**Class of ’55 Finds Living Under**

**The Senior Code is Great Challenge**

Each year at GCSCW the Senior Class has the privilege of creating their own living rules — a Senior Code. This year the Senior Class decided that the sort of Code they can all agree upon is needed. The Senior Class participated in the process of creating the code and represented the views of all seniors present. The Senior Class presented the Code to the Faculty Committee on Student Relations for approval.

The Code of the Class of 1955 was accepted by the Faculty at a presentation and formalities began under living rules for the 1955-56 academic year. The Senior Code is as follows: We, the Senior Class of 1955, believing that we have attained a level of maturity which enables us to shoulder responsibilities and that we are capable of exercising them, hereby present the Code which we feel it is in each of us to carry out. We therefore, the present members of this Senior Class pledge ourselves to share our responsibilities and to uphold this code, for "when one falls down he falls for the benefit of all, and if any man among us acknowledge his mistake, he who, whether faster and sooner of feet, removes not the stumbling-block."
