Colonnade April 10, 1934
Summer Session Opens June 11

The regular summer session of the Georgia State College for Women opens June 11, 1934. Applications are invited from those interested in taking courses in the summer session. A variety of courses is planned for this session, and draws special attention for those interested in the possibility of obtaining credit for regular Georgia State College students.

Mrs. O. A. Brown, who is in charge of student activities, has made plans for recreational activities for the summer.

Glee Club Presents A New Program

The University of Georgia Glee Club was presented in a delightful program by Hugh Hodgson, director, in the G. S. C. W. auditorium Thursday night, April 3. The club, on its twenty-third annual tour, was accompanied by twelve other college choirs.

The program throughout was entertaining and was well received by the audience.

The Watchman of Lexington, was the star performer of the evening with his "signal-caller" songs. Miss Claire Harper, soloist, played several viola solos which delighted the listeners.

Dr. Chas. Ellwood

Gives Lecture Here

NOTED SOCIOLOGIST IS HERE AS GUEST OF PI GAMMA MU

Dr. Charles A. Dowd, a noted teacher, author, and social critic, is spending several days at the Georgia State College for Women. While on this campus a full schedule is planned for him. Monday afternoon he was featured in an interview on the broadcast program in the evening as the guest of Beta Chapter, Pi Gamma Mu, the Social Science Honor Society, Dr. Ellwood, the national president, spoke to the membership and participated in the initiation of the new members. Tuesday morning he addressed the student body and faculty at the chapel exercises. Monday night the public is invited to hear his lecture on the subject: "The Cost of Social Ignorance."

Dr. Ellwood received his B. B. Degree from Cornell University in 1896, his Ph. B. Degree from the University of Minnesota in 1899, and his honorary LL. D. Degree from Beloit College in 1932. Dr. Ellwood has attended the University of London, University of Berlin and Oxford, England, and has taught at Duke University and the University of Michigan. He is the author of approximately a dozen books, many of which have been translated into foreign languages, and he is a member of several learned societies.

Mrs. Ellwood accompanied him to Milledgeville, and while here they handsomely entertained by the Mrs. Brownes.

Grace Pfeiffer

Named Officer of Math Club

The Mathematics Club elected officers for the coming year at its regular meeting in Miss Nugent's classroom Thursday afternoon at 3:30. They are Grace Pfeiffer, president, Mervyn Colburn, vice-president, Martha Harrison, secretary; and Mary McCord, treasurer.

Mrs. James L. Baine, the president, read a short address from Rosalee Sutton for the Easton girls which was given by her. A list of officers was announced by the Mrs. Brownes.

A.U.W. Holds Conference Here

ALL PARTS OF STATE REPRESENTED AT ANNUAL CONVENTION

Between twenty-five and thirty-five girls from all parts of Georgia were present at the eighth annual conference of the A. U. W. which met here Saturday, April 2.

Mrs. Mary Lee Anderson, president of the Millcreek branch, made a welcome address at the morning meeting held in Bell pavilion on Saturday morning. This was re-

NOTE: The above text is extracted from a newspaper article. It contains information about various activities, events, and lectures at the Georgia State College for Women, including the summer session, a lecture by Dr. Charles A. Dowd, and the annual conference of the A. U. W. (Alpha Xi Delta) on April 2, 1934. The text is not a complete representation of the entire document.
Thank You, Commissioner. 

This is the right thing without being told and doing it.

If You were a Senior Now...

We know you read this column in the last week of the semester. We hope you do not think we have forgotten what effect it had or what you've done about it. We know what we would like you to do. We hope you will be glad we know you read this column.

The 1127 students at C. S. W. in Georgia know they are the senior class in Georgia. That means something to the senior class; that is, if one year ago you would only bring a beam from that high school town of yours in the form of a senior newspaper made known to Mr. Theatres or some senior who is at present getting desperate for want of a newspaper interstem to whom to apply for a position.

Don't think teaching is the only occupation for which the seniors are prepared; there are many others. "Virtue is the spice of life," and if that is true of the seniors, then it is sure to be true of Georgia and surround- ing territory as well. Freshmen, sophomores, juniors, and seniors before very long, when you know it will be time to have a thousand students who are going to give the city a shock and the mile stonedﺞ will not use a three-cent stamp to write that you have a singing vacation in your home town. Don't let it stamp worry you. We guarantee you'll save postage for every vacancy you discover by use of a stamp.

