Carola Goya To Dance Here Next Monday

Carola Goya, the famous Spanish dancer who is to give a recital. Carola Goya has been invited to the college auditorium on December 9th, to make a study of the history of the dances of Spain as well as their technique. Her comments upon the Spanish dances are especially interesting as her illustrations positioned on the stage.

"Most of the traditional dances of Spain," says Sanziala Goya, "are folk dances. That is, they were originally spontaneous dances of the common people danced for pure joy or to express some emotion, or to fit some ceremonial occasion such as a wedding, a christening or even a funeral. Invented the wild sets of Aragon, strange as it may seem, was, at its inception, turned at the head of an infant, although the true significance does not attach to this.

While Spanish dancing has had a good deal to do with the dances — psychological dance mood? or "expression"? — it also illustrates various traditions, which have become common in America and elsewhere. enchanted: Spanish dance is definite in meaning and feeling; having sprung originally from the state of mind of the dancer: Enfer, perhaps the most famous Spanish dancer, in America, Molognhe, Puletah, Blukatan, etc., preserved out of other help.

Students' Votes on Questions Show Decided Majorities

Some hundred students at O. S. C. W. tried bravely to discourage the popular opinion that other- gals are such for the time being only, that they are killing time and that they might get a chance to get married, was indicated in the results of the questionnaire that was given in chapel last week. Those who had not heard the students stated definitely that they did not expect to get married, eight hun- dred and sixty said that they were in love and twenty-five were in love.

Nearly two hundred students stated that they would not marry a successful career to a happy married or the career of a successful career would be a definite "no" to that question.

Some interesting with the faculty: students feel that more freedom in a college should be all- the more freedom here at O. S. C. W. than is not permitted, as was evidenced by the right hand votes to that effect. Two hundred votes proved that some students feel that conditions were more in the way of satisfaction, while twice as many voted for the opposite.

A large majority of "yes" was noted in the result of the question, "Should students work for a higher chance of marriage, for health or for better opportunity?" or to fit some ceremonial occasion such as a wedding, a christening or even a funeral. Gale, with all its "Win and
lose," is a particularly
hard time. The level of
intensity of the game is
far beyond any other
dispersion. Even when
the players are not actively
playing, they remain in a
tense state of anticipation.

P.S. in honor of the birthday of Mrs. Eleanor Roosevelt, the
United American Council presents "The Winning of Little
Lettie." This production was the hit of Little "Tri, but it
was not surprising. It is the story of a young girl's
liberation from a world of doubt and fear. It is a tale of
growth, love, and hope. The actors were excellent
in their roles, and the audience was moved to tears by
the stark reality of the situation. The production
was a great success, and it was evident that the
audience was moved by the story. The show was
accompanied by a lively orchestra, and the music
added to the overall effect of the production.

Our side of the Question

Quite a few students have expressed interest in the
question of "What is a substitute teacher?" There are
different opinions on this topic, and it seems that
people have different ideas about what it means to be
a substitute teacher. Some people think that a
substitute teacher is just a temporary teacher who
comes in to fill in for a sick teacher. Others believe
that a substitute teacher is someone who is hired
to teach a specific class on a regular basis. There is
no one right answer to this question, and it seems
that people have different opinions on this topic.

Selecting a Substitute: How Important Are They?

Selecting a substitute teacher is an important
decision. The substitute teacher should be chosen
with care and consideration. It is important to
choose a substitute teacher who is qualified and
experienced. The substitute teacher should be
able to maintain the same level of instruction as
the regular teacher. It is also important to
consider the students' needs when selecting a
substitute teacher. The substitute teacher should be
able to communicate effectively with the students
and be able to provide a positive learning
environment.
