**‘Y’ Sponsored Student To Study On GSCW Campus During Year**

I am very interested in all re-gions of America," she says. "I had seen pictures of Millignton and was very anxious to see the city."

The grouping of students at the American university is a very exciting one for all the student and schools at GSCW seem especially to like Miss Sperber. "I have heard that it is one of the best col- leges in the United States," Miss Sperber explained.

The American student, who will be studying in the United States and on college under the Student Exchange Program of the United Nations, will study the American educational system, and will attend various institutes. Miss Sperber, who has been awarded scholarship by the American Swedish Student Congress, arrived in New York early in September. She has arrived from her home, where her parents, Mr. and Mrs. Emile Sperber, are living, looking forward to her year here.
To the 1950 Freshmen
Who Know The Know-How

This article is written specifically for a group of girls who have already experienced the freshman year and know what to expect. It is not intended for the average girl who is considering entering college for the first time next fall. The advice given here will be of more interest to those who have already been through the freshman year and wish to pass on their knowledge to others.

The freshman year is a time of adjustment. It is a time when new friendships are formed and old ones are strengthened. It is a time when new ideas are explored and old ones are reconsidered. It is a time when new experiences are sought and old ones are enjoyed. It is a time of growth and development. It is a time of challenges and opportunities. It is a time of discovery and self-discovery. It is a time of learning and growing.

The freshman year is a time of change. It is a time when the old ways of thinking and doing things are challenged and new ways are explored. It is a time when the old self is challenged and new selves are discovered. It is a time when the old ideas are challenged and new ideas are explored. It is a time when the old ways of living are challenged and new ways of living are discovered. It is a time of growth and development. It is a time of challenges and opportunities. It is a time of discovery and self-discovery. It is a time of learning and growing.

The freshman year is a time of excitement. It is a time when new adventures are sought and old ones are enjoyed. It is a time when new experiences are sought and old ones are enjoyed. It is a time of challenges and opportunities. It is a time of discovery and self-discovery. It is a time of learning and growing.

The freshman year is a time of exploration. It is a time when new ideas are explored and old ones are reconsidered. It is a time when new experiences are sought and old ones are enjoyed. It is a time of challenges and opportunities. It is a time of discovery and self-discovery. It is a time of learning and growing.

The freshman year is a time of growth. It is a time when new abilities are developed and old ones are strengthened. It is a time when new skills are acquired and old ones are improved. It is a time of challenges and opportunities. It is a time of discovery and self-discovery. It is a time of learning and growing.

The freshman year is a time of development. It is a time when new ideas are explored and old ones are reconsidered. It is a time when new experiences are sought and old ones are enjoyed. It is a time of challenges and opportunities. It is a time of discovery and self-discovery. It is a time of learning and growing.

The freshman year is a time of self-discovery. It is a time when new ideas are explored and old ones are reconsidered. It is a time when new experiences are sought and old ones are enjoyed. It is a time of challenges and opportunities. It is a time of discovery and self-discovery. It is a time of learning and growing.
