It Looks From Here

By Dr. TAYLOR

For the past week the entire world had had its jitters. A central European war has been on the point of breaking out at any minute. Chancellor Hitler has been vigorously demanding the immediate transfer to Germany of a large part of Czechoslovakia, and the Czech state has been refusing any concession with as much vigor.

At this moment (Thursday afternoon), however, the "big four" powers of Europe are sitting in conference at Munich. It is a reasonable guess that they will compose the situation, at least for the present. The probable outcome will be a compromise to transfer the areas that are distinctly German in population from Czechoslovakia to Germany through a more or less orderly civil process. This has been agreed to France, England, and the Czech government for several days, but Chancellor Hitler has apparently preferred to take what he wants by the barest, least diplomatizing means.

It is not strictly the peacemakers that interest the reader. An outright gift would not please him. To keep free with his people and to justify his philosophy, he must make it appear that he can get his point only by force. According to his concept the German race is superior to all other races and must eventually rule the world, and the position of rulership will be brought about only by force. To accept the Sudetenland, which is without a show of armed force, is a defeat of construction and a humiliation.

Apparently the representatives of the other nations are willing to humor this whim for the sake of peace, and at present they are granting him the right to pursue his aims in one small southeastern country.

But what about other major groups in the various European states? Presumably their status will be a subject for discussion in the present conference. Some formula can be reached, however, and the situation will be handled.

Student Council Calls C. G. A. Elections For Monday Night

College Lyceum Announces Entertainment For Year

Choir Plans Unusually Active Year

With eighty-five members, including a larger percentage of boys and a unusually intelligent mix, the A-Cappella choir for the coming year is most promising. The choir now includes about twenty boys and forty-five girls, all of whom have good, well-trained voices.

For the past two years the choir has made an extended tour in the spring—the first year to Miami, Florida, the second year to New Orleans. These trips have proved so successful that they plan to go north this spring to Greenfield, N. C., where Prof. Johnson heads an A-Cappella choir, and from there through several cities in New York.

In Washington, D. C., the next stop after Greenfield, on Saturday morning, March 30, the members are sponsoring a concert to be given by the choir at the Washington Hotel, which will be enjoyed by a dance. The choir is also making elaborate plans to sing for President Roosevelt, the President to be determined later. On Monday evening they proceed to Atlantic City for four days, followed by five days at the Waldorf Astoria, and on Tuesday and Wednesday will find the group in New York City, after which they will return by train to Pennsylvania, Virginia, North Carolina, and South Carolina. At usual, the home concert will be given at night following their arrival on the campus.

In behalf of the student body all those who have heard the choir at any time, the Colonnade wishes the A-Cappella girls and boys the best of luck in their ambitious program for the next two years. You may feel proud if you have professed for the past three years that this is "not Harrow on the map," culturally speaking, to say nothing of the genuine enjoyment it has afforded the students on the campus.

The girls of the choir include: Gertrude Baker, Callie Mathis, Frances Peery, and Elizaeth dramatics.

Elections for President and Vice-President of C. G. A. will be held Monday night at eight o'clock at a special call meeting of the student body. The elections were called by Student Council, which also acted as an emergency nominating committee last week to nominate Marion Arthur and Sara McDowell for the presidency and Mary Berett and Charlotte Howard for the vice-presidency.

Elections for the treasurer of the Recreation Association will be held at the same time. The candidates announced by the Executive Board of the fire are: Emily Chaves, Louise Blalock, and Stella Fos-

The candidates for College government officers will be introduced to the student body at Assembly exercises Monday morning, and given an opportunity to speak briefly about their general policies and aims as regards C. G. A.

Both Marion and Sara have given the main plans in their platforms for publication.

MIDWOOD FAVORS MORE DEMOCRATIC PROCEDURE IN C. G. A. ACTIVITIES

Sara McDowell set forth a twelvet. outline of what she and what she would be done. She would hold the election in her platform, the "boy who was elected," said Marion, "not me."

"The students, through C. G. A., should have a voting vote in their government. That will be my goal," said Sara.
What is and Isn't And Why

At regular intervals the editorial column gives an occasional report of a larger movement, and it is quite the contrary. It may be that there is no such "moral" as a moral. All our ideas and our efforts are the results of our own minds, and it is no more possible for us to influence the minds of others than it is possible for a man to influence the minds of others. All our ideas and our efforts are the results of our own minds, and it is no more possible for us to influence the minds of others than it is possible for a man to influence the minds of others. A former active member in the college and now a successful banker, Mr. A. C. B. B. C. W. is also here.

G. C. B. C. W. is the leader in the direction of a liberal, intellectual, progressive movement. The President, Mr. A. C. B. B. C. W., is the principal supporter of the movement in the college, and the President, Mr. A. C. B. B. C. W., is the principal supporter of the movement in the college.

The atmosphere of informality that prevails on the campus, the freedom of the college, the social and intellectual life, the college life, the college life, the college life, are all evident in the student body. A vivid vision is seen in a school of this size.

The completion of the present building program will not only remedy the many of the de-facto houseburning movements.

Gone are the days when the people of Georgia held the college at one time a help to the firemen and to the people. The campus demands it, for they are looking for the college to be a fireman of this fire and this heart.
