Do Dreams Come True?

By Elizabeth King

A lovely place for intimacy. The furnishings are all charming, the mood is just right for conversation. A very lovely evening for a couple who love each other and wish to be alone. The music is soft and soothing, and the atmosphere is perfectly comfortable for those who wish to enjoy each other's company.

Academically Speaking

By Lois Fisher

Secretary of Scholarship

Our college is one of the most prestigious in the United States, and we are all very proud of it. The reputation of our college is based on the quality of our students, faculty, and staff. We are all committed to providing the best possible education for our students, and we are proud of the fact that our college is ranked among the top universities in the country.

First Impressions

A question remains as to whether or not a dream can come true. This is a very important question, and it is one that we must all consider. Dreams can come true, and we must be willing to work hard to make them a reality.

Letter to Editor

Dear Editor,

I am writing to express my concern about the current state of our country. Our government is not doing enough to address the pressing issues that we face, and I believe that we need to take action to ensure a better future for all of us.

Ena Maria La Toue Welcomed To WCG As Exchange Student

by Halen Demby

Among the exchange students at The Woman's College of Georgia the milling faces of Ena Maria La Toue of Lima, Peru, Ena knew from her parents, two sisters, and a brother in Peru, Peru, written to about 600 miles from Lima, the capital. Ena's father is a businessman and is a member of the Rotary Club. Ena arrived and received a scholarship to come to the United States to study.

More Ena attended American schools in Peru, she does not find it too difficult to adjust to the school life in the United States. However, Ena does not find unusual to attend the same classes every day. When Ena went to high school, the minimum amount of courses a student could take was thirteen a year, plus physical education. The fact that every course would not be taken every day added great variety and change to each student's schedule. Ena's high school years were devoted to the study of the English language, one of the reasons that prompted her to come to the United States. Although Ena is studying the English language, she is taking her major in Business Administration. However, Ena is somewhat familiar with the business world. After graduation in 1960, Ena worked for some time as a secretary. At the completion of this college year, she plans to return to Peru in the fall of the business.

Although Ena is fairly familiar with the American way of life, she finds that many things are very different more than in Peru. Schools, as already mentioned, are operated on very different basis, and studying there is on a much higher level. When students graduate from high school in Peru, their education is equivalent to one or two years of college in the United States. Ena finds, also, that the food is much different. Since many Spanish speaking people eat highly seasoned food, adjusting to a diet of hardly no seasoning, with the exception of salt, is a very difficult adjustment. The fact that girls and boys wear Bermudas shorts annoyed Ena. In Peru, everyone wears short shorts except the little girls who wear the Bermuda shorts. It was quite a shock for Ena to see boys at the Miami airport wearing Bermudas shorts.

As Ena invited to Miami on September 5, she noticed also that she was in for a weather adjustment. In Peru the weather is sunny most all the time with very little rain. However, Ena arrived in Minneapolis, she had to pull on her coat. Another thing that Ena noticed was the way the left hand in Miami and Geneva was the great number of Negroes in the United States. Since there are very, very

1. Bicyclists are not permitted the business district.
2. Students should not visit the Negro section, noncitizen, or the vicinity of GMC.
