The Y. W. C. A. Budget Goes Over The Top

FUND RAISED IN TWELVE HOURS

Faculty and Students Contribute Generously to Fund to Carry on Y Work on Campus

The goal of the Y. W. C. A. budget of two thousand dollars was exceeded on the campus within twelve hours, eight of which were lost in sleep by the students on October 2 and 3. Of the total amount three hundred and forty dollars was contributed by the faculty and eighty-eight dollars by the students. The student executive and advisory board of the Y. W. C. A. could state very safely that not only from the viewpoint of the organization, but also from that of the college, Turnham Hall leads with the largest contribution in the Y budget. Allinson Hall enjoys the distinction of having each student contributing to the budget. The finance campaign was opened on Tuesday morning at Chapel. Ruby O. C. Woodhead, chairwoman, had all to wonder whether or not the support to the Y is the very best possible, not only in energy and ability but also in money we give. The exhibit approved the fact that the money was raised by the students in each co-operative manner.

For The Alumna

THE LINK BETWEEN THE ALUMNIST AND STUDENT

Do you remember...

Of all the class of 1985's... we have to admit that some of us are still "students". We have been growing up, maturing, and becoming more responsible for our actions. Although we may still be attending classes and participating in extracurricular activities, we are no longer considered "students" in the traditional sense.

Some of us are now married and have children, while others are still single. Regardless, we have come together to celebrate our reunion and share memories of our time at college. The class of 1985 has grown and changed, but the bond between us remains the same.

I NOW OVERCAME MY HOME-SICKNESS

Before I came to college homedissease won out over my weakness. People were always warning me against it. I read in the "sick" column in the paper. I got to know people why I simply could not do it. I did not know that would be the end of school and at the beginning, I was in the hospital. I arrived in McPherson, Kansas, and my appetites were weaker and I was all worn out. When things came to a peak and I discovered that I had a terrible case of that disease which will be treated as a cause, I was happy. I had no more trouble after that. I could eat a large meal and not feel bad. I was discharged with myself and a had to find a remedy.

It seemed as if the little as possible. That helped greatly. I began studying my health. I took my meals, every meal and made meals of things. Then I was allowed to do as I desired. I now get a fit of colds coming. I either go visiting or get a good book and read. It has proven to be a most satisfactory remedy.
