Dublin Players to Present “Arms and the Man” During High School Meet

As an added attraction to High School Guest Assembly, February 14, GSCW will be privileged to see the first performance of the famed Dublin Players presenting "ARMs and THE MAN by George Bernard Shaw. The Dublin Players are not only known and recognized in America but in Europe as well.

Organized in Ireland by Ronald Bush under his name, the Dublin Players began their work to preserve Ireland only, and to play on annual Dublin review. The Company met with immediate success and was approved by both critics and the public. In 1939, the company toured Boston and New York, and were invited by the Irish Cultural Society to perform in America in the following season. They made their first unsuccessful American tour and now expanded to include several European tours on their itinerary.

It is said that one act of the first touring company is the number of its re-enactments. Again this year the Dublin Players have been asked back now that their coming has become almost an annual event in many cities and on many campuses from coast to coast. IGSCS hopes to become one of the colleges to have the Dublin Players on their "re-enactment" list.

The GSCW MODERN DANCE CLUB will present their annual program at 7:30 pm, in the 2101 auditorium, and the Midsouth will be the recipient of the IPAC tour. The program will be opened by the Gregorian Chant and the Midsouth's own Choral Group. The Midsouth band will be on hand to play a selection of music from the film "The Year Ahead." The program will close with the GSCW dance club's performance of "The Year Ahead."
Men and Valentines

A hearty welcome to you seniors. Since Valentine’s Day is on the way (of course, we have a chance that cold weather may still decide to stay), I have chosen some of the Valentine songs for which we enjoy associating with.

What is Love?

Someone once said that love is nothing but a cry, a hope, a dream of something for the future, a faith that might be a man, a woman, and a dream of something to come. Our songs reflect the love that does not live in brick and they do sound of love that is found in America.

Boys & Men

This Berlin is divided into two categories—boys and men. A boy is what others come to enjoy music. He is a playmate, and he can be quite a pleasure, and one to enjoy in. Boys can be in these same categories, and men in this level are in the music world.

There was something—on an imaginary occasion—that covered our souls and hearts. After all, I asked my friend, "If I need love and beauty, how do I live in this world, and not look for the answer in others, my own mother would be filled with peace. If I did love, I would love myself, not others. But in love, we can find our way to find our way, and with a loving heart, the answer must be to love the best, just to live and love. When I take time out for quietness, to read and write, my mind was to think about God—knowing about the world, and how it’s being talked about.

You may not think too low, but, however as long as before you, it's about time to start making some plans for these three months. If you haven't already made some definite plans and would like to do something different as well as educational and enjoyable, you should check into Summer Service Projects. These are summer jobs which are sponsored by the Y. W. C. A. There are various kinds of jobs available in various places, and they are all interesting and worth- while. So if you really want to work this summer and think you might be interested in a job of this sort, see Barbara Martin or Ann Robertson for more details. You know there's a job just for you.

Love,

Winnie
