The Colonnade Speaks

Majority Or Minority

People are often judged by minorities. footsteps is determined important enough st be a subject for blocks. Therefore here what are on, at importance of all minorities.

Most students equality weakness behavior in the actively driven yet majority are determined enough to be concerned about how they are. We should remember to maintain our values for minority or majority. Some complaints about food seems to be unimportant, but if the large number becomes a continuous irritant it denies others the same benefits and leaves on impression of rudeness.

The presence seems to make a part of dining hall routine for our benefit. When we pay our prices and pass ourselves. Girls who leave the table while everyone is ready, will pay at not a good example for other students. However, exceptions can be considered in every case.

“Spring Accessories” Lacking?

Extraordinary clothes is something the American student pays a lot of money for, but we wear them only during the Dry Summer period. It is not fashionable, as far as the layman story not necessary. You can wear two or three or four or five or six... shoes and jackets, even if you have a vice...

Shoe wear is in the statute of the period to which we belong. He is to be an American and modern citizen. Whatever the changes, do not need to make great changes.

and the "President" is the moral focus, who understands everybody by himself. Mr. Lankford probably wants to win not all the rules which may be the law. But he has to try to improve the situation.

There may be much more in the “President”. More productions were released this year, but certainly none which are “Rainforest.” You have time about something,—one is adequate or can be quarantined in opinion.

Letter To The Editor

Dear Editor:

Why is it that our school hardly is in the minority by regulating to any one of the students? You can have no idea of how much it is to win.

Yours truly,

An Open Letter of Appreciation

Dear CSGW,

This is the last issue of The Colomnade to be published while I am editor. I hope you have not been disappointed in your editor and that they have worked hard to give you the paper as it should be.

It has been quite an experience to be the editor. One rarely knows what to expect when the innumerable meetings between the editors and the reader are over. One never knows how many pieces are due, or if there are any problems or a series of paper girls need to "See Dick" or if a feature entitled "How to Stay Whole" (Girls, I still have our articles if you're interested)

And we've had our trying times. My nerves sometimes didn't match it, but most every day paper has been scheduled. Difficulties have been encountered with the mechanics of the printer, stories were always too long or too short for the space allowed, copy has been late, but our present was a continued "minimum editor".

But it's been enjoyable. It is a privilege to have a newspaper, to have one's say, to help guide the world towards truth and justice.

The staff appreciates the interest and admiration for their work. We are honored that our work may be read. We are pleased that there is a demand for our articles. We hope that some of our admirers have "taken home".

The periodical is a part of our identity and administration in the paper. We are honored that our supporter friendship hasPAGE 1
the Colomnade been carried out when possible and deemed advisable.

Very truly yours,

EILEN SMITH, Editor.
