Soph's Ball

SOPH'S ARE BASKET BALL CHAMPIONS

When the final whistle ended the freshman-sophomore game that Tuesday afternoon, February 6, a silence fell over the audience of 1400 basketball supporters when the referee announced the name of the 17-11 in favor of the sophomores. The Sophomore team had been the victims of the freshman in the previous game.

The sophomore team, led by a slight and lithe player, Richard E. T. B. H. B., dominated the game from the start. The sophomores' precise passing and excellent ball control were so perfect that the freshmen were never able to keep the score off zero. The sophomores' teamwork and determination were the keys to their victory.

This game was the final game of the 19__ season for both teams. The sophomores won the championship with a perfect record of 17-11. The freshmen, despite their loss, can be proud of their performances and look forward to next year's season.

G. S. C. W. To Have Nursery Home; Will Probably Open in September

By Dr. W. C. Ina

The Board of Trustees of Georgia State College have approved plans for a nursery home in the college. The plans are for a one-story building, with facilities for about 25 children. The building will be located near the college campus and will be equipped with playrooms and classrooms. The nursery home is expected to open in September, possibly the first of October.

The nursery home will provide care for the children of the college faculty and other qualified families in the area. It will also offer educational opportunities for students interested in early childhood education. The nursery home will be staffed by trained and experienced childcare professionals.

In addition to providing quality childcare, the nursery home will also serve as a training ground for future childcare professionals. Students enrolled in the college's early childhood education program will have the opportunity to gain practical experience by working at the nursery home. This hands-on experience will help prepare them for careers in childcare.

The nursery home is being funded through a combination of college funds and outside donations. The college has already received several significant donations from alumni and friends, and is continuing to seek additional funding to ensure the success of the project.

The nursery home is an important step forward for the college and the community it serves. It will provide much-needed childcare services to families in the area, while also offering valuable educational and training opportunities for college students.

The college administration is optimistic about the success of the nursery home and looks forward to its opening in September.
