Our First Support Goes To The Honor Board

Several years ago, 1926, to be exact, ninety percent of the GSWC students study body voted for an honor system. Ever since that time, the GSWC honor system has been one of the most important aspects of the college. The students have been proud to have a standard to which they can hold themselves. The honor system has always been an important part of the college, and the students have always been proud to be a part of it.

The Honor Board was established in 1926, and it continues to this day. The board consists of ten students, who are elected by their peers. The board meets once a week to discuss issues of concern to the students. The board is also responsible for enforcing the honor code.

We are proud to support the Honor Board and the work that they do. We are confident that the students will continue to uphold the standards that have been established.

I hope that the students will continue to support the Honor Board and that they will continue to work towards a better college.

Sincerely yours,

HORSE WILSON, President,
College Government Association

The ColonnaM speaks

THE COLONNADE is THE OFFICIAL VOICE OF THE STUDENTS, as you have heard. But it is not the only voice. There are many voices in the college that you should pay attention to. I will tell you about them in my next column.

The laundry room is a great place to meet people. I often see students in there, and they always seem interested in what I have to say. I think that you should try to visit the laundry room sometime and see for yourself.

The library is another great place to meet people. I often see students in there, and they always seem interested in what I have to say. I think that you should try to visit the library sometime and see for yourself.

The student union is another great place to meet people. I often see students in there, and they always seem interested in what I have to say. I think that you should try to visit the student union sometime and see for yourself.

The cafeteria is another great place to meet people. I often see students in there, and they always seem interested in what I have to say. I think that you should try to visit the cafeteria sometime and see for yourself.

The gymnasium is another great place to meet people. I often see students in there, and they always seem interested in what I have to say. I think that you should try to visit the gymnasium sometime and see for yourself.
