You are immune?

For several weeks, the postal service of the nation has been hampered, a trouble known as "flu fever." As a result, many letters have been delayed. A letter sent from one corner of the country to another may take several days longer than usual.

It is a fact that many people are suffering from this illness, but they do not realize it. Flu fever is contagious, and once you get it, you cannot escape it. It is a very serious disease, and everyone should take precautions to prevent it.

Are you immune?

Yes, you are not immune.

The flu is not just any ordinary cold. It is a serious illness that can lead to hospitalization and even death. The flu is caused by a virus, and there is no cure for it.

Therefore, you should take precautions to prevent catching the flu. Here are some tips to help you stay healthy:

1. Wash your hands frequently with soap and water for at least 20 seconds.
2. Avoid touching your face, especially your nose and mouth.
3. Avoid close contact with people who are sick.
4. Get a flu vaccine.
5. Stay home if you have flu-like symptoms.

By following these tips, you can reduce your risk of catching the flu. Remember, flu season is here, and it's important to protect yourself and your loved ones.

Imagination—Or Recreation!

The students at G.S.S.C. have been very busy with their studies, but they have not forgotten about recreation. The student body has been working hard to create new and exciting activities for the students to enjoy.

One of the most popular activities has been the "Imagination Club," where students can express their creativity through art and writing. The club has been organized by Mr. Johnson, a history teacher, and has met every Thursday after school.

The students have been working on a new project, a mural that will be painted on the wall of the school's art room. The mural will depict the history of the school and its community.

The students have also been working on a new play, "The Great Gatsby," which will be performed in the school's auditorium later this month. The play is directed by Ms. Thompson, a drama teacher, and the students have been working hard to perfect their roles.

The students have also been planning a new outdoor adventure, a camping trip to the nearby mountains. The trip is planned for next weekend, and the students are excited to spend time in nature.

Point System for Office Holders

The students at G.S.S.C. have been working hard to earn points towards their class rank. The class rank is determined by the students' points, which are earned through their participation in class activities and their performance on tests.

urged a quick pushing of bonds by all the farmers of the state in order to enable them to avoid taking them. He urged the building of the state's own immense meat-packing plant and the slaughter of its own meat in order to avoid the injury to its farmers. This, a man pointed out, would enable the state to use its own meat products in its own markets and to avoid the cost of shipping them to the West.

Soph Commission Installed Sunday

Spectrum Editor

(Continued from page 1)

for the coming year.

Both Mary Peacock and Jane O'Neill were editors on the Spec- trum staff this past year, serving as club editor and T. W. C. A. editor, respectively. Mary Peacock and Jane O'Neill were both in 1884-85 schol- arship committees.

Mary Horrell has participated in many extra-curricular activities as a student in the campus and as an athletic editor will be an able leader for the staff.

Mary Pitts Allen was a member of sophomore commission and the sophomore class athletic sponsor this year. She was also the circulation manager of the Spectrum this year.

Charlotte Bivens served as a member of freshman council and in addition to her position as features editor on the Spectrum staff will act as a member of scholarship commis- sion next year.

Virginia Deway was the past president of the Commerce club, and is editor of the Griffin club, and is present at the Spectrum for 1894-95. Grace Collins is another outstanding student in extra-curricular activities. She was the author of an original play presented by the fresh- man class recently.

Mary Pritchett was an active member of freshman council of this year and will serve on sophomore commission for the coming year.

Mary Jollie, who served as fresh- man class editor of the Spectrum during 1894-95 and with her experi- ence of the past on the staff will be quite capable.

Midale Biven served on "A" cabinet during this past year, was president of the Chemistry club, and is present at the quizbowl. She will again affiliate as president of the Chemistry club.
