One of the recent contributions to the Georgia Historical Museum is "The Catalogue of the Thalian University," published in 1858. The catalogue gives a list of all the books in the library. Originally from its foundation in 1853 to 1858, it also names the faculty and students. Rev. S. T. Calhoun, Bd. The college is greatly indebted to Miss McIver for this contribution.

Another contribution is a volume entitled "Governesses in Texas." It is now in the possession of the Historical Museum.

Men & Aries

Men are what women marry. They have two feet, two hands and two eyes. You can neither eat one nor sit on one. A man can only see what he wants to see. Women are what men marry. Dear Kiddies:

This morning when I awoke quite early I thought I had to the first one to look out the window, it was a beautiful sunrise. I heard a thrush singing. I looked up and thought that I could see the whole sun rise. It was truly a beautiful sight.

But I am getting off the track. I heard the whistle of school cars and three more kiddies walked around the corner of the corner of Park Mall. They were grinning, as the morning sun came up. As soon as they passed me they pulled out for me to see them, but as I usually stand on my hands, I decided I'd better not try it as it was almost time for school.

As I went round by the tennis courts I saw that they were all full. It is the only way every morning for long time. Every morning before breakfast, the girls rush out and have a game. I have heard that it is for the purpose of relaxing, but I'm sure it could never be, for we all want to grow up to be well-rounded young ladies, don't we?

By the way, that reminds me of something very important. How many of you have ever taken the tennis tournament? (Don't let anybody speak at once.) Even if we can't all be in it, I know that we all want to go over and watch the girls who will be in. Remember how interesting and how important the matches were last year, and how proud we were of Miss Elizabeth Crawford, and the others who played.

One of the kiddies was telling me this morning about how much she has been enjoying the early morning breakfasts. She says it really feels of fun to get up at six and go out with everyone. It makes you feel very grown up! But of course, she was just getting used to this phenomenon. It happened that I went on the walk myself this morning and I quite agree that it was more enjoyable. The only trouble is that there is a dog who follows us faithfully, almost every time we go. Poor Fido, I guess he wants to enjoy the birds, too, and he seems to forget ever Friday.

And now for the most important matter of all. What smart kiddies knows what's going to happen next Saturday? April 27! That's right! The inspection day! Don't forget that we have to hear all about the United States and World Court. Do not forget that this is one of the most exciting event we've had since spring break. I know I'll be there with lots of flags, and all knowing our class is bound to win. And we know before we say goodbye, we want to tell the Sophomores that we hope they will sing as sweetly and as beautifully in March next week at the George A. E. that they'll just have to come! And we will have a lot of fun because we're all going to be there.

The big surprise I promised last week is this. Starting next week we will have a special story about a sweet little girl named Virginia Hay, and her adventures. We'll read all about what a wonderful time they had and how they had many marvelous adventures. So look for the first installment of our story in our column "The Quilt of Night".
