College Theatre

Presents 'Korea'

Under the skillful direction of Mr. Leonard Harb and the arithetic execution of the W.C. Theater group, the Winter Quarter one- act play "Korea" will be presented Feb. 27, 28, 29, and 31 p.m. in Russell Auditorium.

The play is a thought-provoking, out of drama about people. It concerns human beings reacting to the inevitable—the initial incomprehensible shock of death.

This opportunity is avail-

able for the 75c admission price.

Renovation

Of Lanier

Renovation of Lanier has begun and completed evacua-
tion of the building will be made by February 26. The Business Department has moved to Mayfair, an old home across from the President’s Mansion. Plans will be announced later as to the location of the mathematics and Eng-
lish Departments.

The renovation will con-

sist of new doors, new window-
dows, a new heating and cooling system, and refinishing of the walls. The process will last through the summer, and occupancy is scheduled for early in fall quarter of 1964.

Business majors will be allowed use of Mayfair but on a restricted basis. Since the present location is off-
campus, there will be limited hours as to when the typewriters and busi-
ness machines are available.

Jean Erdman - Dancer

Although Jean Erdman received her early dance training in ballet, ethnic dances, and modern dances, she was a member of Martha Graham’s Company of modern dancers until 1945. Since that time she has appear-
ed both as soloist and as the choreographer and head of her own dance group. Jean Erdman has her own school of dance in New York; she has been an artist-in-residence at various times at the Uni-
versity of Colorado, University of British Columbia, and the University of Hawaii. For three years she held the position of Assistant at Barnard College. In 1953 Miss Erdman be-
gan working on the idea of a dance based upon the central figure of Anna Lipia Plurabelle in Jean Erdman’s "Fugue." Despite the fact that she does not follow the form of the book, the actors relate their dance to the Fugue" to the actual scene directly from the text.

"The Court with the Six Inside," opened on No-

vember 26, 1962, at the Village Square Theatre in Newnan, Georgia, where the limited run was ex-

extended to sixteen weeks. Since that time, it has been presented at the Festival of Two Worlds in Spoleto, Italy, in Jun, 1963; at the theater arts in San Francisco in 1964 (Cont. on Page 3).
Speaking Out
By Lyon Horton
A newspaper, in some respects, is like a human being. It reflects favorably or unfavorably what is criticized or prone to profit from the criticism, and when it is ignored, it is prone to just shut up and go away. It is difficult for one who has never worked on a newspaper to realize exactly what goes into getting one out. This writer has just finished a day's work and he was reminded of just how much goes into just getting the newspaper out.

There is a great deal of work involved in the daily running of a newspaper. The work is not always obvious to the reader, but it certainly exists. It is the work of the editorial writer, the reporter, the photographer, the printer, the type-setter, the pressman, and the distribution personnel.

In addition to the daily work, there is also the work of the business office, the advertising department, and the circulation department. All of these departments are necessary to keep the newspaper in operation.

The work of the editorial writer is perhaps the most obvious. He is the one who writes the articles that appear in the newspaper. He is also the one who is responsible for the opinion sections of the newspaper.

The work of the reporter is perhaps the most difficult. He is the one who goes out into the field and finds the news. He is the one who must be able to write quickly and accurately.

The work of the photographer is also important. He is the one who captures the visual aspects of the news. He must be able to use his camera to tell the story of the news.

The work of the printer and the type-setter is also important. They are the ones who set the type and print the newspaper. They must be able to do this quickly and accurately.

The work of the distribution personnel is also important. They are the ones who deliver the newspaper to the readers. They must be able to do this quickly and accurately.

In conclusion, the work of a newspaper is a complex one. It involves many different people and departments. It is a job that requires a great deal of skill and effort. But it is also a job that is very rewarding. It is a job that allows one to make a difference in the world.
The arrival of the robin on the campus scene signals the coming of spring, which seems to set off a new awakening of interest in styles and appearance. Perhaps you might like to feel a new look by having your hair styled at Jewel’s Beauty Shop. To go with the fresh, new hairdo, the Union Department Store has in stock a shipment of spring shoes and bags of patent leather in many pastel shades to match the latest fashion colors. For the accent of spring, Ambush by Dana, as well as Canon and English Leather for the man in your life, is available at Harrold’s.

Harrold’s has already begun to sell swimsuits. The styles are especially eye-catching this season. You’d better select yours before they are all picked over. To give your wool clothes a last minute lift before warm weather arrives, why not go over to Tony’s Protective Laundry and Dry Cleaners and clean them in one of those self-operating drycleaning machines? Not only do they do a nice job, but they are also inexpen-

sive and easy to operate. Spring quarter is not too far away for you to be deciding what sports activities you will be participat-
ing in. Whatever your choice, Knight’s Sporting Goods will be ready with the equipment you need. At Chandler Brothers Hardware, you can find some good, inexpensive
