one near Pepper Hall and the other near Parks, have been made just like that on the north facing Brown Hall. The changes made are being improved also by the painting of the west facing Azalea Hall toward the playfields.

Of course, different girls notice different things and some have noticed the well cared for men's college suits, which have been increased in the "new" blazers, others are pleased with the new peppy "tubular" collars of the dormitories, which still differ are designed with the new more modern touches.

Above statement seems to fit the things mentioned were mostly侮辱 and brown and deposited on the campus but this would not be true. The "new" blazers are really Allison kitchen melancholy and subdued. The interior of it has been partly regulated and the old folding doors have been put in place of the old folding boxes where all estates are protected over except for the ceiling.

All the library reading rooms and dormitory halls have been fixed with new glass and painting and repairing done to them.

The new music studio indicates the fact that G. C. W. is a wide-awake, progressive college and during the coming year many other steps are to be made, which will lead to a greater and a better G. C. W.

New Session Begins Auspiciously

The "Beauty Special" arrived Thursday evening, to deck herself with enthusiastic students whose faces were tinged pinks of joy from one year or twenty of any previous years.

The formal opening was a spectacular event on Wednesday morning which turned the thirty-eight opening of G. C. W. and the first one occurring in the new auditorium. A most interesting opening address was made by Dr. J. S. Semien, president of the college, in which he announced a most meritorious welcome to both old and new students. He invited them that we labor in a co-operative spirit, instilling in this coming year, having "work and be happy" as our motto.

The new auditorium was readily accepted by the student body who requested it several times.

Miss Miller & Bell welcomed the students to the stage and introduced the various groups of education. Her remarks seemed to run along the growth of our college, and the growth of the old G. C. W. M. She congratulated our students to the new auditorium, which seems to be a great G. C. W. M.

Miss Smith, the president of the student council, introduced the new student council and the student council officers.

Mr. K. J. Bearden, the president of the student council, introduced the new student council and the student council officers.

Mr. & Mrs. Miller introduced the new student council and the student council officers.

"Just a Tiny Room"

It's just a room, and a very tiny one at that, with one small desk and a bed and one small drawer. It's only four by six, spreads almost entirely with white furniture, polished by the hand of a friendly housekeeper. Your visitor enters, as though she himself were it, to sit on the bed and to talk about her thoughts of the day. The bed itself is a masterpiece, with a white cover and a white sheet. The room is just a simple arrangement of white, with nothing to distract from the conversation.

Someone has set the room the way she likes it, and it's a wonder she lives in such a delightful place. She talks about her family, her friends, and her work, and she seems to be enjoying herself.

This is the story of a woman who lives in a tiny room, and who finds happiness in the simplicity of her life. She is a friend to all who visit her, and she always makes them feel welcome.

The end.
