It's election time again on the campus of GSCW. Following the example of the three major offices of student government, all eligible voters will have an opportunity to voice their opinion of the administration.

The College Government Association (CGA) is an organization established to provide a forum for the discussion of all topics of interest to the students of GSCW, to serve as a channel of communication between the student body and the administration, and to conduct any activities which are in the best interests of the students. The CGA is composed of representatives, elected by the student body, who meet regularly to discuss campus issues and to plan events. The CGA also sponsors various clubs and activities, and is responsible for overseeing the operation of the student union.

The CGA has recently announced the election for the positions of President and Vice President for the upcoming academic year. All students who are registered to vote at GSCW are eligible to run for these positions. The election will take place on campus in the near future, and the winners will be announced soon.

In addition to the presidential elections, the CGA has also announced the election for the position of Vice President for Student Affairs. This position is responsible for overseeing the student involvement programs, such as the Student Activities Office, the Student Life Office, and the Campus Recreation Center. The election for this position will also take place on campus in the near future, and the winner will be announced soon.

The CGA encourages all eligible students to participate in these elections and to exercise their right to vote. The elections are an important part of the democratic process and are essential to the functioning of the student government. By participating, students can ensure that their voices are heard and that their interests are represented.

For more information about the CGA or the presidential and vice presidential elections, please contact the CGA office or visit the CGA website. The CGA can be found on campus near the main entrance or can be contacted by phone or email.

The CGA also encourages all eligible students to become involved in the student government. There are many opportunities to participate in the activities of the CGA, and members are welcome to attend any CGA meeting or event. The CGA meets regularly on campus, and all meetings are open to the public.

The CGA thanks all eligible students for their support and encourages them to participate in the upcoming elections. The CGA looks forward to working with all members of the student body to ensure a strong and vibrant student government.

THE FOLLOW THROUGH

Not bored here with athletic ability. I was totally con-
vinced on running and playing. And my athletic education
areas were among the required requisites for a diploma. It
was my intention to run and never did, and even though
books went out of my mind.

As you all must be acquainted with the term
"the follow through", it is
not what you mean to
be, but what you mean
to be. The thing that is
most important as many
writers have said is "the
follow through".

GETTING TO THE POINT

Getting to this point doesn’t mean that
it took too long. It takes a long time to
get to this point, which is an important
point. Getting there is easy.

To get to this point, the following steps
are important:

1. Decide what you want to do.
2. Make a plan.
3. Execute the plan.
4. Evaluate the results.
