MRS. WOOTEN HAS ARTICLE IN N.E.A. JOURNAL

G. S. C. W. Professor Writes on "Grown of Physical Fitness"

Mrs. Kathleen Wooten Wooten, professor of health on the G. S. C. W. campus has in the October number of the National Education Association journal an article published as "Grown of Physical Fitness."

Wooten has been in the field of health education. She is author of the text book, "A Normal Education Program," which has been highly praised by many health educators.

Mrs. Wooten has been Professor of Health at G. S. C. W. since 1917 and during that time has been principal of the college until just prior to her present task for students in major in health in the article published in the N. E. A. Journal. Mrs. Wooten concludes the tired, worn, out, physically worn-out students are the school system. She recommended that teachers be selected for the fact that they are "real, red-blooded, live human beings, men and women—men who have ideologies, minds, spirit, emotions, and social relationships are equally sound."

Mrs. Wooten emphasized apparent physical knowledge, and gave the following helpful suggestions to those following the teaching profession, even though it may apply to all human beings:

"The first problem for the person who wishes to reorganize himself is to see that he is the best man he can be a most positive manner. Take honest thought for yourself every day as if it has been. Pray that you are having your work up to the right mark, just as you are in your private life. Listen to your spoken words. They reflect all through yourself. If it is in high pitch without meaning, say the same thing by using your body language."

"The scripture is read by Wooton. Following this reading, the audience, choosing the audience to a very beautiful and impressive one: The theme was essentially depicted in the class colors, red and black. Another theme which was prominently featured was that the class marched on the stage behind their leader, Dr. Donson and Dr. Wooton, indicating that shall be in these five infants teachers:"

"The scriptural text was read by Wooten. Following this reading, the audience chose the theme to a very beautiful and impressive one:"

Mrs. Wooton was a most impressive sight, and gave the following helpful suggestions to those following the teaching profession, even though it may apply to all human beings:

"The first problem for the person who wishes to reorganize himself is to see that he is the best man he can be a most positive manner. Take honest thought for yourself every day as if it has been. Pray that you are having your work up to the right mark, just as you are in your private life. Listen to your spoken words. They reflect all through yourself. Funeral Ode

Muriel McGeary

Who knew that love is the key.
And who knew that love is the key.
Oh, how lovely love is the key.
Oh, how lovely love is the key.

Some Contributions Made By The Georgia State College For Women To Education

In the establishment of the Georgia State College for Women, the women of this state have been given a chance to better themselves. This chance has been offered to them in the form of a college. The college is intended to be a school for women and not for men. It is intended to be a school where women can learn to think for themselves, to be independent, and to work for their own advancement. The college is open to all women who are at least 18 years old and who are interested in learning. The college offers a variety of courses, including business, art, music, and science. The college is proud of its history and its contributions to education.

DON’T MIND THE RAINFOREST!

It was a fine day, but a heavy cloud was hanging over the campus. The students were all hurrying to class, trying to avoid getting wet. The rain was pouring down, and the wind was howling. It was a perfect day for a stroll through the rain-soaked campus. The students were all laughing and joking, trying to stay dry. It was a great day to be a student at Georgia State College for Women.

How The Introduction of Fire Brakes at G.S.C. Affects The Student

The introduction of fire brakes at Georgia State College for Women has had a tremendous impact on the campus. It has made the campus safer and more secure. The students are no longer afraid of fires, and they feel much safer. The administration has also seen a marked decrease in the number of fires on campus. The students are now able to enjoy their time on campus without fear of fire.

DANCING IN THE STREET!

It was a great day to be a student at Georgia State College for Women. The weather was perfect, and the campus was alive with activity. The students were all out and about, enjoying the beautiful day. It was a great day to be alive.

EXCHANGE

School News

JUNE 27 was the last day for the students of the Georgia State College for Women. The students were all very sad and happy to be leaving. The administration was very proud of the students and the work they had done. The students were all very excited to be moving on to the next phase of their lives. The administration was very proud of the students and the work they had done. The students were all very excited to be moving on to the next phase of their lives.

THE STAG

The stag was the symbol of the Georgia State College for Women. It was a beautiful animal, and it was a perfect symbol for the school. The students loved the stag, and it was a part of their identity.

When the time came for the stag to be taken down, the students were all very sad. They knew that it was a part of their history, and they didn’t want to lose it. The administration was very proud of the students and the work they had done. The students were all very excited to be moving on to the next phase of their lives.
