Alumnae Banquet

On November the twenty-fifth, at eight fifteen o'clock in the Baldwin Hotel, the Junior class Alumnae banquet will be held. At this time the Junior class will arrive and meet the girls who have returned to the campus.

The banquet will be given by Dr. J. E. Beeson, by Miss Collins Beeton, and her members of the class and in Mrs. J. E. Beeton by Miss Ethel Criffield, secretary of the class. The guests will be sung, followed by a toast to the college, by Miss Caroline Olliff and a toast to the Junior class by Miss Moore, who will bring forth many of her old classmates.

To you former class mates we would add—

Welcome back, all alumnae, to your college home. We think of you with great pleasure in the mighty days.

Thanksgiving

Every body knows that the last Thanksgiving Day was a national holiday, Thanksgiving being a day of thanksgiving. The idea of the day is to show appreciation for all the good things we have in our lives, such as family, friends, and good food. It is a day to remember those who have helped us and to express gratitude for the blessings we have.

Believe it or not, the idea of Appreciation Week was first introduced to the girls at Druid High School, on November 1st, by the principal himself. The idea was to honor the teachers and faculty for their hard work and dedication. The girls were encouraged to show their appreciation in various ways, such as writing letters to their teachers, giving them small gifts, or simply saying thank you.

The week was filled with activities, including a special assembly on Tuesday, where the principal introduced the idea. The girls were also encouraged to participate in the activities, such as making decorations, writing poems, and creating videos to express their appreciation. The week ended with a special assembly on Friday, where the principal recognized the girls for their hard work and dedication.

In summary, Appreciation Week was a wonderful opportunity for the girls to show their appreciation to their teachers and faculty. It was a time for everyone to come together and celebrate the hard work and dedication of our educators.

Thanksgiving

No theme would be more appropriate for the topic of that Thanksgiving Day and its significance, and other topics of the ages are in which it is celebrated, I wonder if we have caught the real significance of the occasion. We too often forget what has been rather than what is and what will be, We fail to see our responsibility to the present and especially to the future. We accept the gifts from the past without realizing that we have an obligation, to pass them on not only unimpaired but improved in our generations to future generations. What I have in mind is simply this: that we may more seriously the fact that we forget the present and our duties to carry on. I wonder what would happen, if the hostile and hostilities of civilization were not adequate for religion. My meditations have led me to the following conclusions of myself: I am thankful—

because of health and longevity to survive.

because I live in an age of great possibility, for service.

because I am creative, though I can advance my own.

because I can see the acquisitions of my consciousness, my spirit and my mind, and can strive to remedy them.

because science and invention have lifted me to a place never before realized by man.

because mind is punishable in the world in the mind but individual only in its own person.

because this is the best age for me.

because there is a God, who directs the destinies of man.

because "I am master of my fate—
I am captain of my soul"—
These are my Thanksgiving thoughts, what are yours?
