As a result of intense public sentiment, and pressure brought about by the demand of the students, the administration has moved and ascended that a return to the Uniforms of 1938 be brought about for next year.

No interviews have been given to the Gentlemen of the Press, for the better returns have in that fact seem faulty authority. The uniforms’ request will be voted for a return to the Uniforms for several months which will be given below.

The return to the Uniform is one of the platforms in the Old Debate Program set up by the Democrats. The Staleholders is hereby in unison with the move, and endeavors the collate for adopting the whole program, particularly for returning to the Uniform.

The reasons respected for the change.

Since the styles of this summer, and also the advance dealings for the summer and fall, show a defaced trend toward mannish, lowered suits for daytime wear, the Uniforms would be in good fashion. It will be possible for the girls to dress in the latest fashion, and as well-dress- ed as any other student.

Since the Feminine Era is Re-Starting at last, and afternoon and evening clothes are very feminine in every aspect, the Uniforms will not be a duty which would be pleasing to all.

Thus, too, the Uniform, being of such a great fashion, could be worn on trips away from the college, and while at home. This could eliminate the necessity of having school clothes and home clothes, and do away with the expense that was once necessary when the Uniforms were worn, and mannish suits were not in the latest fashions.

Therefore in the paper will be found pictures of the Uniforms which will be worn next year. Showing the attractiveness of the outfit and the exact style. Several well-known merchants in the city will be advertising in the issue of the review the new Uniforms, and will show a display. Buy yours early and avoid the rush.

To Horse Owners
For putting a horse in a fine uniform, the horse is the first in God’s Condition Powder’s line up. I just love the Old-Days, & I hope that the boys will do the same. I am told that the Old-Days will be as good as ever.

In short, tariff, it, we girls have been gone. Let us have no more of it. This is the B. B. O. D. movement.

ALPHABET POLICIES TO RULE HERE

Calling a special session of the faculty members and directors of this Institution of Learning last week, the Homespun Way Gals the able and efficient leader here launched into an eloquent declaration on the Old Dad program, set up by the Board of Chapels, and pledged her entire support of the policies of the program.

Believing, as all real thinkers do, that there is much good in the old, and that in its hey time the good people of this area return to a more sensible manner of behaving, the Homespun Mr. Gals stood again and again that he was indeed pleased that former twentieth traditions would be reinstalled at this school.

The able president pledged the support of the school, and publicly stood to the newspapers that the entire program set up by the Board of Directors would be carried out.

It is reported that none of the faculty members, reversed at the structure in which they have been accustomed to regard to some of the practices on the campuses were as worrisome to happiness that they were unable to express to the boys as ever the real president supposed that a stated and universal return to the policies that were required in 1830 here would take place.

The program, with its slight alterations policies detailed, was explained by the President. His explanation, was in part, "the whole system set up by the Board of Directors is based on the PPD54-1954, and the Feminine Era Uniforms. At all. We are restating a return to Old Days, when men were gentlemen, and ladies still blushed."

"We will do our part in cooperating with the Directors program which consists of the following steps:

PFA—Preserve Uniformly Attributes. That is why we are starting a campaign for lavenders and old lace, and frilly clothes, it is the movement toward swing clothes which has made women forget their place, and his taken them from the home. With the PFD program in effect, a change is made and we will again have women who depend on men to do things for them—and do away with these Amazons like females."

FDE—Female Demand Romanesque—The old days in the 30s were more romantic, with more frills, and with the bicyclos built for two. This movement has made necessary another which is the CCC—Co-Ed Cover the Campus. Hence the program set up to interest young men to attend school here—are whenever found any romance riding with another girl on a bicycle for two? As a result of the CCC has come the AAA—Additions Aid the Al—members. The initiated atmosphere will bring more students here, and more co-eds, and as a result of that, more romance.

TVA—Teach Your Value Adviser. The Teachers in the future will ask the advice of their classes in regard to all suggested plans.

NWA—Never Wash Anything. The authorities of the college will be ready at all times to remit any gifts that anyone may want to make in the album student from the Creed.

"Bring Back The Old Days"

Announcement of Great Importance

Because the new policy of this school will be dictated by the all boy B. B. O. D. movement, in which it is necessary to have men to do the labor, legitimate text will be a tremendous innovation that will be made at our school.

The school will become re—educational. It is long been the standard complaint of every the "boys" that they could not get much more work done if they could have their "boys" here to write their theses for them and do such scurvy things as stand the books. Homespuns are hard to manage and then it would be so greasy and erased to have the young man to be on hand in case one has a fainting spell.

Under pressure the administration has agreed to call out young men, all of whom will be of the finest character available. No young man will be permitted who does not wear a hat at all times, a tie and a stiff collar. Young men will get a bath in their shoes on their arrival will positively be forbidden to matriculate.

Announcement of the great change came today with the announcement that the new faculty members, all of whom are to be young and handsome, as the college feels that romance and sweet sentiments will be good for the boys that often arise to young girls hands, especially in the future.

"Never let it be said" said the president "that our girls cannot compete with them. But," he added, "We'll play the men!"
The Front Page News for School Authorities strict adherence to Old Deal policy was even more noticeable in the FECA movement at the college when fifteen Heard the Old Deal is the school appeals to Bring Back the Old Days, and were hired immediately to serve on the staff of the school.:

Those fifteen who heard the call include a number of the outstanding citizens of Milfordville and the state, and were elected immediately as faculty members because of their love for the old things. That the Freshman Era has remained At last is definitely apparent for the assurance of these new faculty members. Probably the most outstanding of the new teachers is Paula Junior Child, and Way Gaff, Jr. son of the present doctor of the school.

Mister Child is a graduate of the Georgia School of Technology, and has already in his short career shown his support of the Old Deal by advancing its policies to the utmost. He is a strong believer in the A.A.:And—Add. Add the Atmosphere—and in this he was responsible for selling the CCC to the student Body. Cover the Campus.

Mr. Gaff is also a believer in the Old Deal, and is at present a sophomore at Georgia Tech. Because of his love for old things shown at his youthful age, he was selected as a member of the faculty.

Other new teachers include the Hull brothers E. M., and E. S. Mr. Louis Wall, Mr. Pete Morrison, Mr. Ben Shields, Mr. Robert Reagan, Mr. David Rogers, Mr. Howard Mihm, and several others where we can't think of at the present moment.

With these fine teachers, the outlook of the B. O. O. movement is secured. No fewer teachers anywhere could be found, and the college is looking forward to the steps to be taken by these new faculty members.

Joy Troubles, Ahaister Althetters, and troubles too numerous to mention.

Very truly,
J. McAVATHIS

IF IT IS A GOOD THING
we have it

Only been elected a member of the Faculty for next year, talked here at the campus exercises on Friday. The talk given by Mr. Lail was an exhibition talk to see how the students and faculty liked him.

As a result of the time crowding, the interests of the prospective teacher at this Institution of Learning, much point has been heard from students and faculty members.

Mr. Wall is one of the most forceful and eloquent teachers who has ever talked here. His speech on the occasion of his first visit to Milfordville was a masterpiece of rhetoric and word painting, and abounded with truth pointing to the spot where patriotism may be inflamed.

It is with great pleasure that students who will return next year look forward to the time when Mr. Wall will be with us on all occasions, and not just special occasions. The students who will finish their work at the end of the term, regret that Mr. Wall's coming was not this year.

The Front Page News with the students and faculty in attendance will Mr. Wall to Milfordville and hopes that he will enjoy his stay next year.
