Golden Slipper Nov. 18

Golden Slipper—just a name, nothing of the word and watch an upper-classman’s eyes light up! Those two little words mean “work, excitement, enthusiasm, and adventure of all!” for a whole week...two weeks in which lessons are permanently forgotten for a little golden slipper or a silk pillow.

The slipper war was won by the Freshmen last year and it will be a contest of crony and good sportsmanship to see who gets to keep the shoe this year. The most wonderful thing about the contest is, even if you lose, you have the warmest feeling of feeling down deep into champion and love for your class notes...and shear determination to win next year.

The course of rivalry lies in the dramatic finale. From a short story of poems, each class writes a poem—silly, sentimental, dramatic, and presenting it on THURSDAY NIGHT in Nov. There are three days of pre-production; auditions of the dramatic piece written by each class, and the final test of good sportsmanship.

Are you interested? November 15 is the deal!

Inflation Explained

In explanation of the recent Colonnade article on “Inflation” we found the following hints of the truth...

The truth is that the college is not soaring to beat us out of a third.

The rule on the $10.00 charge for late minimum registration for any entrance of the college. The college has two sources of income from loan funds and operating, costs are minimum restriction on fees charged for late enrollment, registration, tuition, etc., which cover the college expenses.

The $13.00 charge for the beginning of the fall quarter is a net basic fee that becomes a part of the college expense, and the literal meaning is invalid.

Student Council has recommended that the student body be told of all additional charges, and that the forgotten deadlines for late charges.

Letter From Mary Lob

Communication from Mary Lob, last year’s sponsored foreign student, now studying in Colombia; recently seen the following message back to her...

“Now I am running with a Chinese girl. She is from Shanghai, too, like I am a sister now. She came 1947, too. But we don’t know each other. She is a very quiet girl. She is very, kind. We have plenty ideas and common. We always correct each other. Pain a little.

Colombia is very pretty. But the atmosphere is quite different from GCSW and the school where my brother study. They study any ‘30’ in each other. The whole student body is not united to other. There is no class friendship between faculty and students. I wish the wish in GCSW can re- exch low they are. Love you.

Most every need one aid. There is no very nice Chinese and red big dinner. In the morning, they have only coffee, donut, milk, dry cereal. They never have eggs, bacon of sausage. Anyway I don’t eat too much so it is all right to me.”

Homecoming—Or Not To Come Home

The social committee, headed by Debbie Hulse, suggested to student council ideas for a GCSW Homecoming.

The date proposed for the weekend is Nov. 18—Golden Slipper week-end. Besides housing students and faculty, class and dorms would see Golden Slipper week. Saturday night would be the vanguard day with bands at front campus. Saturday night would feature a dance with an indispensible in the big vyn.

Why? Every boy has many hours to perform Doctor’s Friday every year. Homecoming is a tradition at most every college in the nation. Many of the recent college return each year to the Slipper event, so why not entertain them on Friday night?

There is the question of students being tired and other Slipper antics. But don’t they plan to fill every minute of your time when you visit other college Homecomings? Anyway, you wouldn’t complete settled without the rest of the weekend after Friday night without Homecoming.

Why can’t we wake up Saturday morning and go and see our queen, who are sure to have been anywhere—and to get that?

If you love any ideas on the subject, write to the editor or come to Student Council, Wednesday at 6:15.

When you have graduated, you would have a special weekend to call Homecoming—in which you feel that you were really wanted and accepted at HOME?

Letters To The Editor

October 23, 1949

Dear Editor:

I don’t think it is customary, but I am enclosing a sort of poem, a “Recipe for Fussiness,” which will give you a little idea of how I am feeling these days. It seems to be a time when it is a time to go somewhere.

Comments from students that I have met lately.

Chemistry is not a thing I enjoy. I do not understand the system, and I am not sure that I even do it right.

After all, although I think that chemical spirit is a wonderful thing, is it really possible for me to make the daily report card to myself when I make it not matter what our classmates are—our all scientists under the skin.
