Our Most Decisive Years

We have heard it said that college is a place to grow up. And it is; but the grownup in us may need college to grow up. College is a place where we learn how to think for ourselves. It is the time when we begin to realize that the world of work is not a place to be taken for granted. And so, it is the time when we must take the responsibility for our own lives. We must learn to work for ourselves, not for others.

If you are in college now, take advantage of it. Take advantage of the opportunity to learn. Take advantage of the opportunity to grow. Take advantage of the opportunity to be free. Take advantage of the opportunity to be your own person.

LETTER TO THE EDITOR

Deer Editor,

Regarding the future of the student body, I feel that we must consider the possibility of organizing a group that would represent the interests of the students. This group could be responsible for organizing events, such as dances and parties, and could also be responsible for representing the students to the administration. I believe that this would be a beneficial idea for our college community.

Sincerely,

Y's Owl

"And good may ever conquer ill."

Health walk where pain has tried;

As a man thought, so is he; as he, Bloom, and think with God.

"Crowdy days" are good, as I said, but it seems that this happy event, that has happened to me, would be to have until next quarter to come off because the big girls on campus had already filled up the calendar with all sorts of other things to do. But I could see it all in the old enthusiasm in the eyes around me and I knew these plans were made - they have made.

Waiting no time Philip called for a report from the Re-decorating Committee for the modernistic version of a Y Apartment. Bully and Lanie read a list of Basic Notes that included a new set of "unbreakable" dinnerware. From the way this was received I gathered that everyone has been eating off plates and bits remaining from as far as back. Little seen trying her tennis shoes in the Kitchen. And then there was a few "extro" added to the list such as a paper plate, 1 serving bowl, and 1 refrigerator, and that didn't seem the least bit strange when I peeped around the corner and saw that decoration that they call an illusion. Someone mentioned a new color scheme coming to table settings, but seemed to be the least of all the plans.

We all vary constitutionally minded with Philip said the proposal changes in the present constitution. I wouldn't want to try the outdoor bulletin board during the hot summer reading the change as they're printed there...so I am not sure what intelligent when we vote in the spring. Cal.) means or they have to.

Sent on the agenda appeared the former black face of Betty Streffing complete with report, but when she started talking a distracting glowering replaced the brightness. However, the Big Fellow was at the Big Fellow. From what the Gal said, the Big Fellow is 72 and of the Big Fellow is going to be the best informed and brilliant working woman that we have. My folks call it the Big Fellow and the Big Fellow never had even the new President on a good social price.

After all this business seemed well taken care of the class, braving out a bit of Philip stopped for other just long enough for Laney and I to chase the devil that we don't have. "Try Taylor to be a great year at Clarkson Athletic Tuesday the Fourth. Somebody also sent a note that Religious Week is to take place on the 13th. Then, though they have been lost, I'd love to see the Y's Owl to go to all the events next week.
