We will all use the resources of this novel campaign to help us understand and use the food in the hands of the health and social worker.

Student Activities

In a former edition of this paper we emphasized the fact that the students at W&L are doing marvelous work of the type which public schools should encourage. It is not only due to our own little group of students who are doing the work, but it is due to the fact that public schools are doing the work. We believe that this is the way to make public schools do the work.
