The month of January brings the annual Polio Drive through the United States and the drive in Baldwin County is headed by Dr. Henry King Stanford, president of the State College for Women.

Students of G.S.C.W. will have opportunity to contribute to the Polio Drive by selling Can collectors which will be placed in the dormitories. There are also can collectors in the student Union.

Events Scheduled For Observance Of World University Service Week
W. U. S. — Remember the World University Service Week February 5-11. The time when college students all over the world will have the opportunity to do their part and receive hands-on experience.

Two sessions of反映了课程, a committee of W. U. S., announce that the first event of the week in the American College Council will be held in the Union on Thursday, February 5, at 8 p.m.
The location for the second day, February 7, will be announced later.

The committee is planning two events on this World University Service Week. One is a discussion of the week's theme by Mr. John Holmes, chairman, and the other is a panel discussion of the theme by some of the faculty members.

The committee is inviting all students and faculty members to attend these events.

Dining Hall Etiquette
Activites on the campus are not limited to the individual student but on the whole, of the students. A good example of this is the GSGC, a club for students who are interested in dining hall activities.

Many students have become involved in the dining hall activities and have found that it is a fun way to meet new people and to get to know other students.

The Reign Of Confusion
Confusion and chaos are a part of life. They are a natural part of the human experience. It is impossible to avoid confusion and chaos completely. However, it is possible to learn how to manage them.

It is important to remember that confusion and chaos are a part of life and that it is possible to learn to manage them.

Faculty Opinion
"Cultural Opportunities" Reviewed
TO THE EDITOR,
I commend you for the attention you have given to the "Cultural Opportunities" program. It is wonderful to see the interest that students are showing in these cultural events.

Cultural opportunities are an important part of the college experience. They provide students with the opportunity to learn more about different cultures and to appreciate the diversity of the world.

I would like to encourage the college to continue to offer cultural opportunities and to provide students with the opportunity to learn more about different cultures.

Sincerely yours,
[Your Name]
