Need of Vocational Guidance:

During the last few years many students have
been encouraged to go into some field of voca
tional training. As the result of this, many stu
dents have been given vocational guidance. But
the guidance offered has not been particu
larly effective. The guidance offered has not
been sufficiently thorough or complete. The
result of this is that many students have gone
into fields that are not suited to their abilities
and interests.

Cameron Beck

During the last few years in which a certain
number of students have been encouraged to go
into some field of vocational training, the
result has not been very satisfactory. The g
uidance offered has not been sufficiently thor
ough or complete. The result of this is that many
students have gone into fields that are not suited
to their abilities and interests.

This ‘n’ That

When one says “an everlast in the last two
months between two persons” What does he
mean? Well, it may not help the people with
their problems, but it may help them with their
ideas.

We are not the only person to know of
some greater characteristic to possess in his
skill in earning a living but devoting little time
to serious study.

Courtsey

The sly art is to listen to what every one says
about himself. And if you don’t like what they
say, don’t say it yourself. It is not necessary to
rephrase every word.

Proof of the Pudding

The phrase has been much misunderstood,
since it is no easy one to understand. It means
that just because a man says something, it does
not necessarily mean that he means what he says.

Lyceum Dress

This has been self-chosen for the social
activity of the Lyceum. The dress is of a light
shade of pink and is worn by all the members.

Dramatic Club

The Dramatic Club has been in existence for
three years now. It is a group of students who
meet regularly to practice and improve their
acting skills. The club has performed in several
local productions and has received positive
feedback from audiences.

The Globe Trotters

Well, you have probably heard of the Globe
Trotters. They are a group of students who
travel around the world and perform various
shows to entertain people. The group has
received a lot of praise for their performances
and has gained a lot of popularity.
