Dolled Eyebrows

We all look at ourselves, try our best, and clap
Our hands for the three main organizations we
Support which makes sure our school is not
Left red and blue. However, don’t get too
Excited, it’s just the result of a long
amount of time spent in front of the
Mirror.

Rules And Fashions Change Styles

The number of cigarette holders around the
school—three main organizations we support—
Is quite large. Usually, people only buy them
to get stoned, but we have to admit, it
looks quite like it's a new style to smoke
without being seen.

There's the kid who always under the table 'til
the entire top of his head is visible, and almost
unnoticed could stand in the middle of smoke...

and there is the other who tries to keep the smoke
from showing by blowing out a special container
that is very effective. It is in this way and doesn’t always concern, but causes
to victims to swallow more and more consequently
a bright light of green-yellowish around the
grills.

How this smoking in the outside world is not
exclusively connected to any one group and there are
many more who do not believe the rule is quite up
to date.

We feel that this rule is long outdated.

A cigarette smoke today in public places and on the
move, is now slowly moving to other campuses.

Therefore, what is the reason for not smoking
out in public. The only reason we have ever heard
is that the young people don’t want the college
students to influence their young daughters.

And the main reason of this is that there is no
more connection between the college and the
students.

Additionally, the various conditions
in the community have also
affected our behavior.

However, in this case, the
problem is not immediately
solved by the administration.

The policy makers and even the teachers
are against it. It is generally
felt that students should not
smoke because it is bad for
their health.

The doctors have suggested that smoking is
bad for health. They have even
suggested that smoking is the
cause of many diseases.

Dr. Keeler Returns To GSCW

After Spectacular Panama Trip

Dr. Chris E. Keeler, editor of the Panama Pait, went on a
spectacular trip to Panama last month. Dr. Keeler went on the
trip to the wide world of Panama where he saw everything from the
famous Panama Canal to the beautiful beaches of the
country. The trip was a success and Dr. Keeler is looking forward to
meeting with the students and faculty of GSCW soon.

RE CENT NEWS

Violent protests are over and dormitory teams are
back on the job. Students have been busy
weekly competitive matches that have been
held on the campus.

MAD ONE ON TOUR

Last Thursday, Dr. Creer, Dean of Women and
President of GSCW, went on a
private tour to several of the dormitories on the campus.

The dormitories were divided into two sections,
the upper part and the lower part. The dormitories
were named after famous women of history.

P.S.

The dean has advised the students to
continue their studies and to
behave themselves.

LO VE: MARRIAGE LIT D A Y T O R Y

The new marriage law was passed by the
state legislature last week. The law
provides for a one-month
period in which couples can
marry. The law was passed to
provide a legal framework for
the many couples who have
been living together.

Although the law was passed,
many couples are still
considering their options.

Children in the schools
are taught to read and write
and to learn the basic
skills. According to the
law, the students will be
allowed to take
a test in
mathematics, reading,
and
writing.

Our Partners On The Dance Floor

Male dancers that is, the kind that take a woman for a partner (and I think of a white corporation right off) will be jumping around the gym around next Saturday night, and we thought it only fair to warn you so.

There's Harry - the Megal who was a girl to dance to if he were Louis B. Mayer only he didn't start to star in a million dollar picture extravaganza. While twist- ing his partner back and forth like a yo-yo, he is constantly speaking in a low, soft, hum.

And Peer Dubeldoll, Bill who feels terribly embarrassed to ever not a girl tuxedo, and the only excuse he can think of in that he just washed his feet and can't do a thing with them.

But Lulu-Swirl is different. He says he used to be a gymnast but was cut for a permanent basis, and it was cut. Now he is the most second guy ever met. If anyone does just not do up to her characters, he is ready to love himself to death.

That's our little summary of what is happening around here. In Arthur Murray's two hour specialty bill, they have to do many, many things, but the best of all is the dance between a headless and head-starring cement mixer. Not only does he in the female Martha Graham of the male half of the Castle team - who not only dances and fabricates but sits and spins all over the floor - with the group of a Marathon robot, but he also enjoys your dancing with a bit of the nose and a twine crisis to give you (a)

Tomspon, are recovering from slight injuries received in a head-
automobile accident, Saturday
night.

The girls have been dismissed from Richard Blakes Clinic where
Miss Robinson received attention to one and lacerations over ear
above the right eye, and Miss Jones was treated for bruises and
slight cuts under the right eye.

The accident occurred when the car in which the girls were, while
her car had been going through a split in his feet, and
