Parents'Daughter celebration

Eight hundred visitors are expected to attend the annual Parents' Day celebration of the second annual Parents' Day which is sponsored by the alumni association and the Granddaughters Club. Acceptances have been received from several hundred people and others are expected to come without having written their intentions of coming.

There has been much friendly rivalry between the various departments to secure the largest number of parents present, with Boll Hall and Bell Annex seeming to have a slight lead, according to present indications. Bell Annex was awarded the prize for the past year for having the largest parents present at the first Parents' Day celebration.

An interesting program has been planned for the day, under the direction of Miss Louise Smith, first vice-president of the alumni association, and the officers of the Granddaughters Club who are Miss Dorothy Ellis, Maude; Virginia Oliver, College Park, vice-president; Ross Blue Williams, Barnes Villa, secretary; Herbert Money, Warner, treasurer.

The Parents' Day celebration is one of the most outstanding events of the school year, and every parent should attend at G. C. W. if has been making plans for some time for their parents to visit the school at this time. The first of the eight hundred visitors are expected to arrive shortly before the school Friday morning. They are asked to report promptly upon their arrival before 10 a.m. The parents of the Granddaughters' Club will be on the front porch of Paris Hall to welcome them.

IN CONSERVING VISION...

LIGHT TAKES FIRST HONORS

The splendid years of college life, probably, put on your eyes the greatest strain they will ever bear. But you are the only ones you will ever have and you are far from through with them when college days are over.

Protect them! Remember that your greatest safeguard is adequate, glare-free, uniform light. Be sure, first, that you have ENOUGH light that all lights are properly shielded. Make sure that your light is uniform, without extremes of light and shadow to cause the pupils of your eyes to respond to contrast and stimuli other than good visual health allows.

Have your eyes examined if you trouble you, but be sure also, that the light you need by and study by is RIGHT. One of the best ways you can do is to give your students, your family and your friends a real glimpse of your own through proper use of light. Just a phone call to our nearest office is all that is necessary.