What do you say to this? We have an idea.

"Maybe we ought to use our originality by collecting wants."

Quitch the Georgia--"There's nothing worth doing in this school but the label of innocent childhood."

"What are you going to do with all that rich character and loved proof?"

You think! Why do you think? A decision is a test of the U. of Nebraska. You need three reasons: love, igno- rance and faculty intelligence.

University of students who only come to classes for final signs press the courses as soon as those who aimed at cultivation, but, of course, think much more stupid the ones who aimed classes can get.

A psychology professor at No. Braaksu suggests a serial debating to the state of the credits of Chicago. This school which is not- rationally known is the largest art school in the world.

Hunting on School Problems

Held in The House Committee

Four days--February 25 to March 1, 1944--were given to hearings before the Education Committee of the House of Representative on the general problem of federal emergency aid for edu- cation. These hearings were another important for- ward step in the work of the National Education and Federal Emergency Aid for Education, of which the Committee is a part. These two and three of the state presidents of this committee were dealt with in the hearings--personnel that $100,000 per week was allocated to keep schools open during 1934-35; a substantial ad- ditional appropriation to secure normal operation of schools during 1934-35.

Congressman John J. Douglas, Chairman of the Committee, announced that the hearings were not being held for the consideration of any particular bill but rather for the purpose of ascertain- ing the extent of the emergency in public education. Several bills were referred to the Committee, including the one introduced by Congress- man Dean, of Georgia, providing the dissemination of $600,000--$600,000 to the states.

MATH CLUB IS ENTERTAINED

The Math Club was entertained on Monday, February 26, at the home of Mr. and Mrs. F. A. Dunn at Niles. The prices for the next seven weeks fell to a record low, and the stock was priced at a record low.

Hollywood Interviewed on Radio Program

Continuing as instructor and or- ganizer, the G. S. W. in Hollywood, indicated in an interview with the Education Program, of the G. S. W. in Hollywood, and the School of Home Economics, said,"We are best known for the education of the country."

Dr. Elwood, professor of sociology at Duke University, and since 1920 national president of the Phi Gamma Mu society, Dr. El- wood was interviewed by Dr. Weck.

Mrs. Mildred Freeman, pianist, furnished the musical element for program.

Faculty Members Judge Essay Contest

Mrs. Rosah Bell, Mrs. Alice C. Osborne, and Dr. Sarah M. Johnson, at the George State Normal, attended a meeting of the faculty of the George House Economics Association in Atlanta Tuesday to deter- mine the final results in the high school essay contest they are holding.

Other members on this committee included J. C. Beckett, professor of commerce, and Dr. Lee, professor of commerce department, Univer- sity of Georgia.

Mrs. Williams Will Receive Medal

Mrs. Alexander Williams, of the dental department, will receive a degree in Bachelor of Art in Education in June from the state Institute of Chi- cago. This school which is naturally known is the largest art school in the world.

The Globe Trottors

Well, we are here to try another week... they do go by.

A group of agents are planning for a forty-fifth state... for no reasons only. This originated in the neighboring of Political Science and has been conducted among University students, however, and nothing like this before. Some of these are being radical, and are un- less you want watch of officials.

We're talking about scrap- ing and disgusts and much recently that we have decided to surprise you with a little good will.

That is what now exists between the United States and Japan. Washington showed for a time to be a tightening block. Of course, some of these agents fear the future and say that you'll have to beat the "crisis" for N. R. A. as a lot.

At a Methodist conference in Philadelphia it was decided to air- the anti-communist article. Dr. John East, gentleman, editor of the National Methodist Press, pointed out the dangers of the Com- munist. The Methodist Conference falls in line with sev- eral others of the more prominent denominations in upholding this standard.

And Roosevelt hasn't caught a fish yet. Will Rogers, several right, says, that the fish might not know what a Democrat could do, but evidently the fish can't tell Democrat from a Republican. Which seems to amount to much.
