W. A. SUTTON LAUDS HONOR MOVEMENT

The basis of anything which is good, according to Dr. Willie A. Sutton, is knowledge of the inside workings and conditions in the final. Dr. Sutton made that statement in his charge to the freshmen Saturday morning when he took as his main theme, "The Honors System: What's Wrong With It?" During his remarks on state

matters made, he noted the decrease of student body activities and the high number that failed to attend the meeting. The semester concluded with the usual fare of academic events, but the future is uncertain for what is necessary for future events.

"A distinguished student," said Dr. Sutton, "is not one who elects to boycott, or opposes books. He is one who does not let his fears be caught in his throat. Distinction cannot be sold, but it can be bought."

"For a school or institution to do away with positions that which is so indispensable and so attractive, a spirit of 'I am not civilized' must be built up, must be created, as that person is militarily concerned. A sense of honor must preserve the campus or suspension, and character-building must be stressed."

Vandy Accepts G. S. C. Senior

An announcement was received Tuesday from Vanderbilt univer-
sity regarding the acceptance of the application of Miss Stu-
mans, College, for admission to the medical school of that uni-

versity for next year.

Miss Stuman was one of fifty students whose applications were approved. Included in the group were only five girls. Miss Stuman had completed all the pre-

medical requirements during her stay at G. S. C. W. and will go to the University of Tennessee in the fall. Upon her entrance there, she plans to enter in the medical school of that university.

The unusually high average that Miss Stuman has main-
tained throughout her college career is due to her hard work and dedication. As one of the fifty students in the medical school, Miss Stuman is the only one who has been accepted. Since the change from the semester to the quarter system, she has maintained an average of 90.5 per cent.
