Letters To The Editor

October 30, 1967

Dear Editor:

In response to the letter regarding that the S.U. be put off because to cadets until 1950, I am pleased to announce that we have observed that there are more and more students in the S.U. especially during the last period a lot of the G.M.C. boys come in the S.U. to get their individual classes and the cadets do not contribute much to the business of the S.U.

Some of our coeds may not have attended a non-coeducational school and do not realize the foolishness that results. The cadets have been around much longer than our own and have made many would-be bugs turn into successful students, and the S.U. is good in every way, particular in its warm.

We realize that some people come into the S.U. thinking that the number of cadets has not increased, as it shouldn’t be increased, we would like to stress the point that the S.U. has many needs and many students and we feel that the staff should continue to put it all in a guide to what if they want to continue to continue. It is possible that the S.U. may not be as it is supposed to be, but it is important that we continue to support such a fine institution.

Sincerely,

Irish Take Swim Meet

On Wednesday, October 25, Rec's annual swim meet was held at the indoor pool. Classes turned out eagerly, and spirit was the by-word for the entire competition. Relay races, form events, and novelty relays provided an opportunity for all to participate. As usual, the freshmen walked (or rather swam) away with the Bager Beaver Award. In the class competition the Irish juniors pulled ahead to win a roasting first while their sister class, the Royals, followed closely to come in second. The Thunderbirds swooped down into third place, and the Elephants lumbered in last. Roberta Pederson, who was in charge of this year's swim meet, said that this was one of the most spirited ones that she has seen.

THE COLONNADE

however, is in a lack of more dedicated students (especially freshmen) on the staff of The Colon- nade. Having had some experience in journalism, I can honestly say that newspaper work is very rewarding and satisfying, although very demanding. Journalism experience at the college level has often provided the springboard for successful careers in broadcast journalism, newspaper reporting, government service, and public relations, as well as in many other fields. The problem is crystal-clear: lack of general student support for the newspaper, a minimum of participation by qualified students, and the absence of a journalism department at Georgia College. Surely the solution would be more student support for our newspaper and the staff than is evident today. The challenge is there — let the students accept it.

Respectfully.
